Feds Asked To Aid Locals In Metro Squad Inquiry

By TROY MARTIN

Federal agents have been requested to aid in investigation of circumstances surrounding suspension of Randall-Potter Metro Intelligence Unit Coordinator Joe Bowes if the Justice Department rules that there is federal jurisdiction.

Bowes, coordinator of the unit since it was initiated in early 1971, was suspended indefinitely Monday for what the unit board of governors termed "certain irregularities in Metro Unit records."

Canyon Police Department and West Texas State University Security Department temporarily withdrew their men from the unit which is made up of officers from participating entities.

Authorities near the investigation were evasive.

Future of the Metro Unit itself was cloudy at mid-week.

Ken Carter, financial officer with the Texas Criminal Justice Council, indicated that federal funds funneled through the council for operation of the unit could be affected.

"We are awaiting some other decisions," said Carter indicating a definite preference not to talk about it at all. "It will be

determined by an audit. I hate to say anything right now."

Possibility that the Federal Bureau of Investigation might become involved in the probe stems from the fact that something like half the cost of operating the unit is funded by the federal government.

The Justice Department is studying the matter of jurisdiction.

J.C. Lilly, with the Amarillo City accounting department,

said federal funds allocated to the unit for operation from March of 1971 to March of this year came to \$79,570.67 and to \$76,340.00 for the current year.

Carter said his office in Austin was notified of the Metro Unit irregularities several days ago.

"We've been apprised of it and we've been working on it," declared the Justice Council official.

Potter County District Attorney Tom Curtis declined to say whether any action would be taken by his office as a result of the probe.

"It's just premature at this time to say," declared Curtis under questioning on that aspect of the case.

Amarillo Police Chief Paul Hulsey issued the statement on the Bowes suspension after a lengthy meeting of the unit board of governors at which Bowes was reported to have been questioned intensively behind closed doors.

Chief Hulsey took personal command of the Metro Unit at that point. The board's statement follows:

"The Potter County Metro board of governors met in special session this morning (Monday) along with District Attorney Tom Curtis and Amarillo City Attorney Don Cheatum to discuss a personnel matter involving certain irregularities in the Metro Unit records. Coordinator Joe Bowes met before the board to answer questions. An investigation is continuing and the city attorney's office is preparing indefinite suspension papers for Mr. Bowes."

Canyon Police Chief Al Stewart said that in effect the

Mrs. Andrea Green returned from the Democratic national convention this week and brought all sorts of memorabilia with her. As

an alternate delegate, Mrs. Green was accorded the same rights — exclusive of voting — as delegates.

Schools Note Budget Surplus

Vocational School Possible

By CARROLL WILSON

The Canyon Independent School District will probably wind up this fiscal year with a \$17,000 surplus, but the district may have to come up with as much as \$250,000 in the next two to three years for an area vocational school.

School Supt. Jerry Jacobs

handed out the \$2.5 million 1971-72 budget to school board members Tuesday night with a smile on his face.

"After last year when we had a deficit of about \$55,000 due to the completion of the junior high school, I feel good about projecting a budget which is a few thousand dollars in the black," he told board members. "My pri-

mary purpose in handing this out is to share some good news with you."

Jacobs said the end-of-year projection is based on a tax collection rate of 97 per cent.

After the board had examined the school district's financial picture, Jacobs told them a project for construction of a vocational school in Canyon may be

approved within a short period of time.

Construction of the vocational facility would require about \$500,000, he said, and the local board would have to supply half of that amount.

Jacobs said that about 3 1/2 years ago, he made application to the state for funding for a vocational school in the district.

The school superintendent said he was in Austin recently and discovered that Canyon's request has been incorporated into a master state-wide vocational school plan.

Canyon's vocational project was listed in the plan to begin in October 1972.

But, Jacobs told board members he is not certain the state legislature approved the vocational plan in the recently passed appropriations bill, and that such approval may be forthcoming within the next two to

(See SCHOOL, Page 11)

Tower Will Remain Until Hearing Date

The Randall County man who has erected a tower on his property at the end of the runway at Tradewinds Airport says he'll leave his tower in place until he appears at a hearing in district court.

Bob Gilbert told The Canyon News Tuesday he doesn't "feel like I'll take it down from all indications."

Gilbert will appear at 9 a.m. Aug. 8 before 47th District Court Judge E.E. "Gene" Jordan.

The Randall County District Attorney's office Monday filed a petition seeking the hearing and calling on Gilbert to show cause why he should not take the tower down.

Gilbert erected the 18-20 foot tower at the end of the Tradewinds Airport north-south runway to, as he said, merely protect his air space.

Gilbert contends he and his neighbors are being mistreated as a result of a recent extension of Tradewind's runway to within a few feet of their property.

He told the News two weeks ago the Tradewind management led adjoining property owners to believe they were only going to repair the existing run-

way.

"I've had the tower up there for the past 10 years," he said earlier. "They asked me to take it down as a safety factor. I laid it down before they started the runway about three months ago. I put it back up about a month ago. They told me they were going to extend the runway."

Gilbert told the News the run-

Water Worries Weighed During Commission Meet

Water—not enough of it, too much of it and how to get more of it—was the main item of discussion for city commissioners Monday night.

Two property owners who live just outside Canyon's city limits appeared before the commission complaining that the city will not install water meters and extend water lines to their property.

Representatives of the Palo

Duro Soil and Water Conservation District appeared and asked the city to sponsor a watershed survey to see if flood control devices are necessary on two area creeks.

And, the commission passed a resolution adopting a long-range water and sewer system plan, which includes specific plans for the city to increase its water supply.

C. S. Thompson and his wife, of Palo Duro Drive just east of the city, and Gary Nall, who just bought property in the same area appeared before the commission and asked that the city annex their property and that of about 18 other landowners in that area.

In seeking the voluntary annexation, the three cited difficulties in obtaining water and questioned the city's policy of not extending water and sewer facilities to immediately outlying property.

Canyon's mayor, Dr. J. Manly Bryan, explained that for several years it has been city policy not to establish water and sewer facilities for adjacent areas.

"We don't have as much water as we thought we would," Bryan said. "And, it costs a tremendous amount of money to get more water. Since the citizens of Canyon are paying for this, they should get first chance."

Bryan pointed out that Canyon residents are taxed to pay in part for water exploration and drilling. Area residents who do not live in Canyon do not pay those taxes, and, in effect, are not paying for the water, he said.

Thompson said he and his wife had polled the 18 landowners in the area of the Crow addition in which he lives, and 15 of them had said they will be willing to join the city of Canyon.

she doesn't necessarily mean the milling about, the seeming confusion and the raucous backslapping which came across to television viewers from the convention's floor.

When asked about the convention and its excitement, she speaks not of the speeches and the voting and the politicking.

She speaks, rather, of individuals, individuals from every corner of the country who came to Miami sharing her idealism and beliefs.

As an alternate delegate, Mrs. Green wasn't confined to her seat or to a specific area of the vast convention hall. And, she took

(See DEMO, Page 11)

County Delays Road Paving Okay

After several years trying to get Randall County to pave his street, Joe Hodges came only slightly closer to that goal Monday when he appeared before county commissioners.

Hodges, who appeared with two other property owners at the meeting, said he hopes the county will pave about a mile of Arden Road just outside the Amarillo city limits.

He said he was contacted ear-

lier by Commissioner John Fulgenzi, who told Hodges he would need a 100-foot right-of-way before the county could pave.

During Monday's meeting, Fulgenzi tried to convince other commissioners that the road could be paved even though it doesn't meet the county's 100-foot specifications.

Hodges told commissioners he had contacted two of the three landowners on Arden Road and had asked them to give up 20 feet each for widening and paving of the road.

He said he met opposition from both.

Arden Road is currently 60-feet wide.

Commissioners refused to pave the 60-foot road, but vowed to aid Hodges in securing approval from the landowners involved in order to widen the road.

It was a frustrating experience for Hodges.

"You'd be a lot prouder of a 100-foot road," Commissioner Jim Fletcher told the Arden Road contingent.

"We've been waiting so long, we probably wouldn't care," Hod-

(See COUNTY, Page 11)

WT Rights Study Underway Now

Investigators from the Office of Civil Rights, Department of Health, Education and Welfare, have been interviewing women employees of West Texas State University in an effort to determine if alleged discrimination against women does exist at the school.

The investigation began Monday when a three-member team of investigators met with administration officials.

The investigation is a result of a complaint filed last January by

the Women's Equity Action League (WEAL), a women's rights group.

Richard Kurtz, one of the investigators, said facts in the case would be assembled and a determination made as to whether there is any basis for the complaint.

"We don't draw any conclusions the first week," Kurtz said. "If the facts indicate something is wrong, then we will get with the university and have them work out an Affirmative Action Program."

He said WTSU officials would be notified if such a program is needed.

"If it is needed, we will ask the University to take specific steps to correct any violations of the Equal Employment Opportunity Program," he said.

Other members of the team are Mary Arkadie and Gloria Lynch. Kurtz said he did not know when a determination would be made as to whether WTSU would have to implement a corrective

(See RIGHTS, Page 11)

Noel Cavanagh, second from left, is an Australian sheep broker who is beginning to take a closer look at cattle. He and Max Steel, second from right, were members of a 31 member group of Australian businessmen

who toured the various aspects of the cattle industry in the Panhandle Wednesday. Here, just before boarding a bus for Palo Duro Canyon and the musical "Texas," Cavanagh and Steel chat with two companions.

Australian Cattlemen Tour Feeders in Area

BY BEN KECK

In Australia, there are twice as many cattle as there are people, and because of a "dramatic upsurge of the cattle business" in that country, a group of 30 Australian businessmen are completing a tour of the Texas Panhandle cattle feeding industry.

Noel Cavanagh, a wool and sheep broker from the Down Under continent, said wool and lamb and mutton prices have dropped drastically in the past two years, and that beef exports from Australia last year surpassed that of sheep products.

"In fact," Cavanagh said,

"Australia imported 530 million pounds of beef to the United States last year. That's almost half of the 1,133 million pounds of the total imported by the United States that year."

He said although sheep and wool prices have begun to make somewhat of a comeback the past month, there seems to be a gaining interest in cattle.

"We have 13 million people and 26 million cows down there," he said. "We have a few small feedlots, but it's a seasonal thing. I don't think any feedlots have over 2,700 head of cattle."

The group attended "Texas" at Palo Duro Canyon Tuesday

night, and spent all day Wednesday touring cattle facilities—all the way from auctions, ranches and feedlots to a steak house.

On the tour was Randall County Feed Yards.

Historically, Cavanagh said, Australia has "ridden on the back of the sheep."

"We eat more mutton and lamb than any other meat, and our run-

(See CATTLEMEN, Page 11)

Police Establish City Explorer Post

Canyon will have a Law Enforcement Explorers Post starting next week.

Police Chief Al Stewart announced plans Tuesday for establishment of such a post sponsored by the Canyon Police Department and the Boy Scouts of America.

Stewart said an organizational meeting will be at 7:30 p.m. Tuesday in the community center. Registration fee for the post will be \$1.

Even though the police department and scouts are sponsoring the post, the idea for its start here came from Stewart.

"I'd been thinking for along time about some way to get more involved with the youth of Canyon," he said, and added "other than giving them tickets."

For several weeks, Stewart

toyed with the idea of an explorer post which would be concerned with the law enforcement field, and his idea came to fruition after talking with Bob Bentley, district executive officer for the Boy Scouts.

Bentley provided the spur for Stewart.

"I decided we'd sponsor one if we could get enough people in it," he said. "If we get five people we'll go ahead and do it."

But, Stewart is hopeful that more than just five Canyon young men and women from 15-20 years of age will be interested enough to join the post.

In fact, he's busy this week mailing letters to 23 Canyon High School students who expressed an interest on a survey in

(See POLICE, Page 11)

Police Chief Al Stewart reads up on the Explorers in preparation for his establishment of a Law Enforcement Explorer Post in Can-

yon. The Post will be sponsored by the Police Department and the Boy Scouts of America. First meeting is next Tuesday.

FROM THE CANYON RIM

What has happened to the Randall-Potter Metro Intelligence Unit is regrettable but was predictable.

Child of the Panhandle Regional Planning Commission, the Metro Unit was conceived in lust for federal funds without any real thought about the actual need for such a unit.

Two years ago when the Texas Criminal Justice Council was formed local officials raked their brains for ways to get and spend the bonanza of federal cash being handed out.

The Metro Squad was formed as an elite corps to combat crime, especially narcotics and vice, and it has been nothing but a thorn in the side of law enforcement since.

Joe Bowes was moved ahead of officers of superior rank and experience to head the unit. There has never been a satisfactory explanation for this.

Theoretically supervision of the unit was vested in a board of governors drawn from participating agencies. As could have been expected, supervision was loose and the results near tragic.

Discrepancies in records of the Metro Unit have been the least of it. Discrepancies in conduct have been much more devastating to the morale of law enforcement officers of the area than the alleged "irregularities in Metro records" which led to the suspension of Bowes Monday.

The Metro Unit has confined itself largely to chasing teenage grass blowers and small time pushers but in its year and a half of existence it has not brought a single major supplier of narco-

officers, Secret Service, Treasury Department, Federal Bureau of Investigation, game wardens, West Texas State University Security Department and park rangers.

Surely sufficient experts when needed for specific case could be drawn from the ranks of these agencies, many of which are highly specialized.

I think Graham Purcell made a bad mistake last week when he announced he would vote for George McGovern.

I liked his previous statement that he would "maintain a heroic silence" much better.

"I, as an office holder, will vote for Senator McGovern," he said. "To do otherwise would jeopardize my position on the committees in Congress."

"I don't approve of many of the policies McGovern has said he is for and I don't believe most of the people in this area are in agreement with some of his policies."

Personally, I like Graham but as a newspaperman responsible to this area, I have to ask:

If he votes against his own conscience and the best interest of his constituency at the polls where his ballot is in secret, how can we trust him to choose between our interests and his own political interests if he is elected?

All-Stars Win Area

Canyon's Little League All-Stars won the area championship Tuesday night by defeating Dimmitt 8-5.

Next Monday night, the 'Stars travel to Dimmitt again to compete in district competition. They meet the winners of Area IV at 8 p.m.

Winning pitcher Tuesday was Terry Collins. Home runs were hit by Steve Schmidt and Davy Camfield.

to Congress where he must vote openly?

Press aides for both Congressman Bob Price and Congressman Graham Purcell are former employees of The Canyon News.

Claiborne Crain is an aid to Purcell. He sold advertising for The News before joining the congressman.

Mary Ann Walter is Bob's press aid. She was in the news department here on two occasions and is probably one of the most able newsmen in the Southwest.

I have been hearing that if McGovern is elected President all the deserters will come home and the businessmen will go to Canada.

Two Attend ROTC Camp

Two West Texas State University students are receiving practical work in military leadership at the Army Reserve Officers' Training Corps advanced summer camp at Ft. Riley, Kan., from June 10-July 21.

One of the trainees is Cadet David R. Woody, 23, son of Mr. and Mrs. Russell W. Woody, 2304 6th Ave., who is a graduate student at WTSU. He is a 1967 graduate of Hale Center High School and received his bachelor's degree at WT in 1971. He is a member of Phi Delta Theta fraternity.

Another of the trainees is Cadet Eric A. Corby, son of Mrs. Dorothy R. Corby of Ft. Worth, and Richard C. Corby of Station Canyon. Corby, a 1964 graduate of Arlington Heights High School, is scheduled to receive a B.S. degree in 1973 at WT.

The men are among more than 10,000 students attending Army ROTC training at six installations in the U.S.

Hospital Board Expected To Set Tax Rate Soon

Hospital Administrator Ray Grimes told the South Randall County Hospital Board that it is only a matter of weeks until the board will have to set its tax rate.

The board met Monday night at Canyon Community Center, and Grimes said he is planning to meet informally with the finance committee before completing the budget and asking the board to set the tax rate.

Grimes did not comment on the extent of the proposed budget, nor did he give any estimate of what the tax rate might be.

"The board may have to be called into a special meeting to approve the tax rate if we get it worked out prior to the next regular meeting," he said.

The meeting officially lasted less than 10 minutes.

Grimes presented a finance report and informed members that Bill O'Connell, the architect for the hospital, was returning to Canyon to go over the floor plans for the new facility.

O'Connell, a partner in O'Connell and Probst of Austin, worked with hospital personnel last month and a tentative plan was submitted to the board.

Grimes said there will be some changes in the plan, "because we want to build it right."

In his finance report to the board, Grimes said the board had \$134.46 cash on hand at the end of last month, and that \$390,000 is in the time deposit account at First National Bank, and \$395,000 is in time deposits at West Texas State Bank.

Both time deposits are for 90 days at 3 1/2 percent interest.

Amounts for both time deposits were transferred from the construction account maintained at the respective banks.

Letter To The Editor

Dear Editor:

Our farmers are now receiving assistance checks from the government for their important crops of wheat, grain sorghum, and cotton. These checks have been termed by detractors as "give away", "welfare", or "subsidies". The truth of the matter is that these checks mean the difference of retaining the family farmer on his land or seeing him forced out of business due to the cost-price squeeze and replaced by a large corporate conglomerate.

Many consumers and main street businessmen give lip service to the abundance of food provided by farmers as well as the business received from them. In too many instances, however, none of the groups mentioned appear in Congress to fight for better farm programs which will retain the population in rural areas so vitally needed in America today.

A fact that too few realize is that government farm programs add millions of dollars to our local economy. Most of our local businesses would close if it weren't for the once-a-year receipt of price-support checks. Farm programs mean a strong rural America (prosperous farmers as well as farmers). These farm programs include conservation assistance for protection

Watershed Area Survey Is Underway

With support of Canyon and Randall County assured, Soil Conservation Service officials here have started the necessary procedures to begin a preliminary examination of the regional watershed to determine if flood controls are needed.

John O'Connor, director of the service in the county, appeared before the city commission Monday night with Ed Wieck, of the Palo Duro Water and Soil Conservation District, and received the city's support on the preliminary project.

O'Connor said the field examination could begin within the next six months.

He said a team of engineers, hydrologists and conservationists will make the study, which is only a preliminary step to determine whether flooding along the Tierra Blanca Creek watershed and Palo Duro Creek watershed is likely enough to warrant a full-blown study and eventual establishment of controls.

of our agricultural resources as well as price-support programs. The organization which I head at the local level is dedicated to the principle of improving government programs so that they work for the betterment of the farmer as well as the consumer and small town merchant. The Farmers Union has consistently, throughout its 70-year history, proven that it is on the side of the family farmer and is concerned about keeping him on the land. It is not that our organization is anti-farmer or anti-corporation, but we feel that the strength of rural America is indeed in our family farmers and when rural America is strong, our rural communities will likewise remain strong.

Keeping government assistance at an adequate level (we believe this means a parity income equal to other segments of the economic sector) is a continuing struggle. Many groups oppose good farm programs which benefit family farmers as well as consumers. The agricultural trade and agri-business many times find themselves at odds with the bonafide family farmer because of their emphasis on "bigness" and "efficiency". Many times their lobbyists in Congress have influenced farm legislation to the detriment of family farms. Likewise, some of our farm organizations have not been as concerned with maintaining the family farmer as I would like to see.

As an example of the pressure to continuously weaken the farm programs for family farmers and shift the emphasis to large and "efficient" farms whether they be private or corporate, I would like to cite a recent study which was made by the U.S. Department of Agriculture. The "Young

Executives Committee" appointed by Agriculture Secretary Clifford Hardin a year ago, has recently published its report and its recommendations for future agricultural policy. According to the young USDA executives, "agricultural policy should be directed toward maintaining agriculture as a viable industry and not as a way of life." The USDA report terms present farm programs "costly", a detriment to efficient production, and a negligible value to second generation owners. Their recommendation is "phase out over 5 years, reduce loan rates to disaster price level for feed grain crops and wheat and zero for all other crops." The young executives term parity price as "not a good barometer of return nor of the welfare of the farmer." The USDA Young Executives report concludes, "the phase out would give a hard, downward push to annual farm income of perhaps 6 billion dollars at the beginning." The young executives do not see their proposals as doing in the family farm "but it would become a larger, more sophisticated unit." I urge those reading this "letter to the editor" to rally to the support of farm programs designed to better rural life and maintain the family farmer as a viable part of rural America. To farmers reading this, I urge, if you have not already done so, that you join forces with an organization that is seeking to retain program benefits and constantly seeking to better and expand these farm programs.

Sincerely,
Alfred G. Buerker
President
Potter-Randall Co.
Farmers Union

The Canyon News

The Canyon News, founded in 1896, is an independent newspaper dedicated to the best interest of the community, state and nation.

A subscription is \$8.40 a year in Randall and surrounding counties and \$10.50 a year elsewhere.

The Canyon News is published Sunday and Thursday at its offices, 1500 5th Avenue, Canyon, Texas. Second class postage is paid in Canyon. Zip Code 79015.

Hot Sun Can Cause Illness

The camper struggled up the steep canyon wall with a heavy load of gear.

Suddenly he saw curious black spots in the bright sunshine, felt himself grow dizzy and the ground rushed up to meet him.

When his family reached him he had fainted and turned an ashen gray. His skin was unusually clammy for the arid country.

What happened?

More important, what does the distraught family do to revive dad?

Parks and Wildlife officials warn that heat exhaustion and heat strokes are two of the most common of summertime afflictions. They can be serious if not recognized and treated in time.

Our camper ruined his outing with heat exhaustion.

The symptoms are weakness, dizziness and fainting. The victim is clammy to touch, pale and weak.

Get him to a cool place and administer a solution of one teaspoon salt in a quart of water.

The fatal relative of heat exhaustion is heat stroke.

Body temperature of a heat stroke victim is often 110 degrees and this can kill.

Lower the temperature with cool baths, cool towels or cold water rubdowns.

Administer the salt solution only if he is conscious.

Get the heat stroke victim to a physician at once.

Heat exhaustion and heat stroke can be prevented by the use of salt tablets and lots of water. Better yet, take it easy in the Texas sun.

Canyon Pair Takes Golf Tourney Honors

Mike Shadix and Randall Burton teamed up to win a playoff victory Sunday in the Canyon Country Club Partnership Golf Tourney, defeating the brother of National Open Champion Orville Moody.

Two birdies and an eagle enabled Shadix and Burton, both of Canyon, to defeat Lloyd Moody of Bethany, Okla., and Joe Ziegler of Canyon, who birdied all three playoff holes.

Both teams had 64-64-128 in regular play.

Jerry Boeka and Dick Weston of West Texas State University were the first round leaders, but fired only 63-66 in the low-ball tournament.

In the first flight, Jack Holmes and Earl Jackson of Amarillo were first with 60-66-126, three strokes ahead of another Amarillo team composed of S.T. Jackson and John Parker. The Jackson-Parker score was 72-67.

Tom Wardell and Albert O'Neal were third with 71-71-142 and a playoff win over Mark Fritts and Clay Teter, who posted 73-96-142.

Both third place teams also were from Amarillo.

In the second flight, John Hood and Jerry Tolbot of Borger were first with a 74-68-142. In second place was Bruce Winn of Canyon and Dean Kelley of Amarillo with 74-71-145, after a playoff victory over Larry Peters and Jay Phillips, both of Amarillo.

Malzahn Heads Statewide Survey

Dr. Ray A. Malzahn, vice president for academic affairs at West Texas State University, will chair a statewide study on the problems of transferring academic credits between Texas educational institutions.

The study will be made by the Coordinating Board, Texas College and University System and the Texas Association of Colleges and Universities.

It will deal with the problem of transfer of credits from junior to senior colleges, from senior to other senior institutions and from senior to junior colleges.

Commissioner Bevington Reed of the Coordinating Board said the operation of core curricula in business administration, science and liberal arts

has alleviated many difficulties, as will the newly adopted core in law enforcement education.

He said the new study "does not mean we are abandoning efforts to make operation of present cores more effective, nor does it mean we will suspend consideration of additional cores."

The commissioner said the purpose of the study is to develop transfer policies which protect the integrity of institutional programs and institutional autonomy and "at the same time protect the interest of the young people of the state."

The study committee will make recommendations to the Coordinating Board, Malzahn said.

The Bill Crows celebrated their 25th wedding anniversary Sunday evening with family and friends at the Canyon Community Center. (See Tidbits)

WT Netter Corbin Having Outstanding Summer Tour

West Texas State University varsity tennis player Dale Corbin is having an outstanding summer tennis tour and is meeting with success.

Two weeks ago he teamed with Tulsa University netter Bill Griffith to win the Mid-Continental tournament at Wichita, Kan., in men's singles. Last weekend he scored a fine 6-4, 7-6 win over Alan Crute of Kansas City in the finals of men's singles in the Mid-American tourney in St. Joseph, Mo.

"The win over Crute is one of Dale's better victories," said Buffalo coach David Kent after receiving a letter from Corbin. The Buffalo junior-to-be is now playing on the Pacific-Northwest tour. He will play in tournaments in Eugene, Ore., Seattle and Vancouver.

Corbin has lettered two years for the Buffaloes. He is from Wichita Falls.

Harry Tyson Is Head BG Trainer

The former head trainer of the West Texas State University Buffaloes, Harry Tyson, has been named head trainer for the Bowling Green (Ohio) State University Falcons.

Tyson was head trainer for the Buffs from 1962 to 1967, when he joined Bowling Green as assistant trainer.

He had served as head trainer at New Mexico State University while completing his bachelor's degree in 1961 and 1962.

He replaces Bob Livengood as the Falcon trainer.

Angels Are Champs In Pee Wee League

The Pee Wee division of the Little League has completed its 1972 season with the Angels leading the division with a 10-2 win — loss record.

"I think this has been a great season," said Dee Nix, division co-ordinator. "The players were more enthused this year, and they played much better all the way round. Fielding was better and hitting was better. Participation was just great and there was a lot of involvement."

Nix said one thing that contributed to better Pee Wee teams this year was a change in rules for the youngest of Little League players.

He said coaches did the pitching, allowing players to concentrate on fielding and other mechanics. Another rule change was that each batter got four strikes, and there were no walks. Nix said he had a special praise for the coaches this year, and for the volunteer umpires.

Coaches included Jerry Miller, Jim Brown, Walter Shelly, Dan White, Frank Castleberry, Sturdy Wanamaker, Don Rozell, Pat Shehan, Frank Davis, Lloyd Kurtz and Kent Peebles.

Pee Wee Division Champions this year are the Angels, who posted a season record of 10 wins and two losses. Team members are, from left, front row: Tom Nix, Jay Honeycutt, Terry Nix, Ted Clement, Harvey Sims,

Trent Miller. Second row: Kent Hall, Tim Hair, Ronnie Kennedy, Mike Bell, Ronnie Brown, John McCrady. Third row: Nolan Dees, Kirk Moore, Mark Brandt, Chris Sharke.

FINAL PEE WEE STANDINGS

Team	Won	Lost
Angels	10	2
Tigers	9	3
Senators	7	5
Red Sox	5	7

News Columnist Wins Pen Women Club Prize

Celebrating their Golden Anniversary Plus Two, Panhandle Pen Women met Tuesday at the Quality Motel in Amarillo for luncheon and workshop with a good representation of Canyon women attending.

Highlight of the meeting was an address by Wes Izzard, editor of the Amarillo Daily News, who gave recollections of his long-time association with the group of women writers and their late founder, Laura V. Hammer.

Winners of a current short-story contest were announced and included Ann Brown, Canyon News columnist, in second place and Glynn Wilson, Canyon poet, in third place. Pauline Robertson, Penwomen president of Wayside, received first place. The entries were judged by Jean Z. Owens, widely published author of popular fiction who has conducted workshops at Texas Tech in Lubbock. One of the Canyon writers, Marjorie Brewer, who is both artist and poet, has a short poem published in the Ideals volume, "Just Between Friends," now coming out on the newsstands. Her poem is entitled "If You Smile," and is only the latest of many poems published by Ideals and other magazines.

Other Canyon women present were Jean Galloway, Business teacher at Canyon High School, who has published principally in professional journals; Anita Lowe, who has completed a novel as part of a thesis at West Texas State University; and Geneva Berry, presently working on two non-fiction books with Western background.

Although not present at the celebration, another Canyon writer, Mrs. T.V. Reeves, has served as onetime president of the Panhandle Penwomen.

Jesse Powell: Pro-Sized Dolphin Now

Jesse Powell made it a four-year battle at West Texas State University and never won the fight. Sure, he made a big name for himself around collegiate football circles, but he never whipped a problem that bugged him for four years.

Only once, when a trainer turned his head and let Jesse proclaim his own weight while standing on the scales, did the Spur native ever reach the 200-pound mark.

The 6-3 Powell has taken care of that problem now and reported to the Miami Dolphin training camp last week to start his fourth season of professional football and he is now pro-sized. Powell hits the scales at 225 and has maintained the speed which made him such a standout defender at West Texas State.

Powell came out of Spur High School and enrolled at West Texas State without a scholarship. That situation was taken care of at the end of his first semester and then he started for three varsity seasons on Buffalo teams which had a 23-8 record from 1966 through 1968.

Inch-Plus Falls: More Rain Due

It may not rain often in the Texas Panhandle, but when it rains it does just that.

After showers the week before, Randall County was wetted again this week and by as much as two inches in some areas.

The National Weather Service says we're in for even more today, tonight and Friday.

But, even with the rain, the heat is not expected to let up through the weekend. Highs today are expected to near 90 and reach into the 90s Friday and this weekend.

Monday night, county residents braced for the worst after a weather service foul weather alert. And, preceded by dust, the storm blew through and dropped rain on the area through the early hours Tuesday.

All around the county, no amount less than an inch was recorded and most places received more than 1.5 inches.

Randall County Sheriff's Office reported 1.55 inches in downtown Canyon. In the eastern section of the city, 1.70 inches were recorded.

Outside the city, two inches were reported five miles east of Canyon and two inches were recorded about 12 miles southeast of the city. Umbarger received about 1.63 inches and officials at Buffalo Lake reported 1.70 inches.

If the rain was welcomed by farmer and ranchers and homeowners, it certainly didn't help matters at the musical drama "TEXAS" in Palo Duro Canyon State Park Monday night.

Officials at the box office reported the show was rained out, something which has happened only eight times before in the show's history.

Agent Testifies As WT Probe Continues

Dan Self, investigator with the Department of Public Safety, appeared Monday morning before the Randall County grand jury in connection with what has been termed the "West Texas State Investigation."

Self had appeared last month before the grand jury concerning charges by former WTSU security chief Bobby Hudson.

The new grand jury empaneled Monday met for four hours before adjourning until Aug. 14, when they are again expected to take up the investigation.

Self was the only witness called before Monday's session.

The grand jury returned four indictments on Billy Bob Walker for burglary by breaking; Stephen Phillip Fondren, burglary by breaking; Maynard David Selvog, bigamy; and Jack Curtis Fields, Sr., driving while intoxicated second offense.

Fields was arraigned Monday before Justice of the Peace W. A. "Bill" Wilson, who set bond at \$1,000.

Grand jury members for this term are Tol Ware, Gene Edwards, Arlie Hudson, Kenneth Erwin, Newton Robison, Douglas Husband, Mrs. Morris McCarty, Paul Nettles and Walter Irwin, all of Amarillo, and Bruce Winn and Milton Morris of Canyon, and Mrs. John Upshaw of Claude.

Babe Ruth Stars Felled By Pampa

It was a bitter weekend for the All-Stars of the Canyon Babe Ruth League.

The Stars made it all the way to the finals Saturday night in the 1972 District I Tournament before being beaten by a slim margin by a strong Pampa team.

The tournament began last week with the Canyon baseballers scorning the Top O Texas team 14-5. Ronnie Hicks was winning pitcher in that outing, and even made a homerun for the Stars.

Canyon beat Pampa 9-4 in their second tournament game, this time with Steve King on the pitcher's mound.

Then, on the championship double header, the Stars lost their first game 0-1 to the Pampa team with Hicks at the helm, and their second game — and the district championship — to Pampa 1-5, with King on the mound.

W.A. Cooper, league president, said the Canyon team placed second in the district.

"The boys played excellent baseball and were congratulated by all officials and the Dumas townspeople for their conduct both on and off the field," Cooper said. "Canyon should be proud of these fine young men as her representatives."

Cooper said next year's district tourney will be held in Canyon.

Buffaloes Sign PD Track Stars

Two district track winners from Amarillo Palo Duro High School have signed athletic scholarship agreements with West Texas State University track coach Bob Kitchens.

The athletes are Ray Felton and Paul Gipson. Felton won the District 3-AAAA championship in both the 120-yard high and 330-yard intermediate hurdles. Gipson captured the 3-AAAA 880-yard run crown.

"We are pleased with both of these young men as both have a fine future as collegiate tracksters," said Kitchens. "Ray could be a standout intermediate hurdler as he has good speed, strength and spring. Gipson is blessed with good size and the basic speed to stand out as a half-miler."

Felton had a 14.3 best in the 120-yard high hurdles and ran the 330 intermediates in 39.2. He long-jumped 22-4 and in his only 100-yard dash this past spring he ran a 20-flat. He was a regular member of the Dons' 440-yard relay team. In addition to being a track captain this past spring, Felton was one of the Palo Duro football captains. He started on both offense and defense as a halfback.

Powell, who was graduated from West Texas State in 1970 with a B.S. degree in physical education, lives in Canyon during the off-season. He worked this past year in the off-season for the Swisher County Cattle Company. He is married to former West Texas State cheerleader Jan Jarnagin.

While attending West Texas

State, Powell was active with the Fellowship of Christian Athletes.

In his first year at Miami, Powell was a regular member of the Dolphin specialty teams. In addition to playing on the specialty teams for the past two years, he has become a starter at various times as a linebacker. During the past two years Powell has started about half of the Miami games.

In last year's Super Bowl he was one of three former West Texas State Players in the game. Playing for Miami was Eugene "Mercury" Morris, while Duane Thomas was a member of the winning Dallas Cowboys.

Powell plans to continue working for the Swisher County Cattle Company during the off-season as a manager trainee and buyer.

War Veteran Aids Vets

Roland Black became a veteran of two wars in the mid 1950s, and for the past 12 years, he's been helping other veterans wade through federal red tape.

Black, who saw action in World War II and Korea, is Randall County's veteran service officer.

As such, he devotes at least part of his time listening to problems of veterans of this nation's wars and helping them find solutions in the federal Veterans Administration system.

Black, who is manager of the Chamber of Commerce, will help any qualified veteran solve any problem.

"I help with anything," he said, "from pensions, to service-connected disabilities, hospitalization, education and GI loans."

And, help he must the many local veterans of two world wars and two actions involving U.S. forces.

The Veterans Administration offers many benefits to any man who has a discharge other than dishonorable, if he had 90 days of service during a time of war.

For example, a qualified veteran is entitled to hospital care in a Veterans Administration hospital. If the veteran has a service-

connected disability, he has a priority on gaining entrance to such a hospital.

Another VA benefit is dental work, a benefit the veteran may receive anytime after release from the service for a period of one year.

One of the more substantial benefits accruing to the veteran is the opportunity for educational assistance.

Black said the time period — 8 years maximum — allowed for use of educational benefits has run out for World War II and Korea veterans.

But, Vietnam era veterans are still entitled to as much as 36 months of schooling under the GI Bill. For each month the veteran is in school, he is paid a certain amount depending on whether he is married and how many children he has.

In addition, Black said, veterans are eligible for an old-age pension after they reach retirement age. Amount of the pension depends on the veteran's financial status and number of dependents.

Black said he handles about 1,000 inquiries per year concerning veteran benefits, and even though he says he hasn't handled such cases, the Texas

VA office in Waco has run across some unusual problems.

"There was this man, for example," Black said, "whose wife had divorced him and he had forgotten to take her off as beneficiary on his GI insurance. When he died, she got his \$10,000."

Black tells of the World War I veteran who had no idea he was eligible for a VA pension.

When Black heard about the man, he was in a hospital with emphysema and was destitute.

"I got him his homebound pension and at least it was something," Black said.

If Black is willing to help a man after he is out of the service, he is also in a position in Canyon to help a man before he goes into the service.

Black is the local registrar for the Hereford draft board.

News Brief

Mrs. Ray Fullerton of Canyon spent last week visiting her son, Edward Lehnick, and his family in Pampa. Mrs. Fullerton is recuperating from recent surgery she underwent at High Plains Baptist Hospital in Amarillo.

Kathy and Chris Gerald demonstrate the kind of agility demanded of cheerleaders at West Texas State University. Kathy, who graduated in May, was head cheerleader last year. Chris, a senior next year, will carry on in the Gerald family tradition begun by older sister Cynthia, also a WTSU cheerleader.

Sherman Acres News Museum Staff Picnics

BY MARY JO GRIFFIN

AREN'T WE GLAD to see all this good rain! Surely washed everything in its path and left such clean fresh air to breathe.

MR. and MRS. John Rider and children Michelle and Allen have recently returned from a 26-day vacation. They made it a genealogy trip and pulled a camping trailer. They visited with relatives in Oklahoma and did their genealogy searching in historical centers in Kansas, Missouri, Indiana, Kentucky, Tennessee and Arkansas. This was a most interesting and enjoyable vacation. While they were away, Mr. and Mrs. Lloyd Carter who are students at WTSU were here in their home.

VISITING WITH MR. and Mrs. Ernest Lueddecke in Pampa Sunday were their daughter and family the Murray Leiths of our neighborhood.

THERE ARE SEVERAL birthdays in our area this week.

Sunday Cynthia Southard, Irene Puccio and Dianna Wilhite marked another year. Monday was birthday for Kirk Nance and Wednesday for Flake Leith. Victor Bishop will have his special day the 23rd. A very Happy Birthday to each of you.

MRS. HERBERT HALL recently returned from her parent's home bringing the girls with her and leaving Dale to spend some time. The Halls also had overnight guests last week. Mr. and Mrs. Dave Krueger who are members of the Singing Ambassadors from the Multnomah School of Bible in Portland, Ore.

CONGRATULATIONS TO the Angels Baseball Team on their winning season. They had a great celebration picnic at the park. The boys from out this way on the team are Harvey Sims, Jay Huneycutt and Kent Hall. Coming in second place were the Tigers who will be having a swim party and supper. Kelly Howington is the team member from our neighborhood.

A HAPPY WEDDING Anniversary to Mr. and Mrs. John Rider. Have a happy year. LITTLE KEITH HOWINGTON is recuperating real well from his tonsilectomy last week. Keep your chin up and your fist out, Keith.

THE PANHANDLE Plains Historical Museum staff enjoyed a most pleasant picnic Saturday evening at the Billy Harrison home near Palo Duro Canyon. We had a delicious meal topped with homemade ice cream. Those attending were Mr. C. B. McClure, Mr. and Mrs. Jack Downing, Mrs. Olive Bugbee, Mr. and Mrs. A. B. Pond, Mr. and Mrs. Kim Taylor, Miss Sidney Oldham, Mr. Rolla Shaller, Mrs. Claire Kuehn, Charlie Kuehn, Tommy Carruth, Mr. and Mrs. Billy Griffin and Mr. Harrison. SEE YOU NEXT week. Thanks for the calls. Mary Jo

11 Accidents Investigated

The Texas Highway Patrol investigated 11 accidents on rural highways in Randall County during the month of June, according to Sgt. Jack Crowover, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and ten persons injured.

The rural traffic accident summary for this county during the first six months of 1972 shows a total of 77 accidents resulting in one person killed, and 47 persons injured.

The rural traffic accident summary for the 60 counties of the Department of Public Safety Region 5 for June, 1972 shows a total of 527 accidents resulting in 20 persons killed and 347 persons injured as compared to June, 1971 with 524 accidents resulting in 10 persons killed and 308 persons injured.

The 20 traffic deaths for the month of June, 1972 occurred in the following counties: Dallam and Lubbock, three each; Archer, Armstrong, Bailey, Childress, Floyd, Hale, Jack, Montague, Parker, Terry, Wichita, Wilbarger, Wise, and Young, one each.

Cheers A Family Tradition

By JUNE DAYEN

The zest for cheerleading has swept like a fire in recent years through the Charles Gerald family at 3201 Connor Dr., leaving in its wake a host of great moments and great memories.

First to catch the spark was daughter Cynthia, now Mrs. Valton Franklin, who was a varsity cheerleader at West Texas State University from the fall of 1965 through the spring of 1969. Next was Kathy who began cheerleading her freshman year, the same year Cynthia was a senior, and continued through her college career, becoming head cheerleader at WT last year. Then brother Chris, a junior this past year, caught the spirit and he also joined the cheerleading team to serve last year and the coming season.

They have memories of aching muscles and numb toes, of gulped meals and racing to meet schedules, of being snowballed at Colorado State and pelted with peanuts at Bowling Green, of bitter defeats and glorious triumphs.

"But no matter what, you keep your good nature and wear a smile on your face," says Kathy, and adds with feeling, "It's been the best thing that's ever happened to me."

Mr. and Mrs. Gerald, who never miss a game at West Texas, agree. But they have played an important role also. Keeping up with their active offsprings has called for a lot of chauffeuring, extra cash for meals away from home, answering jangling telephones and many other extras. "During the school year," says Mrs. Gerald, "it was nothing to come home and find five or six kids in sleeping bags on the floor of our family room." Their home is a welcome haven for all friends of their children.

"Cheerleading isn't just getting out and jumping up and down a lot," Kathy pointed out. "You have to be a good will ambassador for the Panhandle. You meet a lot of people, make a lot of public appearances, and are seen often on television. The school wants to be represented by someone they can be proud of."

Every would-be cheerleader must first meet the minimum requirements of maintaining a C average while enrolled in 12 credit hours of courses.

After passing that hurdle, the aspirant must submit to a further screening by a panel of judges who not only judge his performance, but also examine him on other points. "It's a real scary moment," said Kathy. "They ask all sorts of questions about your activities in school, your home life, your views on dating and

News Brief

Mr. and Mrs. Carl Miller, and daughter Carolyn, 1300 2nd Ave., returned from a week's vacation to points in Oklahoma and Arkansas where they visited with relatives and took side excursions to Dogpatch, USA, Ozark Craft Village, and the outdoor drama at Shepherd of the Hills Farm.

They were accompanied on the first part of the trip by Lynn and Terry Miller of Sunray.

many other personal subjects."

But that isn't all. After winning acceptance by the judges, the student must then conduct a whirlwind campaign complete with slogans and posters for election to the post of cheerleader.

Cheerleading demands a lot of physical stamina, according to Kathy. Cheerleaders may work out once or twice a week, go to a couple of pep rallies, plus perform at one or two games. In addition, as goodwill ambassadors, they may be called upon to sell tickets or even assist in recruiting. Chris visited many high schools in the Panhandle this past spring to "sell" students on the good features of West Texas State University — not at all a difficult task for him.

Kathy believes, however, that the quality most important to a cheerleader is the ability to work well with other people. "It really taught me how to work patiently and diplomatically with other people—including my own brother," she said. "You learn to be interested in and concerned for other people."

In spite of the long hours given

to cheerleading, Kathy's grade average as a physical education major has been a B plus and she has found time to take part in other activities as well. She has been an honorary student director of the First National Bank, was coordinator and organizer of a school spirit rally two years ago, and has been parliamentarian and activities chairman for her sorority, Zeta Tau Alpha. Chris, an agribusiness major, also keeps a well-rounded program that includes being a senator in the student government.

Kathy was included this year in "Who's Who Among Students in American Colleges and Universities." She will teach physical education and English and sponsor cheerleading next year at Stephen F. Austin junior high school in Amarillo.

All in all, the Gerald family's record of producing cheerleaders is impressive. And there is still Dan, entering sixth grade next year. "He watches us work out and every once in a while makes a good suggestion," observed Kathy.

Liquid SEVIMOL[®] CARBARYL INSECTICIDE

now labeled for control of **CORN BORERS**

If Southwestern corn borers tunnel into stalks and lodge your plants, you'll lose plenty in profits. Keep them out of your crop with liquid SEVIMOL.

Recently labeled for use against the Southwestern corn borer, liquid SEVIMOL insecticide will help keep this greedy feeder from wrecking your crop and reducing your profits. Here's how to use this outstanding insecticide:

Start examining your crop now because the maximum hatch period lasts from mid-July through mid-August. If egg masses or larvae are present on 50 to 75 percent of your plants, apply SEVIMOL. Then plan a second application 7 to 10 days later.

SEVIMOL is a combination of molasses and dependable SEVIN carbaryl insecticide. Dispersed in water and sprayed in low-volume applications, it gives you a heavy spray that falls fast and sticks to plants, resisting wash-off by rain and irrigation. And SEVIMOL not only gets Southwestern corn borer, it also controls corn earworm, fall armyworm and certain other corn insects.

This season, beat Southwestern corn borer to the punch with the power of liquid SEVIMOL insecticide. Your dealer stocks it. See him today.

Troop 130 Camps In Mountains

By TROYCE MULHERIN

GREETINGS:

THE YOUNG MEN in Troop 130, Boy Scouts of America, have finally reaped the fruits of their labors. These boys have been working since last November to earn money for a trip to Philmont Scout Ranch, which is located close to Cimarron, New Mexico. They hauled stones, helped construct roads, sold tape, passed out handbills and took on other odd jobs to finance this rugged mountain adventure.

THOUGH HE WAS unable to stay with the group, C.O. Hillman helped drive Greg Dodson, Kenny Johnson, David Clark, and David and Kirk Johnson to

Philmont for twelve days of back packing into the mountainous region. C.O. also drove back to Philmont to bring the boys home, and in their appreciation, they gave him a light-weight cooking kit. Carl Johnson was the only adult staying with the crew. Three young men from Sunray and one from Groover rounded out their numbers.

GREG DODSON SERVED

as Crew Chief and David Johnson as Assistant Crew Chief. The other boys alternated chores of cooks, dishwashers and firemen. The firemen also took care of the bear bait. This job consisted of bagging all the food supplies and the "smellables" and suspending the bag from a tree overnight. Only once did a bad ol' bear get the food stuff, and the boys had to skip a couple of meals until they reached a staff camp to replenish the provisions. Carl Johnson had a rather nervous encounter with a bear. After bedding down one night, Carl felt someone or something stepping on his sleeping bag. Thinking it was one of the boys, Carl reached out to grab him. Carl was somewhat startled when he felt bear fur and promptly let go. Needless to say, Carl lay very, very still, and after a few minutes (must have seemed like hours to Carl), the bear went on his merry way.

ANOTHER ITEM OF interest involving Carl happened when half of the crew was to climb Black Mountain and the other half was to set up an early camp. Carl was with the half which was supposed to set up the "early" camp; and, it would seem that after some discussion, with Carl winning the discussion and leading the group up an unfinished trail, they had climbed up the wrong side of Bonito Peak Canyon and had to backtrack. They wound up setting up a "late" camp just as the climbing group came in. Carl feels the

boys forgave him this slight mistake, as they presented him with a dutch oven cookbook on the way home.

THE CREW HIKE around seventy-five miles total while they were out, including up and down Trail Peak, Comanche Peak, the Tooth of Time monument, Shaeffer Peak, Black Mountain and Phillips Peak. From atop Phillips Peak, the group could see parts of Texas, Oklahoma and Colorado, and viewed the entire range over which they had been hiking. While doing all this hiking, the boys carried packs weighing from twenty-five to forty pounds, depending on the boy and the gear. Needless to say, quite a few groceries were consumed. By the time they were on the trail a few days, the Scouts were going to bed about nine o'clock and hitting the trail again about five o'clock.

PHILMONT SCOUT RANCH encompasses over 200 acres of New Mexico mountain country and was given to the Scouts in 1938 by Phillips Petroleum Company, hence the name "Philmont". It ranges from about 7,000 feet at ranch headquarters to over 12,600 feet. The ranch accommodates over 20,000 scouts per summer. Carl said that over 3,000 Scouts were there when his crew was, but that they would pass only three or four crews, consisting of ten or fifteen boys, daily.

ON ENTERING THE ranch, the crews have to set up an itinerary with Central Planning at

headquarters, are given instructions to check in every few days with various staff camps, and are assigned a Ranger. The Ranger stays with the crew for a few days until satisfied it is capable of taking care of itself, and then the crew is on its own. If, for some reason, the crew does not check in with a staff camp at the assigned time and place, the Rangers seek the crew out. The Scouts in Troop 130 were quite impressed with the Ranger Scouts. This is a highly trained and skilled group of young people. They are equipped for any emergency and can reach any part of the ranch within two hours. There are presently two girl Rangers serving with the Scouts. On their free days, the Rangers partake in what is called a "Mountain Marathon", which consists of covering 45 miles of mountain trails in less than ten hours. Being able to live through this is credentials enough and certainly comforting to parents.

ANYONE INTERESTED in having your sons attending Philmont next year can call the Scout office in Amarillo for information. This is quite an experience for our youngsters, and they can only gain from the experience—a giant step to manhood.

WHILE THE JOHNSON men were out playing in the woods, Willetta entertained Frances and Robert Kippes, from Parker, South Dakota. They heard a concert by the Canyon Community Band, saw "Texas", and shot off fireworks among other activities. A special treat for the Kippes was eating Mexican food, which they enjoy but cannot buy in South Dakota.

A "GET WELL soon" message to Mrs. Marion Shoemaker, fifth grade teacher at Gene Howe School. Mrs. Shoemaker has been hospitalized, and daughter Cindy reports that her mother is doing well. Another daughter, Mrs. Carol Cline, wife of Major Troice Cline, has come from Germany to visit with her mommie when she is released from the hospital.

NEW FACES in the neighborhood belong to Loy Bell, first grade teacher at Gene Howe, and her daughter, Ginger. Loy and Ginger have moved to Scotty Drive—welcome!

WELCOME BACK TO John Edward Dobson, son of John Dodson. John Edward is back home after serving in the Navy and is planning to attend West Texas State University this fall.

SEVERAL CHILDREN FROM the High Plains Children's Home have returned from camp. Becky Adams, Sharon Daugherty, Kaylene Roby and Lloyd Pilot spent two weeks at Camp Blue Haven near Las Vegas, New Mexico. They studied the Bible and music, together with other camp activities such as hiking. Olen Daugherty, Tina and Barbara Berry and Mark Lamberson enjoyed similar activities while camping at Lake Mason in Oklahoma.

IN AN UNSUCCESSFUL BID for the championship, girls hitting homeruns for the third and fourth grade team at Gene Howe were: Teresa Richie (3, 1 grand slam); Sandy Nagunst; Tracy Gillis (2); and Carla Schmidt (grand slam).

NOW IS THE time for an appropriate and heartfelt "Thank You" to all of you who gave so much of your time and efforts in coaching Gene Howe's ball teams. This is no small undertaking, and we parents greatly appreciate your contributions to our youngsters' physical and mental growth.

WILL ADUDELL, SON of Mr. and Mrs. Bob Aduddell, was the happy recipient of ten licks on his birthday on the 16th. Happy birthday, Will.

APPROXIMATELY 42 MEMBERS and their families and friends of Hollywood Baptist Church were the guests of Mr. and Mrs. James McElreath for an afternoon of good old fashioned fun this past Sunday. The group converged on the K A Ranch after Sunday morning services for dinner, swimming, fishing and a few games of softball. Those who passed up more strenuous activities sat under the shade trees and enjoyed the peace and quiet. The McElreaths used their jeep and a run-about to give the youngsters a ride over the ranch properties to see the horses and cattle. Following a watermelon feast, evening church services were held at the ranch. Mike Love-lady, Music Director for the church, played the clarinet, with the congregation joining in with singing. Everyone had a very nice time and greatly enjoyed the McElreath hospitality.

DON'T DESPAIR, MOTHERS—school starts Monday, August 21, 1972. Registration will be held on August 17th and 18th. See—there's hope yet!

HAPPY BIRTHDAY TO Dale Bural on the 21st. Tracy Ingram celebrates her happy on the 21st, also. Many happy birthdays to you, Tracy.

THANKS FOR THE use of the hall.

CALL 352-6053 WITH your news—your neighbors want to know what you have been up to this summer.

Palisades Palaver

Dustman Injured On Motorcycle—New Gate Rules

By VICKI HOOKER

A MOTORCYCLE collision last Monday afternoon sent Timmy Dustman, son of Mr. and Mrs. Robert Dustman, to St. Anthony's Hospital. Timmy was riding with Eddie Jeffers when Jeffers' cycle came in contact with one driven by Kenny Seitz. Apparently Kenny hit the rear of the other cycle where Timmy was riding. Late Monday night Timmy was reported to have two breaks in his upper thigh and had been put in traction. After he's removed from traction, he will be put in a body cast.

NOW IT IS not my place to preach, and let me make it clear that in my opinion, the Palisades community is blessed with many fine young boys and girls,

and we are proud of everyone of you. But there are many who would agree with me when I say that many of you are taking advantage of your privilege to ride motorcycles, and we are very fortunate that there are not more of the same sort of accidents which occurred Monday.

SINCE WE HAVE no set rules for you to follow, then each of you who ride must take it upon yourselves to exercise a certain amount of caution. Our roads were not built for speed, and the sooner some of you realize that this is not a race track, the better.

WE WANT YOU to ride and enjoy yourselves. At least when you are buzzing around the canyon, your parents know where you are. But please, gang, start now being more cautious, for your own sakes as well as others (end of sermon).

AS FOR TIMMY Dustman, we hope you recover real soon, and we're sorry that what happened happened. Hopefully it will be the last.

WE EXTEND A warm welcome to our new neighbors, the Cliff Griffin family from Amarillo. Mr. Griffin, his wife Vera, and eleven-year-old daughter Linda bought Jack and Irene Parker's house and have lived in the Palisades about one month. According to Mr. Griffin, they are really enjoying their new home and the canyon.

MR. GRIFFIN CONTRACTS and installs seamless flooring. His wife is a housewife and daughter Linda, who will attend Gene Howe Elementary, "enjoys just about everything that comes along," according to her father.

THE GRIFFINS ATTEND the First Assembly of God

Slow Summer Seen In City For Firemen

It's been a slow summer for volunteers of the Canyon Fire Department.

The last major fire, a fire which damaged a home at 2406 10th Ave., occurred in late May. Since then, fires have been few and far between.

Fire Capt. Joe Rice said June, July and August are typically slow months in the fire-fighting business.

"If we've had any moisture at all, grassfires are rare," he said. "And, during those months heating systems are usually cut off."

About all the fire department has been called upon to quench were fires in cars, vacant houses, and one in a haystack.

Ceremonies Saturday For Building

Groundbreaking and stake-driving ceremonies will be held at 1 p.m. Saturday for the new Bible Education Building being constructed by the Apostolic Faith Outreach, Inc., at the corner of 26th Street and 2nd Avenue.

The new two-story, \$160,000 building will be used primarily for Bible classes, accredited by West Texas State University.

Marcus Adair, Coordinator and Director of Student Activities for the organization, said the building will contain more than 10,360 square feet of floor space, and will include a basement in addition to its two stories.

The facility will be of brick construction and contemporary design. The building will house classrooms, office space, prayer chapel, student lounge, recreational area, counseling offices, a library and study area, a Bible research area and a professor's apartment.

Adair said the Faith Chapel and Student Center now being operated by the organization at 2700 4th Ave. will continue to be used as a place for worship services.

General contractors for the building are Panhandle Engineers and Contractors of Amarillo, and the architect is Boyce Lynn Tucker of Houston.

Church and enjoy fishing. We are certainly glad to have them as our neighbors. If you haven't met them, make it a point to go by and say "Howdy." So far, besides the Carlile families the only person they've met has been B. C. Walker, and we can't let them think that we're all like him!

BY THE WAY, I talked to Irene Parker last week, and she said she and Jack are really enjoying their new mobile home, and she invited us to come and see it when we can. Only one problem. I forgot where she said they lived! Really, I do remember that the mobile home park is between Western and Washington about a mile south of the Canyon E-Way; but I don't remember what space they live in!

ALL OF US, along with her husband Dan and son Brent, welcome Carolyn Bailey home from her stay in the hospital. Carolyn spent several days last week in Northwest Texas Hospital with a bladder infection, but she is doing better now and we hope she is fully recovered in no time.

THE PALISADES BOARD met Tuesday before last in Nell Moore's home. All were present except Joyce McDonald and Jack Inman. Treasurer Dan Bailey reported that we have over \$500 in the concrete fund for the North-side bridge. However, we are still short about \$300 because we need steel to reinforce the bottoms of the flatcars.

THERE WAS SOME discussion on the gate as to whether we should keep it in operation during the day. The board passed a measure which will keep the gate in operation all hours of the day. The reason there was some question on this was that it was discovered that the gate had been opened approximately 3500 times in 2 1/2 weeks! And many thanks to Walter Adams, who has been instrumental in keeping the gate in operation. We certainly appreciate all your efforts to protect us as property owners, Walter.

YOU TALK about a houseful? Well, Gerald and Nadine Seitz have certainly had one this past week, and have thoroughly enjoyed it. Last weekend there were 22 people, 10 adults and 12 children, in their two trailers.

They were Nadine's mother and dad, her two sisters and their families (all from Tulsa) and her brother and his family from San Jose, California. Since Sunday there has been just her brother and his wife, Jerry and Sue Holmes, and their children, Leo, Jackie, Warren, and Terry.

NADINE DIDN'T SAY how long they will be here, but they are certainly all having a very good time, and we hope they are

enjoying the Palisades.

THE PRECINCT 1 Volunteer Fire Department had a meeting at the Lake Tanglewood Clubhouse last week, but due to bad weather, not many were present. The main item on the agenda was scheduling of more training sessions. Lum Edwards, Palisades fire chief, said that he and four others had a drill last Sunday which was a good one, but could have been better if more had come.

MR. EDWARDS MADE a plea for the members of the fire department to cooperate in these training sessions and drills, so that each one may be able to do his part when a fire occurs.

ONE MORE NEWS item. We welcome home Tony Mitchell who has been in Roswell visiting his grandmother. We knew it had been awfully quiet in this end of the canyon for some reason!

HAPPY BELATED BIRTHDAYS to Laura Webb on the 16th and Barbara Hall on the 19th. Any many happy returns to Gene Tate, whose birthday is today!

Lake Tanglewood News

BECAUSE OF THE vandalism of the clubhouse and church building weekend before last, ten new keys have been made. Also, the button inside the gate allowing residents to open it is no longer in operation. If you wish to leave after midnight, you must use your card.

MR. AND MRS. Ernest Oakley have a new son-in-law. Their daughter, Barbara, was married July 7 to Pat Harkins. He and Barbara are now at home in Austin. Congratulations to the happy couple and the Oakleys!

SAM AND MANNIE Hunter are busy preparing for their daughter's wedding. Pam will be married August 18 to Allen Fletcher, son of Dorothy and Jim Fletcher, in St. Paul's Methodist Church. Congratulations to all of you, and may you be blessed with all the happiness possible!

NATALIE RUSSELL WHO is head of the Physical Education Department at Amarillo College, recently received a PhD from the University of Oklahoma in higher education. We all know she must be very proud, and rightfully so. Congratulations to you, Natalie.

WELCOME TO THE guests on the lake. We hope you are really having a good time. Guests are Bonnie and Steve Fondera from Huntsville, Ala., visiting Judy and Bob Fletcher; Mrs. Gordon Darrow and daughter Anya from

Guatemala City visiting Mrs. Darrow's parents, Mr. and Mrs. W. H. Gattis; Mr. and Mrs. David Gearhart from Colorado Springs, and Al Bolkman from Phoenix staying with Margie and P. B. Taylor; Mrs. Stewart Crondion, Jr., and daughter Cindi from Ventura, Calif., visiting Mrs. Crondion's sister, Roberta Currie. Mrs. Crondion is also spending some time with her mother-in-law, Mrs. Stewart Crondion, Sr., of Canyon.

SPEAKING OF THE Curries, they gave a swim party and picnic at the ranch for the youth choir of the church. Besides Roberta and Hugh, hosts and hostesses for the 17 young people were Judy and Bob Fletcher, Gary and Jan Kennedy, and Eldion and Jan McNabb. According to Roberta, everyone had a very good time at the outing!

NEWS TIDBITS: MR. and Mrs. William Molesworth are in Cleveland attending a wedding of a daughter of double cousins. (I don't know about that either. That's just what was told to me!) Jack and Alma Anderson and son Hinson launched their boats July 4 at the Anderson's with the help of 11 men. Even though the weather was bad, they said they really enjoyed themselves.

THAT'S ALL FOR now. See you again next week!

Mescalero Park News

Gillises Rode Trails In Colorado - Welcome, Rebecca - Crews Are New Neighbors

BY TOOTIE BYBEE
HELLO, HELLO, HELLO again from this part of the world. Been away so long I have almost forgotten how to type. Have really been busy and having just a great time this summer. Thanks to all of you who have called this past week to tell me how much you have missed the column. Makes me feel I'm good for something. Had to hurry to catch up with everyone and all the news so here is just a whole lot of good news from us here in the little Oasis to you wherever you just happen to be.

HAD JUST a batch of neighbors on vacations and pleasure trips. Also lots of them have had lots of company visiting them. The Gil Gillis' had folks from Rivesville, West Virginia, visiting. Mr. and Mrs. Odey Gillis arrived July 16. This is Gil's Mom and Dad. Joan told me the open spaces of Texas really did impress the "hill" people. They were also impressed with the lovely colored rock found around here, especially, in Palo Duro Canyon. Seem they went home with their own sack of pretty rocks. While they were here another son and daughter-in-law from Garland, Texas came up for a visit. Mr. and Mrs. Raymond Gillis. They all enjoyed the time together.

THE GILLIS also recently took a trip to Colorado which they tell me is about a year's tradition for them. Said they took their motors and rode the trails and even had a snowball fight as there was still snow up high there. Sounds like they have had a very busy summer to me. Noticed they had gotten a new 10 speed bike, so they will be busy with that. Tracy told me she was

going to save her money and get her one too. Hope you make it Tracy!!

OH, YES, Tracy also told me that her softball team, the 3rd and 4th grade girls from Gene Howe won second place in their league. She had a very lovely trophy to show for her hard work and was so proud of it. They ended the season with a picnic in Ellwood Park in Amarillo. Would have won first except for South Georgia!!

BLANCHE HUDSON and her mother Mrs. Kelly Perschbacher drove down to Crystal City Texas for her future sister-in-law's shower. Blanche's brother is to be married soon and will live there in Crystal City till he is through with school. Said she enjoyed meeting all the future kin.

SINCE LITTLE Rebecca Ann Whitehead decided to enter the world while I was out of town, most of you already know about her, but intend to tell you about her anyway. She was born to Mr. and Mrs. Roger Dale Whitehead and they are all very proud of her. I'm tempted to call her David, as this, unfortunately, was to be "his" name and we have referred to "him" as David so long it seems it should be David but he is a precious her and we all love her lots. Including that rascal Rosemary. Roger has gone to South Dakota to take the two horses to pasture on a friend's farm for the winter. So, Michael and kiddoes are staying with her mom and dad, Mr. and Mrs. Pete Odom in Amarillo.

WANTED TO TELL you a little about one of our "newer" neighbors who live on the corner as you come in the gate, in the White's use to be home. Went down Sunday afternoon and a short but pleasant visit with them. They are Mr. and Mrs. John M. Crews. Mr. Crews retired after 31 years with Colorado Interstate Gas company. The Crews lived in Masterson. They have two daughters, Mrs.

Carolyn Sudgen of Amarillo and Mrs. Marilyn Brzostowski of Spokane, Washington. They have seven grandchildren. When I stopped by they had company and we had such a nice chat. Such precious people, we are so lucky that they came our way to help make our little community a better place. One of the best things in life are good friends and good neighbors.

WANTED TO SEND a recipe along to you that I asked Mrs. Crews for, her sister highly recommends it, so try it—I have and it's great. Also, thanks to Mrs. Crews' sister who lives in Canyon that called me. So sorry it took me so very long to get around to visiting the Crews, please forgive me, I've been running, running, running ever since school was out. Will try to be more quick next time, call again.

BUTTERMILK POUND CAKE
MRS. BEE CREWS
3 Cups flour
2 1/2 cups sugar
1 cup oleo
1 cup buttermilk
6 egg yolks beaten (separated)
2 tsp. lemon extract
1/2 tsp. salt

Umbarger News Genealogy Is Hobby

BY SUSAN DOLLE

NEARLY EVERYONE LAYS claim to an interest in a hobby, be it gardening, sewing, or collecting. Mrs. John (Carolyn) Beckman of the Umbarger community is an enthusiastic genealogist. Carolyn began devoting much of her spare time to this hobby in 1968.

SHE HAS BEEN interested in gathering data on the Milhoan family; she is the daughter of Dan Milhoan of Wildorado. The Milhoan name is as common as Smith in the eastern part of the U.S. and Carolyn jokingly says that every man was named John and married either Elizabeth or Mary.

USING ADDRESSES FROM Arkansas given her by a great-uncle and reading genealogical newspapers, she has met four other Milhoans who are tracing the family history. They share information from their homes in California, Arkansas, and Ohio.

MRS. BECKMAN subscribed to The Helper,

1/4 tsp. soda
Add egg whites beaten stiff. Cream sugar, oleo, and add egg yolks one at a time.

Blend after each and add flavoring. Sift dry ingredients and add alternately to cake batter with milk. Begin with flour mixture. Fold egg whites into mixture.

Bake in bundt pan at 350, 1 hour or 325 for 1 1/4 hours.
Cook 1 cup sugar and 1/2 cup water

Glaze
Cook 1 cup sugar and 1/2 cup water until syrup and add juice of lemon. Pour on cake while warm.

IT SEEMS that we have sure had a lot of foot trouble in this community since summer began. Don't know what the cause is but it seems to be very contagious. First Tracy Cooper dropped his chemical trailer on his foot and really had a terrible time with his foot and it still is really in bad shape. Then Jo Ann Mitchell fell down a step and broke her foot and is still hobbling around (barely). Now, I just found out that little Melodie Morgan got her foot hung in the sprocket of the bike while her dad, Bob was pumping her and

had to have it all stitched up. So, folks take care of your selves and be careful. Summer's only half over. Hope all three of the above mentioned people get to feeling better real soon.

SPEAKING OF Tracy Cooper. He and the family went recently to a family reunion of the Coopers in McLean, Texas. Would you believe that 191 Coopers signed the register over the weekend. Tracy was president of the reunion committee with his cousin who lives in Amarillo, Pauline Pierce, secretary. Must have done a real good job. They got elected to the same post for the next reunion in two years. It was held at the American Legion Hall with catering from Pampa. The guest of honor was Tracy's grandmother, Julia Cooper, who is 87 years old and deserves to be honored!! The Cooper's will very shortly be leaving on vacation if Tracy's foot is better. Anyone who takes off their own cast before they are supposed to should have a big toe ache. There, that's for all those boos you keep giving me!!

HAVE ABOUT a hundred Congratulations to send out to a batch of kiddoes from Mescalero Park so here it is and if I have left out ANY ONE please call me and I'll see that it is in next week because we are just proud of each of you but had so many, so call me. The Canyon 13 and 14-year-old All Stars are in the District Tournament play-offs at Pampa. They have won their first game and Ricky Cooper is a proud team member of this group. Good Luck. The Canyon 14 and 15 year old All Stars also are in the District Tournament Play-off at Dumas and at last report had won their first game and was advancing to the second game and I don't know how that one turned out at this time. Allen Shankles is a player on this team.

THE 3 AND 4TH grade boys softball team from Gene Howe won the Championship. Three proud members are: Matt Malson, Ronnie Kyle and Raymond Brogdon who lives in the Trailer Park. They are looking forward to watermelon and a swimming party for the whole team very soon. Also, a thank you to Mr. Brogdon who helped out the umpiring for this team this season. Sorry to hear the Borgdon's will be moving to Dallas very shortly, didn't know them real well but waved as they passed. Hope they have the best wherever they are. Then Denise Malson's team of girls from Gene Howe just barely missed being Champions and wanted to send a "well done" along to them. Noticed Ken Slagle was on a team but haven't gotten a report from him, maybe next week.

WE TALKED about foot trouble, now listen to this one. Our good friends, the Morelands up on McCormick, were at a ball game recently and a "run away" ball hit Barbara square in the nose and broke it all to pieces. My, My, hope she will feel better very quick and maybe learn to keep her nose out of "things." (Ha) Really, hope it doesn't give her too much pain. She trying to wear a nose guard at this point and really having a bad time with it. Cheer up Barb!!

THOSE GOOD FRIENDS of mine and yours the Tows are off and gone again. They loaded the whole family, boat, motors and all up and took off to Lake Greason in Arkansas for a couple of weeks of good times and I miss them so. They will come back by way of Fort Worth for Ann's nephew's wedding. Planned to get in a lot of water skiing and artifact hunting. Received a card yesterday saying the boat had conked out, so guess if they don't get it fixed they will get in a lot of artifact hunting!! Hello Betty Tow!! Hope you are having a very nice summer. Also, hello to Ruby Williams from Ann and I, and hope your summer is very nice also.

HAVE YOU noticed the new house going up across from the Tow's and Mitchell's? New neighbors soon, huh. Lots of new houses and new friends around us, if you know them call and let me know about them. It's hard for me to get around to "EVERYBODY."

A VERY SPECIAL thank you goes out this week from me to Mr. Holman who saved my neck and helped about 80 little girl campers have a happy day last Monday. Thank you Mr. Holman for sending Breezy with the milk. I would have had a crisis without you.

TO ALL OF YOU who asked: Our Puppy is doing just great. She is a doll. No, we still do not have a name for her. I'm about ready to have a contest and let everyone submit a name. After 6 weeks she really deserves a name but we can't agree. She is the delight of my two daughters' lives and if you should see her out where she doesn't belong, please call us or bring her home. We went so far to get her and love her lots and after our old dog of 14 years died we couldn't stand to lose "little dog." Boxers are just good "people," right Dr. Markham?? Right Lairds??

WANTED TO SEND "Smiles and Happiness" along to my sweet new friend Mrs. Mattie Moreland. Enjoyed such good times with her for two weeks and her precious son Cris and the rest of the family. Hope you are hav-

ing good times.

THE GIRLS arrived back home July 2 but didn't get it in the paper then so will now. Six of the girls from Mescalero Park and April Howard of Gene Howe spent 2 delightful weeks in the lovely mountains of New Mexico around Taos at the Camp Fire Resident Camp. We all enjoyed ourselves so much. There were about 100 all together there. We swam, rode horses, played tennis and about anything your heart desired. Mrs. Mary Hill of West Texas University was director and many of her fine physical education majors were counselors. Just can't beat those girls, they are great. Mary Ann Lindsey was a counselor and want to say "HI" to her. Those going from Canyon were: Traca Cooper, Lori Lee Laird, Leslie Bybee, Lenise Bybee, Kay Tow, April Howard and myself who was mother to them all for the two weeks. The L.J. Tows came to get us and we had a very nice trip home shopping in Las Vegas and eating Mexican food in Tucumcari.

HERE AT THE ole Home Place we have had company come in between our trips off. My Cousin and his wife and family from Dallas were here for a day. Mr. and Mrs. E.W. Sharp with new baby boy, Kenneth Rayburn and the 3 girls. My brother from California was here with wife and two girls, Mr. and Mrs. Neil Sharp and we enjoyed a very mixed up supper one evening at the Zider Zee in Amarillo with my mom and dad. Nothing like going to the wrong restaurant

and ending up eating at 10:30 at night.

TALKED TO Joan Fowlkes on the phone the other evening and they are all doing great and just really have had a very busy summer also.

SAW LOTS OF YOU out this past week but feel the column has run long enough this time. Hope I got in everything everyone called to tell me. Will get you next time if not.

WILL BE helping to direct another week of Camp Fire Day

camp this week so if you need to talk to me catch me after 6. 622-1471.

ONE LAST WORD: Tracy I've had all the boo's I'm going to take. I'll get you back and you'll be sorry.

OH MY GOODNESS I promised to put the Mexican Salad recipe in this week and I forgot it, so I'll promise you to have it next time for those of you who wanted it. Sorry, just such a long column trying to catch up with everyone.

Continuance Motion Denied For DeBord

A motion for a continuance in the case of Melvin Glenn DeBord, 21, of Amarillo, who is charged with homicide by vehicle, was denied Tuesday by acting County Judge Elton Cox.

DeBord's attorney, Harris Hampton of Canyon, told the judge DeBord's trial, which is scheduled for Aug. 1, should be delayed due to prejudicial publicity.

DeBord is charged in the mid-April death of Richard Eugene Gunn, 21, also of Amarillo. DeBord was driver of a semi-tractor-trailer which collided with a car driven by Gunn at Farm Roads 2219 and 250. Hampton argued Tuesday that publicity given the incident in local and Amarillo press and television would be prejudicial to prospective jurors.

Judge Cox denied the motion. Hampton also argued in another motion that DeBord was not guilty of gross negligence in the accident, but only of simple negligence.

He cited two civil law cases to support his conclusion.

Bob McClendon and Jim Blair of the Randall County District Attorney's office argued that the definition of gross negligence has never been established in a criminal case involving the charge filed against DeBord.

Cox asked Hampton and the DA representatives to present briefs concerning the issue. He said he will receive the briefs by Friday morning.

DeBord has been charged under a new statute in Texas. He is charged with a major misdemeanor rather than a felony.

Hiram T. Carr, D. D. S. takes pleasure in announcing that **Bernard Fitzner, D. D. S.** will be associated with him in the practice of General Dentistry

ROBERT FRIEMEL AND his chief mechanic Melvin Wieck became professionals in the racing world last Saturday when they entered the demolition derby at Amarillo Speedway. Placing third among a field of twenty-five contestants, Robert drove a 1955 Red Mercury Station Wagon formerly owned by the sons of Bert Wilhelm. The car will be entered again in the August 5 races. Robert estimates that 100 enjoyable hours were spent in readying the vehicle.

A FORMER UMBARGER resident, Max Hoffman of Amarillo, has been a steady racer in Amarillo for the past 10 years. This year he enters the Super Modified division. He is employed by Hudiburg-Jones Chevrolet in Amarillo.

THE KNIGHTS OF Columbus Council, #2808 heard a presentation by Bob Bentley of the Llano Estacado Scout Troop last Tuesday evening. Mr. Bentley told of the Philmont Camp in New Mexico which is used for camping. If anyone in the community is interested in forming a boy scout troop, he should notify any KC member or a member of the Umbarger Community Association.

1900 Enroll For Term At WTSU

More than 1,900 students had registered at West Texas State University through Monday night, according to figures released from the registrar's office.

Registration continues through Thursday.

Last summer, enrollment totaled 2,200 for the second summer term.

More than 2,700 students signed up for classes during the first summer session which ended last week.

News Brief

The tenth birthday of Carolyn Rene Miller was observed with an all-night slumber party Wednesday, July 12, in their home at 1300 2nd Ave. Guests were served a hot dog supper in the backyard and cake and ice cream later in the evening. A variety of games were played.

Guests were Kevin Miller, Mark Thompson, Kerry Rogers, Leigh Ann Clement, Jana Johnston, Cindy, Wendy and Roanna Thompson.

Happy News

Jaycees and Ettes Prepare for Barbeque—Jones Is Lions President—4-H in Rodeo

BY MARY NEAL HENRY

DON'T ASK if I've moved, I am all ready, but the house isn't. The brick layer showed up, that is one more home run. I'm proud of him. Now if we can get the finishing done. . . and oh, that is slow, even if the days are long. We have eaten so many sandwiches (who has time to cook?) that J.T. asked the other night, "When we get moved into our new home, are we going to have good meals again?"

DID YOU SEE that beautiful rainbow Wednesday evening of last week? It was one of the bigger and more brilliant ones I've ever seen!

LATER, I learned that Vesper Sims died this same July 12. I was at the hospital that morning around 9:30 to see her. . . but Vesper never knew that I was there. Dorothy was sitting with her. The Sims are long time friends. Vesper is the one who told me that Mamie Hayes died and two weeks later, drove all the way out to the house when Sonja died. (We didn't have a telephone on those days.) Vesper and I had the nicest visit during the contest of the Canyon News. All our sympathy goes to the Sims families. We'll all miss her.

THE Bradley family met in Tulia on Sunday, July 16, for the dinner to celebrate Mr. and Mrs. Price Bradley's 55th wedding anniversary and Price's country home. Some of the families and friends present were: Melvin and Phyllis and Chris Bradley of Gruver, Homer and Shirley Bradley and their Malia and Danny of Amarillo, Jim Madewell, Dan and Pauline Vaughan, also of Amarillo, Mr. and Mrs. George Sweeney of Silverton, Mr. and Mrs. A.G. House of Albuquerque, New Mexico, Mr. and Mrs. French McGavock and Peggy and Dave of Happy, Mr. and Mrs. Bruce Riley, Mr. and Mrs. Walter Bradley, Mr. and Mrs. Van Crawford and their Patti, Mrs. Thelma Vaughan, Mr. and Mrs. Simmie Vaughan, Mr. and Mrs. Robert Bradley, Mr. and Mrs. Odell Jennings, Mr. and Mrs. Glen Carter, all of Tulia.

MEL and Phil and Chris came by the house and visited a couple of hours before returning to Gruver. They went to see "TEXAS" in Palo Duro Canyon on Saturday night.

HAPPY Jaycee-Ettes worked

diligently putting their gazebo (summer house) on a float amid a garden of flowers for Miss Happy, Mary Ann Sims, and Little Miss Happy, Melissa Null, to ride in the Tulia parade on Saturday. Alternates Karen Murdoch and Lisa Johnson also rode the float. Many complimented how pretty it was. Bethy Stockett was chairman. Happy Jaycees also advertised our Happy Day Celebration which is August 17, 18 and 19. Saturday the 19th is the really big day, with bar-b-que, parade, and all that. There will be a steer roping on Sunday afternoon, August 20. Tom Henry and Lloyd Rahlfs drove the mules, Maude and May, carrying the big sign in the wagon. They also rode through the rodeo arena that night right after the grand entry. It is surprising how many "old timers" and younger ones too, get so fascinated by seeing once again a set of mules harnessed up and working together. I rode around the outside of the arena to back entry with Tom, but those old buck boards surely didn't have very good shock absorbers, did they? I'd hated to travel west in one of those (east or any other direction.)

A SQUARE dance group, Shirt and Skirts, won first in the parade; Childress Community Home Demonstration Club won second, and Farmer Union won third. "82 Years" was the theme of the parade.

BY THE WAY, a big Thank You to Cecil and Ray's Garage for letting the Happy Jaycee-Ette put their float together in their building.

SUNDAY, the Happy Jaycees gathered wood for their own barbeque next month. Larry Simons, Kit Bragg, Lloyd Venhaus, Lloyd Rahlfs, Duane Stubblefield, Gene Shipman, Jim Whitlow, Norman Freeman, James Stockett, Eugene Jackson, Vincent Benjaus, Randy Johnson, George Tirey, Dick Foster, and Tom Henry worked but they didn't get enough wood. They'll make another day of it.

HAPPY Jaycee-Ettes and their children went swimming at Canyon pool while the men worked. Skip, Clay, and Swayne Simmons, Della, Dayna, Gay, Carla, Dan, and Don E. Venhaus, Susan and Little Lloyd Rahlfs, Judy, Raphe and Mandi Shipman (and Judy came by after) Sheri, J.T. and Angelique Henry, Joy, Corin, Shay, and Joe Freeman, Betty, Lucinda and Gina Stockett, Billy, Ronnie and Gina Stockett, Teri Patching, Kay, Connie and Vincent Ray, and Karen Venhaus, Dot, Lissa,

Dana and Kim Foster swam or sunned and then ate hamburgers. Thank you, Betty, for bringing my children home.

HAPPY Jaycee-Ettes are making new outfits for the Happy Celebration. They will be blue dacton trimmed in white rick-rack. And very cute. Don't know if I'll have one or not. I haven't worn the one Skip made me yet. I appreciate all Skip's efforts.

M.Y.F. went to Wonderland Park for a social on Wednesday of last week. Enjoying miniature golf and the "joy" rides were Billy, Debra, Ronnie and Genie Jackson; Roger, Ernie, and Johnny Wilson; Dana Cheek; Karen Hinton; Jana Wallace, Kim McCaslin, Beck Stubblefield, Eddie Wilson, Aaron Parker, Bill and Vickie Whitlow, Mary and Charles and Christi McCaslin.

KIM MCCASLIN entertained a group of friends on Tuesday of last week. Eddie Joe Pearson, J.T. Henry, Robert Cole, Ricky House, Lisa Payne, Diane Johnson, Gay Venhaus, Becky Stubblefield and Bonnie Briscoe played games and had a good time. Kim served cookies, brownies, chips, and soft drinks. Mary and Duane Stubblefield chauffeured some of the kids out from Happy and helped Mary and Charles chaperone the party.

J.T. spent that night with Eddie Joe. He spent Sunday night after swimming with Raphe Shipman. Next?

JAN Whitlow has been visiting her cousins Karen and Kim Sims in New Mexico. Ann and Weldon have recently moved out there, but Karen will finish school in Dimmitt. Karen is a Senior.

BARBARA DOWD is attending the Citizenship Seminar at Baylor University, Waco, Texas this week. Farm Bureau sponsors this.

GRACE Tirey, Charlotte Weaver, Judy Shipman, Della Venhaus, Millie Middleton, Mary Womack, Neil Martin and Leona McFarland were guests of the Lions for dinner on Tuesday of last week. Business women of Happy were special guests.

SAM BRYAN, Bob Pulsipher and May Allison received gifts for their work and efforts the past year. Frank Tirey, retiring president, presented these.

NEW OFFICERS for the Lions Club are: president, Joe Bob Jones; first vice president, Harry Hardaway; second vice president, Burl Sims; third vice president, Mark Nichols; secretary-treasurer, Foster Harman; tail twister, Willard Middleton; and lion tamer, Sam Brvan. Dir-

ectors are Frank Tirey, Simon Elliott, Carl Small, Harold Eakes, and John Toles.

THEIR Caravan Sale is in September and if you all don't save me a broom this year, I am going to be unhappy than I was last year. I've worn mine completely out in this remodeling, etc.

THE HAPPY CHIEFS were defeated by the Nazareth Dodgers 22 to 17 last Friday night. Vince Price and Tim Moudy pitched during the game. Vince Price hit one home run. Their game on Tuesday night was rained out. They were only one point behind when the game was called.

THE HAPPY BRAVES had an open date last Tuesday and lost to the Nazareth Astros on Friday 6 to 10. Happy Braves did win the league and the first All-Star game will be in Happy on Thursday night. They'll play in Nazareth on Friday night and if a third game is necessary, they'll probably play in Happy again on Saturday or another night.

The Brave all stars are Sidney Eades, Mike Weavers, Luther Vandergriff, Danny Wrenn, Vincent Ray Venhaus, and Hol Toles.

THE CHIEF All Stars are Vince Price, Tim Moudy, Wade Grubb, Doug Sims, Corin Freeman, and Vance Morrison.

GIRLS ALL-STARs (soft ball) will be playing in a tournament in Dimmitt this weekend. Kookie Katchers All Stars are Amy Wallace, Patricia Gauthreaux, Gay Venhaus, Dayna Venhaus, Lisa Johnson, and Diane Johnson. Nancy Woods is alternate. Battling Blues All Stars are Rhene Selvidge, Vicki House, Bonnie Briscoe, Connie Hand, Nina Eads, Lisa Payne and alternate, Becky Stubblefield. Happy Jaycee-Ettes gave all the softball players a party last week.

MIKE HENDERSON, Bilt-Rite associate manager, has gone to the National Duroc Congress in Des Moines, Iowa. Bilt-Rite Farms sent two boars and a certified litter to the National Duroc Congress. These will be judged later this week. Mike is from Iowa. He was managing editor for the Duroc News for six years in Peoria, Illinois, before coming to Happy last August, but Des Moines is Mike's home town.

MARK TACKITT went to Weatherford, to visit his aunt, Betty Jo Crumm, from Wednesday to Monday. While there, they went to the All Star Girls' Basketball game in Brownwood.

ANGELIQUE Henry spent Monday night in Amarillo with her grandmother, Oma Hayes. She has wanted to do that all summer and she finally made it.

KENNETH Littlefield was burned by anhydrous ammonia on his neck, left side and left arm on Friday morning. He spent Friday night in the Swisher Memorial Hospital and was released on Saturday.

MRS. TALBERT is improving but still in Neblett Hospital. JANA, TIM AND DON Bowe are visiting their Happy Grandparents, Ernestine and Vilo Danner and Maude Bowe.

MANDI SHIPMAN visited Carry Venhaus one night while Raphe was in R.A. Camp and her mother was working.

BY CAROL CRAIN
AROUND SEVENTY-FIVE GUESTS attended the 25th wedding anniversary celebration for Gene and Bill Crow Sunday evening at the Canyon Community Center.

Guests signed the book of Wedding Memories which held pages of original decorations hand painted by artist D. Crow some 25 years ago.

The elegant serving table carried out the colors in the book—pink, green and silver. A gorgeous bouquet of two dozen pink roses, baby's breath, surrounding bride and groom with 25th wedding anniversary complimented the table. An under-cloth of soft pink highlighted the embossed ecru one and silver and crystal appointments accented the setting.

Guests were served decorated cakes, punch or coffee, mints, and nuts.

Several out-of-town guests attended the affair.

The groom of 25 years presented his bride with a lovely set of diamond rings to celebrate the occasion.

A TRIP THROUGH THE South, including points of interest in Arkansas, Mississippi, Tennessee (Nashville in particular), Alabama, and Louisiana was taken recently by the C.F. Hollabaugh and Corene Montgomery.

The venture was most enjoyable, I understand.

MRS. LIZZIE WESLEY was honored with a birthday party at Judy and Gene Shipman's home last week. Nan Earl, Patricia, Tonya, and Jerry Doyle were there. So were Lillie and Jerry from Hereford. And Raphe and Mandi. Belated Happy Birthday to you, Mrs. Wesley.

HAPPY HIGH School's Homecoming is on Friday, September 29th, this year. That is the twenty-ninth, make no mistake. I'd like to see all that football team get to be present.

BY THE WAY, CONGRATULATIONS!

HAPPY JAYCEES, on winning second place at NATIONAL in Ways and Means. Can you imagine? That is quite an honor and we are all proud of you! Norman Freeman, just past president, has a feather in his cap. Lloyd Rahlfs is working extra hard to keep up, too.

GORDON Foster's daughter, Terri, and her friend Donna Boyd of Garland are spending the summer with Gordon and Lida. They had been here for a visit and have come back to spend the summer. Lida says

having girls is different for a change.

HAPPY 4-H met to practice for participation in the Grand Entry at Tulia Friday night (Swisher County 4-H set the pivots) and the parade on Saturday afternoon. They named themselves the Happy Marauders. Kevin, Kyle and Neal Odom, Valere Tipps, Debra Magness, Sherrie Starkey, Angeline and J.T. Henry, Eddie Joe Pearson, Wayne and Billie Pearson, Jess Starkey, Floyd Tipps, Don Magness and Pete

Odom all met on Thursday night to practice parade drill, etc. On Friday night, a host of Swisher County 4-H in their green vests, white shirts, black ties, and green saddle blankets (of which I made two on Friday) rode in the grand entry at the Tulia Rodeo. Roland Moore and Wayne Pearson also rode with these children in the parade on Saturday afternoon. They looked very nice and did well.

MRS. VIRGIL TOLES, who now resides in Kings' Manor in Hereford is our newest subscriber. Mrs. Toles is enjoying her new home and her address is Box 1657, Hereford, 79045. Many mentioned that they dropped her a card on her birthday, July 4th. A belated Happy Birthday, Mrs. Toles!

SANDY Railsback spent Friday night in Neblett Hospital because of a blood deficiency. Sandy will be resting at home for a few weeks.

RHONDA Fellers, Sandy Railsback, Debbie McCarley, Jini LaRoe, Becky McCarley and Mrs. Sherry McDowell attended a yearbook workshop at Tech last week.

THE FIRST Baptist Church will have a Lay Witness Mission September 1, 2, and 3. This is something new to Happy Baptists (I remember the Methodist Church having one) and will be a time when they share with each other their experiences of faith.

LET'S NOT mention the Mustard Seed this week. Mayr someday we'll get it correct.

R.A.'s went to camp last week. Andy Hand helped Steve and Bill Vernon sponsor them. Steve thought that very humorous because he had helped sponsor Andy. You've begun to pay for you "raising." Andy, Raphe Shipman, Chuck and Rod Walker, Mike Weavers, David Martin Lane, Leslie Weavers, Hol Toles, Jay Oler, Jimmy House, Bill Cope, Jerry Sims, J.D. Phillips, and Casey McBroom spent the few days at the Baptist encampment near Floydada.

BROTHER Paul Heil, Bob Sims, and Forrest Vise attended the Baptist Men's Rally at the Palms Baptist Assembly on Monday. Dr. Harold T. Branch of the St. John Baptist Church of Corpus Christi was the inspirational speaker. Over 800 attended that service.

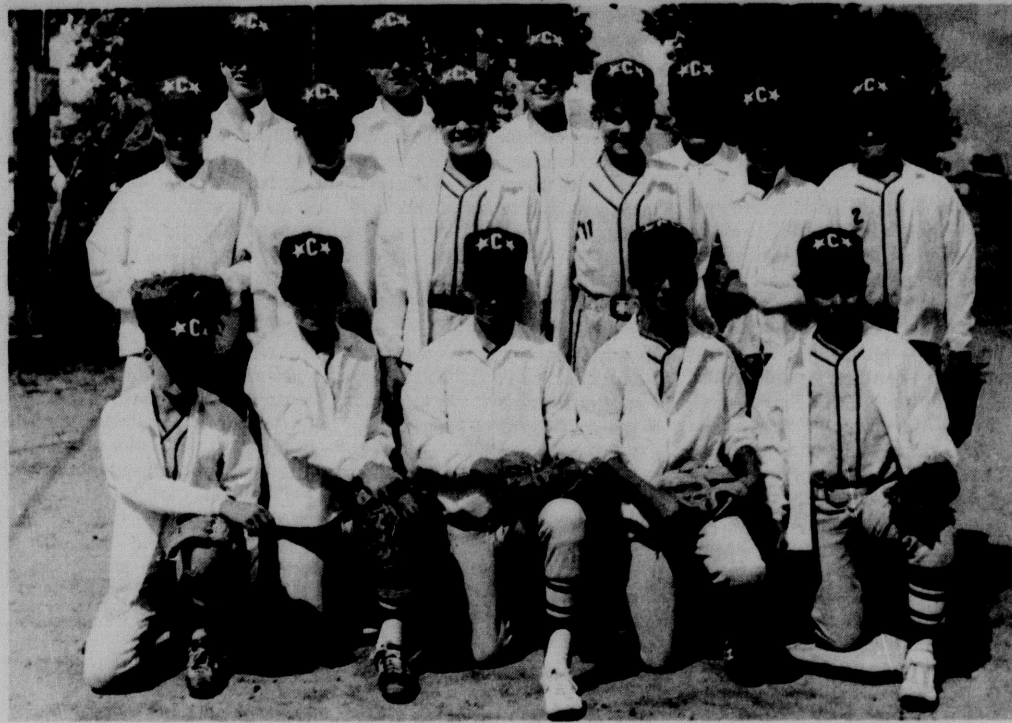

I enjoyed your letter about your visit to the Holy Land in the Happy News, Brother Paul.

THAT MUSICAL that the young people have been working on all summer, "Love" will be presented on August 13. It came out in the church bulletin one Sunday morning that the "Love" rehearsal would be at a certain time that week and Steve Vernon very promptly explained that rehearsal would be the musical. It was funny at the time!

CONGRATULATIONS to Wicky Culp. He had a big write up in two papers and has received the American Star Farmer degree. We won't retell all his accomplishments, but they are numerous. Your last week's Sunday paper (Canyon News, of course) had a write up.

MYRA NELL and Everette must be really busy this day. They will soon have a new daughter-in-law. Gary will wed soon and we hope to meet his "chosen" at the shower at Mary Jane's next Saturday. (I'll paint faster so maybe I'll be out of paint again by then).

See ya,
Mary Neal

Members of the Little League All-Stars are, front row, from left: Billy Bender, Todd Kent, Ches Bostick, Frank Palmer, Steve Schmidt; second row: Brent Anderson, Monty Bell, Kirk Spanling, Todd Nix, Ty Pruett, Terry Collins; third row: Edwin Dillahay, Stan Cranmer, Monty Harrison, and Davy Camfield. (See story on Page 2.)

Reading Conference Set

Promoting the enjoyment and improvement of reading in the classroom and home will highlight a reading conference at West Texas State University Aug. 1-2.

The 20th Texas Association for Improvement of Reading (TAIR) Conference is open to interested parents, teachers, administrators and college students.

Registration deadline is Friday. Conference fee is \$6 for the two days or \$3 for one day. Applications are available from Dr. Hellon Wilbur, associate professor of education at West Texas State University.

Dr. John T. Thornton Jr., TAIR president and coordinator of graduate and undergraduate reading programs at Stephen F. Austin State University, will preside over the opening day session.

Featured speakers will be Audrey E. Claus, curriculum specialist with the St. Louis, Mo., public schools, and Dr. Frank J. Guszak of the Department of Curriculum and Instruction at the University of Texas-Austin.

Miss Claus will present two lectures Aug. 1 on "Reading to Stretch the Learning Edges" and "Schemes Behind the Dream."

Coauthor of a widely used spelling series, Miss Claus currently

is working with Dr. William Kottmeyer on a vocabulary development program which has received nationwide attention based on its pilot stages in St. Louis.

She has adapted a number of fairy tales and has written a series of workbooks for children in beginning reading, language and school-readiness.

Miss Claus has taught in the fields of reading and language and elementary education at Washington University and at Harris Teachers College, both in St. Louis. For four years starting in 1967 she structured and directed a teacher certification program to retain women with degrees in fields other than education for the primary classrooms of the inner-city.

Guszak will present lectures Aug. 2 on "Strategies for Developing Comprehension Skills" and "Diagnostic Reading Instruction in Your Classroom," the latter taken from the title of his recently published book.

Formerly a counselor and director of a research project at the University of Wisconsin, Guszak has among his published works two teacher's manuals on reading, chapters in three books and a number of magazine articles.

He has taught in the public

schools of Texas and at the universities of Wisconsin and New Mexico.

General sessions of the conference begin each day at 8:45 a.m. in the Activities Center on campus. The agenda includes panel discussions, presentations by area teachers and students, exhibits of books and learning tools.

Dormitory accommodations may be made through Mrs. Jean Roberts, dean of women at WTSU.

York Takes Job As Principal At Littlefield School

Canyon High School assistant principal Jack York has accepted a position for next fall as principal of Littlefield High School.

York has turned in his resignation in Canyon.

York, who came to Canyon in 1969 as an assistant coach for the high school, has been assistant principal since 1970.

"We have lots of friends here," York said this week, "and we hate to leave. It was just too good an offer to turn down."

Prior to coming to Canyon, York had taught two years at Shamrock, two years at Groom, and four at Lefors. He received his bachelor of science degree and master of education degree from West Texas State University.

School. . .

(Continued from Page One)

three years. According to the state's master plan, Canyon's vocational school would be constructed for about 450 students with the local district paying half the cost and the state using federal funds for the other half.

"We could finance this without a bond issue," Jacobs told the board. "But, it might involve an increase in the tax rate for two or three years."

Jacobs suggested the board might consider a bond issue first, however.

A vocational school here would house classes in auto mechanics, building trades, vocational agriculture, vocational office education, homemaking, and possibly vocational programs for the handicapped, Jacobs said.

The school superintendent said the school board does not have to build the facility even when state approval is granted, but he warned that it could be as long as five or six years before Canyon might receive approval on such a project again.

Board members tabled any action on the project.

Two teachers in the high school's agriculture department, Jim Walker and Ron Davis presented to the board long-range plans for the development of the school-leased agriculture farm south of Canyon.

Walker said the farm is undergoing the first in what he proposes as five phases of development. Currently, a water system is under development, a central building is being sought.

Hopefully, he said, a holding pen, some concrete foundations and the fencing of the farm boundary will also be accomplished in this first phase.

Walker presented figures indicating that cost for the first phase development would be about \$5,455. The price includes a small metal-type building, which would be used for storage, office space and classrooms.

Projects scheduled in the second phase of the program would include construction of a shed, pens and chutes, fencing alleys and further water system development.

Other phases in the five-phase plan would call for construction of other sheds and pens, additional roads, landscaping and an addition to the central building.

In other business, acting board president Tom Keeling complained of overcrowding in the high school locker rooms and asked if plans have been prepared to relieve the problem.

Jacobs showed the board plans which were drawn up about three years ago in anticipation of high school expansion.

"The problem," he said, "is to build some extra room and yet make it so we can add on another gymnasium later if we want to."

Board members asked Jacobs to have the school architects draw up rough plans for expansion of the locker room areas which would be compatible with any future expansion the school might have to do.

Consumer's Fuel Association was named low bidder to supply the district's gasoline next fiscal year. The association bid 13.60 cents per gallon less taxes. Other bidders were Continental Oil Co. with a bid of 13.80 cents per gallon and Mobil Oil Corp. with a bid of 13.90 cents per gallon.

Plains Creamery, Inc., was awarded the schools' milk contract for next year after bidding a low of .0748 cents per half-pint for whole milk and .0775 for chocolate milk. Their bid did not include a 5 per cent discount which the company also bid.

Other milk bidders were Borden Dairy Products with a bid of .0748 cents per half pint for whole milk and .0770 for chocolate, and Cloverlake with a bid of .0775 for whole milk and .0775 for chocolate.

The contract to provide bread next year went to American Bakeries, and the ice cream bid went to Swift and Co.

No bids were received for fresh fruit and vegetables, but the board was told Panhandle Fruit Co. will provide these items at wholesale prices next year.

A \$32,000 athletic budget for 1972-73 was presented to the board, but no action was taken.

The budget includes a projected \$13,000 expenditure on high school football.

The board approved the resignations of Jack York, former assistant high school principal, and Jackie McAlpin, former vocational office education teacher. The board hired James Chandler to teach history and coach at the junior high, Miss Davida Emanuel to teach at Rex

Reeves, Mrs. Lynda Shackelford to teach at Rex Reeves, Richard Stewart to teach history and coach at the junior high, Robert Wink to teach vocational agriculture at the high school, and Mrs. Janet Fincher to teach home economics.

Next board meeting will be Aug. 1.

New Dentist To Practice

A new dentist will begin practice in Canyon within the next week.

He is Bernard Fitzner, a Tucumcari, N.M., native.

Dr. Fitzner will be an associate in Canyon of Dr. Hiram Carr.

The dentist is a spring graduate of the Baylor Dental School in Dallas.

Prior to entering dental school, Dr. Fitzner was a school teacher. He taught four years in Tucumcari, and two years in Mohave, Calif.

He graduated from Eastern New Mexico University at Portales with a degree in industrial art and education.

Dr. Fitzner and his wife, Beth, said they came to Canyon "because it looked like a place we'd like to live."

"It has good educational facilities."

Dr. and Mrs. Fitzner have two sons, Ken, 9, and Warren, 6.

County. . .

(Continued from Page One)

ges said.

"Well, we've got a lot of folks in this county who don't have pavement and probably never will have pavement," Fletcher replied.

Hodges pointed out that due to the many residents of Arden Road, the street gets much more use than most farm roads.

In other business Monday, the commissioners voted to purchase two new Chevrolet Impalas from Hudiburg-Jones Chevrolet in Amarillo.

Hudiburg-Jones was lowest of three bidders for the two cars. Other bidders were Imperial Chevrolet of Canyon and Jess Stout Ford of Canyon.

Hudiburg-Jones bid a difference of \$3,201 for a new Impala accepting a 1967 Chevrolet as trade-in. Accepting a 1970 Plymouth as trade-in, the company bid \$2,701 on another Impala.

Imperial Chevrolet bid \$3,547 with the '67 Chevrolet trade-in, and \$2,872 with the Plymouth trade-in.

Jess Stout Ford bid \$3,379 on the Chevrolet trade-in, and \$2,729 on the Plymouth trade-in.

Commissioners tabled again action on selecting a supplier for gasoline, diesel fuel and oil.

Initially, Road Superintendent Joe West recommended Gulf Oil Corp. of Amarillo be given the contract for gasoline and that Ted Lokey Oil Co. of Amarillo be given the contract for diesel fuel and greases.

But, due to a questionable item in the Lokey bid, the commissioners decided to table the bids until a Lokey representative can be contacted.

Following the meeting, the commissioners examined a building in Palo Duro Shopping Center and Cooper's Market to determine county tax valuations for the two buildings.

Tower. . .

(Continued from Page One)

way was about 685 feet from his property before the extension and that it is now within 100 feet of his property.

Meanwhile, Tradewind management contends the tower is a definite hazard, particularly at night since it is unlighted.

The petition for abatement of a public nuisance filed by the DA's office Monday calls the tower a safety hazard, too, and says it impedes the flight of aircraft.

The tower endangers life and property, the petition contends, in that it reduces the size of the landing and taking off area of the runway.

The petition says the public is threatened by the tower.

Dr. and Mrs. Bernard Fitzner browse through The Canyon News in search of a house in Canyon. The Fitzners came to Canyon this week from Dallas where Dr. Fitzner has been attending Baylor Dental School. He will go into practice with Dr. Hiram Carr, local dentist.

Police. . .

(Continued from Page One)

law enforcement.

Stewart hopes the post will provide an opportunity for the explorers to study all phases of the law enforcement field.

This opportunity will be offered in a variety of ways.

Stewart says the post will probably have two meetings per month—one for administrative matters and the other for programs or training experiences.

"We'll be giving classes on patrol, firearm safety, crime detection, traffic management, physical training, jail management, photography, fingerprinting and narcotics."

Guest speakers from various law agencies—such as the sheriff's office, the FBI, the Department of Public Safety—will present programs on the various topics.

In addition, Canyon police-

Demo. . .

(Continued from Page One)

the opportunity to meet Democrats from other delegations.

And, she met some Democrats of national prominence—like John Lindsey, Hubert Humphrey, George Wallace and Edmund Muskie.

If Mrs. Green found herself among friends when she met delegates backing McGovern, she felt estranged—if not threatened—by many supporters of Gov. George Wallace.

She said she found supporters of Wallace intolerant.

"We were not that intolerant of Wallace and his people," she said. "But, maybe it was easier for us to be tolerant since we had the whole thing our way."

In fact, Mrs. Green and some friends from the Texas Delegation—all backers of McGovern—attended a reception held for the Texans by the Wallace Backers.

"The Wallace people were very emotional," she said. "They were emotional about his health and very protective of him."

Even so, Mrs. Green was impressed by the Alabamians.

For the Canyon woman, it was almost as interesting to visit with people in the streets of Miami as it was to talk with fellow delegates at the convention hall.

"I didn't stay in the Texas delegates' hotel," she said. "I stayed down by resurrection city in the middle of an old retirement area. I was the only convention person there probably."

Since she was so close to resurrection city, Mrs. Green said she spent one or two hours a day talking with the people who had gathered there—the young, the SDS, the Gay Liberation Front, the Chicanos, the Blacks.

"Most of them were much more radical than I am," she said. "This surprised me. People there were completely down on the whole system. I was surprised they'd come all that way and even bother when they were so totally down on the system."

Mrs. Green was impressed with the general atmosphere of the city-within-a-city.

"This was where the old people went and you would have thought they'd be bitter because their place had been taken over," Mrs. Green said. "But, I'd walk along and see three or four hippies and an old person sitting on the grass talking. And, some of the old people were teaching the younger ones how to play shuffleboard and having a good time."

Mrs. Green said she came away from the convention not, as many people have asked her, disillusioned with the nomination process.

She said she did have one experience which left her disillusioned for a while.

"It was on the abortion plank and it was my one chance to vote at the convention," she said. "I went down to the floor and this woman asked me how I felt about it. I told her I was in favor of legalized abortions and she told me I would have to vote 'no.' I told her I felt too strongly about it to vote 'no,' and she told me to go back and get another alternate who would vote 'no.'"

Mrs. Green later found that the woman she confronted was not working under instructions from McGovern and that delegates from other states had been told to vote their consciences.

men will handle programs themselves.

Stewart has some big long-range plans for the post.

"After the thing develops, these young people can come out and ride with us at night," he said. "They can actually get involved in police work and be a part of it."

And, Stewart said, the explorers could prove to be a valuable asset to Canyon.

"They could help us with certain things like traffic direction or perhaps in some kind of emergency," he said.

Stewart feels that through the years, explorers from the post will decide to become career law enforcement personnel and will be easily integrated into agencies.

Currently, he said, large explorer posts of this kind exist in Los Angeles. He said Amarillo is now forming one, also.

The post is open to both girls and boys.

Rights. . .

(Continued from Page One)

program. The complaints filed by WEAL is the only complaint against the school, Kurtz said. He said the Office of Civil Rights has received no complaints from individuals or minorities.

The issue evolves around figures released by the school administration and published in The Canyon News on Jan. 23 which indicate that men overwhelmingly outnumber women in numbers, pay and education at WTSU.

According to those figures, 100 per cent of the administration of officers and academic deans are men. And, 84.3 per cent of the officers of instruction are men.

The original news article pointed out that one woman at the university has the title of full professor, while 44 men have the title.

There are also 30 men who have the title of full professor who make a higher salary than the woman full professor.

Cattlemen. . .

(Continued from Page One)

al economy is dependent on the sheep industry," he said.

"The cattle feeding industry is something new to us. In fact," he said, "99.5 per cent of cattle are pasture fed, but they seem slowly to be turning to grain. It's more of a trial period for us right now."

Last year, Australia beef exports totaled \$642 million, compared to \$610 million for wool.

"Sheep have—somehow—become unproductive for us," Cavanagh said. "I don't know why, but it just happened. Now, steers are selling real well."

He produced figures released in an Australian newspaper four weeks ago showing medium steers, 550 to 650 pounds, selling for 13.3 cents to 16 cents per pound, live weight.

The group left this morning for Los Angeles, and will return to Australia to—as Cavanagh said—"Ponder this out."

"It's something we have to be interested in," he said. "Twice the cows as people is okay, but when you have 160 million sheep that some how are not producing, you have to ponder it."

Dees Attending Conference

Dr. Myron Dees, chairman of the health and physical education department at West Texas State University, will be among some 18 participants in the Texas Conference on Physical Education for the Handicapped, which begins today at the University of Texas at Austin.

Among topics to be discussed are model programs, teacher preparation, perceptual motor difficulties in the handicapped, funding programs, motor development and aerobic dancing with retarded children.

Participants will tour the physical education facilities at Travis State School and will be given a physical education demonstration in the school's gymnasium.

Water. . .

(Continued from Page One)

annexation. Property included in the proposal is occupied by The Only Place, Daisy's and Currie Drilling.

Ed Wieck, president of the Palo Duro Soil and Water Conservation District, appeared before the commission seeking sponsorship for a survey of the Tierra Blanca Creek and Palo Duro Creek watershed to determine if flood controls are needed.

He said the survey will be conducted in conjunction with similar surveys in several other counties.

Commissioners agreed to sponsor the survey, but only if they were given approval authority before funds could be expended.

Wieck said federal money will be used to finance a feasibility study, a survey and erection of flood controls. He said local money would be needed for upkeep of the flood control devices once they were installed.

Randall County commissioners have already agreed to sponsor the survey with a similar restriction as to expenditure of funds.

Wieck said that initially a feasibility study will be made to determine whether there is enough danger of flooding on the creeks to warrant an in-depth survey and subsequent erection of controls.

Wieck said it is his opinion that the feasibility study will show there is not sufficient danger, but he said the Soil and Water Conservation District wants to carry out the study as a

preventive measure.

If control devices were determined necessary in the city limits of Canyon, the city would be expected to pay for upkeep of those controls only, he said. He also noted that since the flood controls allow for some standing water, the pools might be used for recreation areas.

Commissioners also passed a resolution adopting a comprehensive water and sewerage system plan to aid in the orderly development of Canyon's systems.

The plan was developed in cooperation with the Panhandle Regional Planning Commission, which provided funding.

In presenting the resolution to the city fathers, Louder said many of the actions called for by the plan in the next five years have already been carried out in the past 18 months.

In other action, the commission approved the rezoning of 15.4 acres in the Canyon Creek area from single family 1 to single family 2. Request for the action was made by developer Arch Hunsley.

The commission also passed a resolution paying tribute to Burney Slack, long-time city judge who died last week.

Feds Asked To Aid Locals In Metro Squad Inquiry

By TROY MARTIN

Federal agents have been requested to aid in investigation of circumstances surrounding suspension of Randall-Potter Metro Intelligence Unit Coordinator Joe Bowes if the Justice Department rules that there is federal jurisdiction.

Bowes, coordinator of the unit since it was initiated in early 1971, was suspended indefinitely Monday for what the unit board of governors termed "certain irregularities in Metro Unit records."

Canyon Police Department and West Texas State University Security Department temporarily withdrew their men from the unit which is made up of officers from participating entities.

Authorities near the investigation were evasive. Future of the Metro Unit itself was cloudy at mid-week. Ken Carter, financial officer with the Texas Criminal Justice Council, indicated that federal funds funneled through the council for operation of the unit could be affected.

"We are awaiting some other decisions," said Carter indicating a definite preference not to talk about it at all. "It will be

determined by an audit. I hate to say anything right now."

Possibility that the Federal Bureau of Investigation might become involved in the probe stems from the fact that something like half the cost of operating the unit is funded by the federal government.

The Justice Department is studying the matter of jurisdiction.

J.C. Lilly, with the Amarillo City accounting department,

said federal funds allocated to the unit for operation from March of 1971 to March of this year came to \$79,570.67 and to \$76,340.00 for the current year.

Carter said his office in Austin was notified of the Metro Unit irregularities several days ago.

"We've been apprised of it and we've been working on it," declared the Justice Council official.

Potter County District Attorney Tom Curtis declined to say whether any action would be taken by his office as a result of the probe.

"It's just premature at this time to say," declared Curtis under questioning on that aspect of the case.

Amarillo Police Chief Paul Hulsey issued the statement on the Bowes suspension after a lengthy meeting of the unit board of governors at which Bowes was reported to have been questioned intensively behind closed doors.

Chief Hulsey took personal command of the Metro Unit at that point. The board's statement follows:

"The Potter County Metro board of governors met in special session this morning (Monday) along with District Attorney Tom Curtis and Amarillo City Attorney Don Cheatum to discuss a personnel matter involving certain irregularities in the Metro Unit records. Coordinator Joe Bowes met before the board to answer questions. An investigation is continuing and the city attorney's office is preparing indefinite suspension papers for Mr. Bowes."

Canyon Police Chief Al Stewart said that in effect the

Mrs. Andrea Green returned from the Democratic national convention this week and brought all sorts of memorabilia with her. As

an alternate delegate, Mrs. Green was accorded the same rights — exclusive of voting — as delegates.

Schools Note Budget Surplus

Vocational School Possible

By CARROLL WILSON

The Canyon Independent School District will probably wind up this fiscal year with a \$17,000 surplus, but the district may have to come up with as much as \$250,000 in the next two to three years for an area vocational school.

School Supt. Jerry Jacobs

handed out the \$2.5 million 1971-72 budget to school board members Tuesday night with a smile on his face.

"After last year when we had a deficit of about \$55,000 due to the completion of the junior high school, I feel good about projecting a budget which is a few thousand dollars in the black," he told board members. "My pri-

mary purpose in handing this out is to share some good news with you."

Jacobs said the end-of-year projection is based on a tax collection rate of 97 per cent.

After the board had examined the school district's financial picture, Jacobs told them a project for construction of a vocational school in Canyon may be

approved within a short period of time.

Construction of the vocational facility would require about \$500,000, he said, and the local board would have to supply half of that amount.

Jacobs said that about 3 1/2 years ago, he made application to the state for funding for a vocational school in the district.

The school superintendent said he was in Austin recently and discovered that Canyon's request has been incorporated into a master state-wide vocational school plan.

Canyon's vocational project was listed in the plan to begin in October 1972.

But, Jacobs told board members he is not certain the state legislature approved the vocational plan in the recently passed appropriations bill, and that such approval may be forthcoming within the next two to

Tower Will Remain Until Hearing Date

The Randall County man who has erected a tower on his property at the end of the runway at Tradewinds Airport says he'll leave his tower in place until he appears at a hearing in district court.

Bob Gilbert told The Canyon News Tuesday he doesn't "feel like I'll take it down from all indications."

Gilbert will appear at 9 a.m. Aug. 8 before 47th District Court Judge E.E. "Gene" Jordan.

The Randall County District Attorney's office Monday filed a petition seeking the hearing and calling on Gilbert to show cause why he should not take the tower down.

Gilbert erected the 18-20 foot tower at the end of the Tradewinds Airport north-south runway to, as he said, merely protect his air space.

Gilbert contends he and his neighbors are being mistreated as a result of a recent extension of Tradewinds' runway to within a few feet of their property.

He told the News two weeks ago the Tradewinds management led adjoining property owners to believe they were going to repair the existing runway.

"I've had the tower up there for the past 10 years," he said earlier. "They asked me to take it down as a safety factor. I laid it down before they started the runway about three months ago. I put it back up about a month ago. They told me they were going to extend the runway."

Gilbert told the News the runway.

(See TOWER, Page 11)

Water Worries Weighed During Commission Meet

Water—not enough of it, too much of it and how to get more of it—was the main item of discussion for city commissioners Monday night.

Two property owners who live just outside Canyon's city limits appeared before the commission complaining that the city will not install water meters and extend water lines to their property.

Representatives of the Palo

Duro Soil and Water Conservation District appeared and asked the city to sponsor a watershed survey to see if flood control devices are necessary on two area creeks.

And, the commission passed a resolution adopting a long-range water and sewer system plan, which includes specific plans for the city to increase its water supply.

C. S. Thompson and his wife, of Palo Duro Drive just east of the city, and Gary Nall, who just bought property in the same area appeared before the commission and asked that the city annex their property and that of about 18 other landowners in that area.

In seeking the voluntary annexation, the three cited difficulties in obtaining water and questioned the city's policy of not extending water and sewer facilities to immediately outlying property.

Canyon's mayor, Dr. J. Manly Bryan, explained that for several years it has been city policy not to establish water and sewer facilities for adjacent areas.

"We don't have as much water as we thought we would," Bryan said. "And, it costs a tremendous amount of money to get more water. Since the citizens of Canyon are paying for this, they should get first chance."

Bryan pointed out that Canyon residents are taxed to pay in part for water exploration and drilling. Area residents who do not live in Canyon do not pay those taxes, and, in effect, are not paying for the water, he said.

Thompson said he and his wife had polled the 18 landowners in the area of the Crow addition in which he lives, and 15 of them had said they will be willing to join the city of Canyon.

Bryan told Thompson to obtain a petition containing the names of a majority of the property owners to begin the voluntary annexation proceeding.

With talk of annexation still fresh on their minds, the city commission instructed City Manager George Louder to contact property owners just north of the city limits about voluntary

(See WATER, Page 11)

WT Rights Study Underway Now

Investigators from the Office of Civil Rights, Department of Health, Education and Welfare, have been interviewing women employees of West Texas State University in an effort to determine if alleged discrimination against women does exist at the school.

The investigation began Monday when a three-member team of investigators met with administration officials.

The investigation is a result of a complaint filed last January by

the Women's Equity Action League (WEAL), a women's rights group.

Richard Kurtz, one of the investigators, said facts in the case would be assembled and a determination made as to whether there is any basis for the complaint.

"We don't draw any conclusions the first week," Kurtz said. "If the facts indicate something is wrong, then we will get with the university and have them work out an Affirmative Action Program."

He said WTSU officials would be notified if such a program is needed.

"If it is needed, we will ask the University to take specific steps to correct any violations of the Equal Employment Opportunity Program," he said.

Other members of the team are Mary Arkadie and Gloria Lynch. Kurtz said he did not know when a determination would be made as to whether WTSU would have to implement a corrective

(See RIGHTS, Page 11)

Noel Cavanagh, second from left, is an Australian sheep broker who is beginning to take a closer look at cattle. He and Max Steel, second from right, were members of a 31 member group of Australian businessmen who toured the various aspects of the cattle industry in the Panhandle Wednesday. Here, just before boarding a bus for Palo Duro Canyon and the musical "Texas," Cavanagh and Steel chat with two companions.

Australian Cattlemen Tour Feeders in Area

By BEN KECK

In Australia, there are twice as many cattle as there are people, and because of a "dramatic upsurge of the cattle business" in that country, a group of 30 Australian businessmen are completing a tour of the Texas Panhandle cattle feeding industry.

Noel Cavanagh, a wool and sheep broker from the Down Under continent, said wool and lamb and mutton prices have dropped drastically in the past two years, and that beef exports from Australia last year surpassed that of sheep products.

"In fact," Cavanagh said,

"Australia imported 530 million pounds of beef to the United States last year. That's almost half of the 1,133 million pounds of the total imported by the United States that year."

He said although sheep and wool prices have begun to make somewhat of a comeback the past month, there seems to be a gaining interest in cattle.

"We have 13 million people and 26 million cows down there," he said. "We have a few small feedlots, but it's a seasonal thing. I don't think any feedlots have over 2,700 head of cattle."

The group attended "Texas" at Palo Duro Canyon Tuesday

night, and spent all day Wednesday touring cattle facilities—all the way from auctions, ranches and feedlots to a steak house.

On the tour was Randall County Feed Yards.

Historically, Cavanagh said, Australia has "ridden on the back of the sheep."

"We eat more mutton and lamb than any other meat, and our lamb is going to repair the existing run-

way."

(See CATTLEMEN, Page 11)

Police Establish City Explorer Post

Canyon will have a Law Enforcement Explorers Post starting next week.

Police Chief Al Stewart announced plans Tuesday for establishment of such a post sponsored by the Canyon Police Department and the Boy Scouts of America.

Stewart said an organizational meeting will be at 7:30 p.m. Tuesday in the community center. Registration fee for the post will be \$1.

Even though the police department and scouts are sponsoring the post, the idea for its start here came from Stewart.

"I'd been thinking for along time about some way to get more involved with the youth of Canyon," he said, and added "other than giving them tickets."

For several weeks, Stewart

toyed with the idea of an explorer post which would be concerned with the law enforcement field, and his idea came to fruition after talking with Bob Bentley, district executive officer for the Boy Scouts.

Bentley decided the spur for Stewart.

"I decided we'd sponsor one if we could get enough people in it," he said. "If we get five people we'll go ahead and do it."

But, Stewart is hopeful that more than just five Canyon young men and women from 15-20 years of age will be interested enough to join the post.

In fact, he's busy this week mailing letters to 23 Canyon High School students who expressed an interest on a survey in

(See POLICE, Page 11)

Police Chief Al Stewart reads up on the Explorers in preparation for his establishment of a Law Enforcement Explorer Post in Canyon.

The Post will be sponsored by the Police Department and the Boy Scouts of America. First meeting is next Tuesday.

by Troy Martin
FROM THE
CANYON RIM

What has happened to the Randall-Potter Metro Intelligence Unit is regrettable but was predictable.

Child of the Panhandle Regional Planning Commission, the Metro Unit was conceived in lust for federal funds without any real thought about the actual need for such a unit.

Two years ago when the Texas Criminal Justice Council was formed local officials racked their brains for ways to get and spend the bonanza of federal cash being handed out.

The Metro Squad was formed as an elite corps to combat crime, especially narcotics and vice, and it has been nothing but a thorn in the side of law enforcement since.

Joe Bowes was moved ahead of officers of superior rank and experience to head the unit. There has never been a satisfactory explanation for this.

Theoretically supervision of the unit was vested in a board of governors drawn from participating agencies. As could have been expected, supervision was loose and the results near tragic.

Discrepancies in records of the Metro Unit have been the least of it. Discrepancies in conduct have been much more devastating to the morale of law enforcement officers of the area than the alleged "irregularities in Metro records" which led to the suspension of Bowes Monday.

The Metro Unit has confined itself largely to chasing teenage grass blowers and small time pushers but in its year and a half of existence it has not brought a single major supplier of narcotics to the bar of justice to show for \$3000,000 of taxpayer money expended.

It spent six weeks staked out on a still — an area in which it had no jurisdiction. Responsibility rested with the Treasury Department.

It spent more than a month making a case on an impoverished Canyon dishwasher who booked a few football bets on weekends while big time gambling and wide open prostitution flourished some two blocks and in plain sight of Amarillo Police Department where the Metro Unit headquarters.

To cap it off a member of the Metro Unit gave erroneous information to District Attorney George Dowlen who was forced to reduce the charge in the Canyon book making case.

I can see the need for a regional crime laboratory where sophisticated equipment is available to area law enforcement people but I cannot see the need for a Metro Unit.

If we are to have such a unit, its leader should have a superior record and impeccable character. Its chief should be answerable to a board elected by the constituency of its area of jurisdiction.

But why do we need a Metro Unit at all?

More than a dozen enforcement agencies have authority in Randall County.

Some of these are Randall County Sheriff's Department, Amarillo Police Department, Canyon Police Department, Texas Rangers, Department of Public Safety, Border Patrol, Liquor Control Board, county juvenile

officers, Secret Service, Treasury Department, Federal Bureau of Investigation, game wardens, West Texas State University Security Department and park rangers.

Surely sufficient experts when needed for specific case could be drawn from the ranks of these agencies, many of which are highly specialized.

I think Graham Purcell made a bad mistake last week when he announced he would vote for George McGovern.

I liked his previous statement that he would "maintain a heroic silence" much better.

"I, as an office holder, will vote for Senator McGovern," he said. "To do otherwise would jeopardize my position on the committees in Congress."

"I don't approve of many of the policies McGovern has said he is for and I don't believe most of the people in this area are in agreement with some of his policies."

Personally, I like Graham but as a newspaperman responsible to this area, I have to ask:

If he votes against his own conscience and the best interest of his constituency at the polls where his ballot is in secret, how can we trust him to choose between our interests and his own political interests if he is elected

to Congress where he must vote openly?

Press aides for both Congressman Bob Price and Congressman Graham Purcell are former employees of The Canyon News.

Claiborne Crain is an aid to Purcell. He sold advertising for The News before joining the congressman.

Mary Ann Walter is Bob's press aid. She was in the news department here on two occasions and is probably one of the most able newswomen in the Southwest.

I have been hearing that if McGovern is elected President all the deserters will come home and the businessmen will go to Canada.

Hospital Board
Expected To Set
Tax Rate Soon

Hospital Administrator Ray Grimes told the South Randall County Hospital Board that it is only a matter of weeks until the board will have to set its tax rate.

The board met Monday night at Canyon Community Center, and Grimes said he is planning to meet informally with the finance committee before completing the budget and asking the board to set the tax rate.

Grimes did not comment on the extent of the proposed budget, nor did he give any estimate of what the tax rate might be.

"The board may have to be called into a special meeting to approve the tax rate if we get it worked out prior to the next regular meeting," he said.

The meeting officially lasted less than 10 minutes.

Grimes presented a finance report and informed members that Bill O'Connell, the architect for the hospital, was returning to Canyon to go over the floor plans for the new facility.

O'Connell, a partner in O'Connell and Probst of Austin, worked with hospital personnel last month and a tentative plan was submitted to the board.

Grimes said there will be some changes in the plan, "because we want to build it right."

In his finance report to the board, Grimes said the board had \$134.46 cash on hand at the end of last month, and that \$390,000 is in the time deposit account at First National Bank, and \$395,000 is in time deposits at West Texas State Bank.

Both time deposits are for 90 days at 3 1/2 per cent interest.

Amounts for both time deposits were transferred from the construction account maintained at the respective banks.

Letter To The Editor

Dear Editor:

Our farmers are now receiving assistance checks from the government for their important crops of wheat, grain sorghum, and cotton. These checks have been termed by detractors as "give away", "welfare", or "subsidies". The truth of the matter is that these checks mean the difference of retaining the family farmer on his land or seeing him forced out of business due to the cost-price squeeze and replaced by a large corporate conglomerate.

Many consumers and main street businessmen give lip service to the abundance of food provided by farmers as well as the business received from them. In too many instances, however, none of the groups mentioned appear in Congress to fight for better farm programs which will retain the population in rural areas so vitally needed in America today.

A fact that too few realize is that government farm programs add millions of dollars to our local economy. Most of our local businesses would close if it weren't for the once-a-year receipt of price-support checks. Farm programs mean a strong rural America (prosperous merchants as well as farmers). These farm programs include conservation assistance for protection

of our agricultural resources as well as price-support programs. The organization which I head at the local level is dedicated to the principle of improving government programs so that they work for the betterment of the farmer as well as the consumer and small town merchant. The Farmers Union has consistently, throughout its 70-year history, proven that it is on the side of the family farmer and is concerned about keeping him on the land. It is not that our organization is anti-big farmer or anti-corporation, but we feel that the strength of rural America is indeed in our family farms and when rural America is strong, our rural communities will likewise remain strong.

Keeping government assistance at an adequate level (we believe this means a parity income equal to other segments of the economic sector) is a continuing struggle. Many groups oppose good farm programs which benefit family farmers as well as consumers. The agricultural trade and agri-business many times find themselves at odds with the bonafide family farmer because of their emphasis on "bigness" and "efficiency". Many times their lobbyists in Congress have influenced farm legislation to the detriment of family farms. Likewise, some of our farm organizations have not been as concerned with maintaining the family farmer as I would like to see.

As an example of the pressure to continuously weaken the farm programs for family farmers and shift the emphasis to large and "efficient" farms whether they be private or corporate, I would like to cite a recent study which was made by the U.S. Department of Agriculture. The "Young

Executives Committee" appointed by Agriculture Secretary Clifford Hardin a year ago, has recently published its report and its recommendations for future agricultural policy. According to the young USDA executives, "agricultural policy should be directed toward maintaining agriculture as a viable industry and not as a way of life." The USDA report terms present farm programs "costly", a detriment to efficient production, and a negligible value to second generation owners. Their recommendation is "phase out over 5 years, reduce loan rates to disaster price level for feed grain crops and wheat and zero for all other crops." The young executives term parity price as "not a good barometer of return nor of the welfare of the farmer." The USDA Young Executives report concludes, "the phase out would give a hard, downward push to annual farm income of perhaps \$6 billion dollars at the beginning." The young executives do not see their proposals as doing in the family farm "but it would become a larger, more sophisticated unit." I urge those reading this "letter to the editor" to rally to the support of farm programs designed to better rural life and maintain the family farmer as a viable part of rural America. To farmers reading this, I urge, if you have not already done so, that you join forces with an organization that is seeking to retain program benefits and constantly seeking to better and expand these farm programs.

Sincerely,
Alfred G. Buerker
President
Potter-Randall Co.
Farmers Union

Two Attend
ROTC Camp

Two West Texas State University students are receiving practical work in military leadership at the Army Reserve Officers' Training Corps advanced summer camp at Ft. Riley, Kan., from June 10-July 21.

One of the trainees is Cadet David R. Woody, 23, son of Mr. and Mrs. Russell W. Woody, 2304 6th Ave., who is a graduate student at WTSU. He is a 1967 graduate of Hale Center High School and received his bachelor's degree at WT in 1971. He is a member of Phi Delta Theta fraternity.

Another of the trainees is Cadet Eric A. Corby, son of Mrs. Dorothy R. Corby of Ft. Worth, and Richard C. Corby of Station Canyon. Corby, a 1964 graduate of Arlington Heights High School, is scheduled to receive a B.S. degree in 1973 at WT.

The men are among more than 10,000 students attending Army ROTC training at six installations in the U.S.

All-Stars
Win Area

Canyon's Little League All-Stars won the area championship Tuesday night by defeating Dimmitt 8-5.

Next Monday night, the 'Stars travel to Dimmitt again to compete in district competition. They meet the winners of Area IV at 8 p.m.

Winning pitcher Tuesday was Terry Collins. Home runs were hit by Steve Schmidt and Davy Camfield.

Watershed
Area Survey
Is Underway

With support of Canyon and Randall County assured, Soil Conservation Service officials here have started the necessary procedures to begin a preliminary examination of the regional watershed to determine if flood controls are needed.

John O'Connor, director of the service in the county, appeared before the city commission Monday night with Ed Wieck, of the Palo Duro Water and Soil Conservation District, and received the city's support on the preliminary project.

O'Connor said the field examination could begin within the next six months.

He said a team of engineers, hydrologists and conservationists will make the study, which is only a preliminary step to determine whether flooding along the Tierra Blanca Creek watershed and Palo Duro Creek watershed is likely enough to warrant a full-blown study and eventual establishment of controls.

Malzahn Heads Statewide Survey

Dr. Ray A. Malzahn, vice president for academic affairs at West Texas State University, will chair a statewide study on the problems of transferring academic credits between Texas educational institutions.

The study will be made by the Coordinating Board, Texas College and University System and the Texas Association of Colleges and Universities.

It will deal with the problem of transfer of credits from junior to senior colleges, from senior to other senior institutions and from senior to junior colleges. Commissioner Bevington Reed of the Coordinating Board said the operation of core curricula in business administration, science and liberal arts

has alleviated many difficulties, as will the newly adopted core in law enforcement education.

He said the new study "does not mean we are abandoning efforts to make operation of present cores more effective, nor does it mean we will suspend consideration of additional cores."

The commissioner said the purpose of the study is to develop transfer policies which protect the integrity of institutional programs and institutional autonomy and "at the same time protect the interest of the young people of the state."

The study committee will make recommendations to the Coordinating Board, Malzahn said.

The Bill Crows celebrated their 25th wedding anniversary Sunday evening with family and friends at the Canyon Community Center. (See Tidbits)

WT Netter Corbin Having Outstanding Summer Tour

West Texas State University varsity tennis player Dale Corbin is having an outstanding summer tennis tour and is meeting with success.

Two weeks ago he teamed with Tulsa University netter Bill Griffith to win the Mid-Continental tournament at Wichita, Kan., in men's singles. Last weekend he scored a fine 6-4, 7-6 win over Alan Crute of Kansas City in the finals of men's singles in the Mid-American tourney in St. Joseph, Mo.

"The win over Crute is one of Dale's better victories," said Buffalo coach David Kent after receiving a letter from Corbin. The Buffalo junior-to-be is now playing on the Pacific Northwest tour. He will play in tournaments in Eugene, Ore., Seattle and Vancouver.

Corbin has lettered two years for the Buffaloes. He is from Wichita Falls.

DR. RAY A. MALZAHN

Hot Sun Can Cause Illness

The camper struggled up the steep canyon wall with a heavy load of gear.

Suddenly he saw curious black spots in the bright sunshine, felt himself grow dizzy and the ground rushed up to meet him.

When his family reached him he had fainted and turned an ashen gray. His skin was unusually clammy for the arid country.

What happened?

More important, what does the distraught family do to revive dad?

Parks and Wildlife officials warn that heat exhaustion and heat strokes are two of the most common of summertime afflictions. They can be serious if not recognized and treated in time.

Our camper ruined his outing with heat exhaustion.

The symptoms are weakness, dizziness and fainting. The victim is clammy to touch, pale and weak.

Get him to a cool place and administer a solution of one teaspoon salt in a quart of water.

The fatal relative of heat exhaustion is heat stroke.

Body temperature of a heat stroke victim is often 110 degrees and this can kill.

Lower the temperature with cool baths, cool towels or cold water rubdowns.

Administer the salt solution only if he is conscious.

Get the heat stroke victim to a physician at once.

Heat exhaustion and heat stroke can be prevented by the use of salt tablets and lots of water. Better yet, take it easy in the Texas sun.

Canyon Pair Takes Golf Tourney Honors

Mike Shadix and Randall Burton teamed up to win a playoff victory Sunday in the Canyon Country Club Partnership Golf Tourney, defeating the brother of National Open Champion Orville Moody.

Two birdies and an eagle enabled Shadix and Burton, both of Canyon, to defeat Lloyd Moody of Bethany, Okla., and Joe Ziegler of Canyon, who birdied all three playoff holes.

Both teams had 64-64-128 in regular play.

Jerry Boeka and Dick Weston of West Texas State University were the first round leaders, but fired only 63-66 in the low-ball tournament.

In the first flight, Jack Holmes and Earl Jackson of Amarillo were first with 60-66-126, three strokes ahead of another Amarillo team composed of S.T. Jackson and John Parker. The Jackson-Parker score was 72-67.

Tom Wardell and Albert O'Neal were third with 71-71-142 and a playoff win over Mark Fritts and Clay Teter, who posted 73-96-142.

Both third place teams also were from Amarillo.

In the second flight, John Hood and Jerry Tolbot of Borger were first with a 74-68-145. In second place was Bruce Winn of Canyon and Dean Kelley of Amarillo with 74-71-145, after a playoff victory over Larry Peters and Jay Phillips, both of Amarillo.

THE STATE OF TEXAS

TO: William Cass Cowan
GREETING: You are commanded to appear by filing a written answer to the petition filed in the cause set out below at or before 10 o'clock A.M. on the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 7th day of August, A.D. 1972, at or before 10 o'clock A.M., before the Honorable District Court of Randall County, Texas, at the Court House in Canyon, Texas.

Said Petition was filed on the 20th day of June, 1972.

The file number of said suit being No. 11988-A.

The style of the case is In the Matter of the Adoption of Sean Phillip Cowan, a Minor

The nature of said suit being substantially as follows, to-wit:

Suit for the adoption of Sean Phillip Cowan by his step-father, Jerry Blackberry.

If this citation is not served with in 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 20th day of June, A.D. 1972.

Given under my hand and seal of said Court, at office in Canyon, Texas, this the 20th day of June, A.D. 1972.

Harry Tyson Is Head BG Trainer

The former head trainer of the West Texas State University Buffaloes, Harry Tyson, has been named head trainer for the Bowling Green (Ohio) State University Falcons.

Tyson was head trainer for the Buffs from 1962 to 1967, when he joined Bowling Green as assistant trainer.

He had served as head trainer at New Mexico State University while completing his bachelor's degree in 1961 and 1962.

He replaces Bob Livengood as the Falcon trainer.

Woman Hurt In Accident

A 42-year-old Beaumont woman was injured about 6 p.m. Monday when the car in which she was a passenger was involved in a collision about 10 miles east of Canyon on Texas 217.

Mrs. Jeannine Holton was treated at Nebett Memorial Hospital in Canyon and released.

She was a passenger in a car driven by her husband, Jack, 43. The Holton vehicle was in collision with a car driven by Ira Floyd Schlenker, 20, of Friona, according to James Haley of the Department of Public Safety.

Haley said Schlenker was attempting a turn on the state highway when the collision occurred.

Services For Mrs. Brewer

The mother of Mrs. Margaret Carruth of Canyon died Sunday night in an Austin hospital. Burial services for Mrs. Myrtle Brewer were held Wednesday afternoon at Memphis, Tex.

Mrs. Brewer is survived by a son, Fred, of Arcadia, Calif., a daughter, Mrs. Carruth, one granddaughter, Mrs. Sally Brauer of Austin, and two great-grandchildren.

The family requests memorials be made in the form of contributions to the West Texas State University Opportunity Plan, Inc.

Variety Ring Meets Friday

The Variety Ring will hold its annual picnic Friday at Conner Park.

Members and their families are invited, and each family should bring its own basket. Activities will start at 7:30 p.m.

LOVE THE COUNTRY AIR??

My home for lease — 3/4 mile East of University, 5 1/2 acres, Palo Duro Highway. Lovely, quite atmosphere but very convenient to shopping and University. 6 room, modern with utilities. May contact me at the Buffalo Motel, Canyon, Texas. Phone 655-2124. Might sell. Must have references.

Angels Are Champs In Pee Wee League

The Pee Wee division of the Little League has completed its 1972 season with the Angels leading the division with a 10-2 win-loss record.

"I think this has been a great season," said Dee Nix, division co-ordinator. "The players were more enthused this year, and they played much better all the way round. Fielding was better and hitting was better. Participation was just great and there was a lot of involvement."

Nix said one thing that contributed to better Pee Wee teams this year was a change in rules for the youngest of Little League players.

He said coaches did the pitching, allowing players to concentrate on fielding and other mechanics. Another rule change was that each batter got four strikes, and there were no walks.

Nix said he had a special praise for the coaches this year, and for the volunteer umpires.

Coaches included Jerry Miller, Jim Brown, Walter Shelly, Dan White, Frank Castleberry, Sturdy Wanamaker, Don Rozell, Pat Shehan, Frank Davis, Lloyd Kurtz and Kent Peoples.

Pee Wee Division Champions this year are the Angels, who posted a season record of 10 wins and two losses. Team members are, from left, front row: Tom Nix, Jay Honeycutt, Terry Nix, Ted Clement, Harvey Sims,

Trent Miller. Second row: Kent Hall, Tim Hair, Ronnie Kennedy, Mike Bell, Ronnie Brown, John McCrady. Third row: Nolan Dees, Kirk Moore, Mark Brandt, Chris Sharke.

News Columnist Wins Pen Women Club Prize

Celebrating their Golden Anniversary Plus Two, Panhandle Pen Women met Tuesday at the Quality Motel in Amarillo for luncheon and workshop with a good representation of Canyon women attending.

Highlight of the meeting was an address by Wes Izzard, editor of the Amarillo Daily News, who gave recollections of his long-time association with the group of women writers and their late founder, Laura V. Hammer.

Winners of a current short-story contest were announced and included Ann Brown, Canyon News columnist, in second place and Glynn Wilson, Canyon poet, in third place. Pauline Robertson, Penwomen president of Wayside, received first place. The entries were judged by Jean Z. Owens, widely published author of popular fiction who has conducted workshops at Texas Tech in Lubbock. One of the Canyon writers, Marjorie Brewer, who is both artist and poet, has a short poem published in the Ideals volume, "Just Between Friends," now coming out on the newsstands. Her poem is entitled "If You Smile," and is only the latest of many poems published by Ideals and other magazines.

Other Canyon women present were Jean Galloway, Business teacher at Canyon High School, who has published principally in professional journals; Anita Lowe, who has completed a novel as part of a thesis at West Texas State University; and Geneva Berry, presently working on two non-fiction books with Western background.

Although not present at the celebration, another Canyon writer, Mrs. T.V. Reeves, has served as onetime president of the Panhandle Penwomen.

Jesse Powell: Pro-Sized Dolphin Now

Jesse Powell made it a four-year battle at West Texas State University and never won the fight. Sure, he made a big name for himself around collegiate football circles, but he never whipped a problem that bugged him for four years.

Only once, when a trainer turned his head and let Jesse proclaim his own weight while standing on the scales, did the Spur native ever reach the 200-pound mark.

The 6-3 Powell has taken care of that problem now and reported to the Miami Dolphin training camp last week to start his fourth season of professional football and he is now pro-sized. Powell hits the scales at 225 and has maintained the speed which made him such a standout defender at West Texas State.

Powell came out of Spur High School and enrolled at West Texas State without a scholarship. That situation was taken care of at the end of his first semester and then he started for three varsity seasons on Buffalo teams which had a 23-8 record from 1966 through 1968.

Inch-Plus Falls: More Rain Due

It may not rain often in the Texas Panhandle, but when it rains it does just that.

After showers the week before, Randall County was wetted again this week and by as much as two inches in some areas.

The National Weather Service says we're in for even more today, tonight and Friday.

But, even with the rain, the heat is not expected to let up through the weekend. Highs today are expected to near 90 and reach into the 90s Friday and this weekend.

Monday night, county residents braced for the worst after a weather service foul weather alert. And, preceded by dust, the storm blew through and dropped rain on the area through the early hours Tuesday.

All around the county, no amount less than an inch was recorded and most places received more than 1.5 inches.

Randall County Sheriff's Office reported 1.55 inches in downtown Canyon. In the eastern section of the city, 1.70 inches were recorded.

Outside the city, two inches were reported five miles east of Canyon and two inches were recorded about 12 miles southeast of the city. Umbarger received about 1.63 inches and officials at Buffalo Lake reported 1.70 inches.

If the rain was welcomed by farmer and ranchers and homeowners, it certainly didn't help matters at the musical drama "TEXAS" in Palo Duro Canyon State Park Monday night.

Officials at the box office reported the show was rained out, something which has happened only eight times before in the show's history.

Agent Testifies As WT Probe Continues

Dan Self, investigator with the Department of Public Safety, appeared Monday morning before the Randall County grand jury in connection with what has been termed the "West Texas State Investigation."

Self had appeared last month before the grand jury concerning charges by former WTSU security chief Bobby Hudson.

The new grand jury empaneled Monday met for four hours before adjourning until Aug. 14, when they are again expected to take up the investigation.

Self was the only witness called before Monday's session.

The grand jury returned four indictments on Billy Bob Walker for burglary by breaking; Stephen Phillip Fondren, burglary by breaking; Maynard David Selvog, bigamy; and Jack Curtis Fields, Sr., driving while intoxicated second offense.

Fields was arraigned Monday before Justice of the Peace W. A. "Bill" Wilson, who set bond at \$1,000.

Grand jury members for this term are Tol Ware, Gene Edwards, Arlie Hudson, Kenneth Erwin, Newton Robison, Douglas Husband, Mrs. Morris McCarty, Paul Nettles and Walter Irwin, all of Amarillo, and Bruce Winn and Milton Morris of Canyon, and Mrs. John Upshaw of Claude.

Babe Ruth 'Stars Felled By Pampa

It was a bitter weekend for the All-Stars of the Canyon Babe Ruth League.

The 'Stars made it all the way to the finals Saturday night in the 1972 District I Tournament before being beaten by a slim margin by a strong Pampa team.

The tournament began last week with the Canyon baseballers scorching the Top O Texas team 14-5. Ronnie Hicks was winning pitcher in that outing, and even made a homerun for the 'Stars.

Canyon beat Pampa 9-4 in their second tournament game, this time with Steve King on the pitcher's mound.

Then, on the championship double header, the 'Stars lost their first game 0-1 to the Pampa team with Hicks at the helm, and their second game — to Pampa 1-5, with King on the mound.

W.A. Cooper, league president, said the Canyon team placed second in the district.

"The boys played excellent baseball and were congratulated by all officials and the Dumas townspeople for their conduct both on and off the field," Cooper said. "Canyon should be proud of these fine young men as her representatives."

Cooper said next year's district tourney will be held in Canyon.

Buffaloes Sign PD Track Stars

Two district track winners from Amarillo Palo Duro High School have signed athletic scholarship agreements with West Texas State University track coach Bob Kitchens.

The athletes are Ray Felton and Paul Gipson. Felton won the District 3-AAAA championship in both the 120-yard high and 330-yard intermediate hurdles. Gipson captured the 3-AAAA 880-yard run crown.

"We are pleased with both of these young men as both have a fine future as collegiate tracksters," said Kitchens. "Ray could be a standout intermediate hurdler as he has good speed, strength and spring. Gipson is blessed with good size and the basic speed to stand out as a half-miler."

Felton had a 14.3 best in the 120-yard high hurdles and ran the 330 intermediates in 39.2. He long-jumped 22-4 and in his only 100-yard dash this past spring he ran a 20-flat. He was a regular member of the Dons' 440-yard relay team. In addition to being a track captain this past spring, Felton was one of the Palo Duro football captains. He started on both offense and defense as a halfback.

State. Powell was active with the Fellowship of Christian Athletes.

In his first year at Miami, Powell was a regular member of the Dolphin speciality teams. In addition to playing on the speciality teams for the past two years, he has become a starter at various times as a linebacker. During the past two years Powell has started about half of the Miami games.

In last year's Super Bowl he was one of three former West Texas State Players in the game. Playing for Miami was Eugene "Mercury" Morris, while Duane Thomas was a member of the winning Dallas Cowboys.

Powell plans to continue working for the Swisher County Cattle Company during the off-season as a manager trainee and buyer.

War Veteran Aids Vets

Roland Black became a veteran of two wars in the mid 1950s, and for the past 12 years, he's been helping other veterans wade through federal red tape. Black, who saw action in World War II and Korea, is Randall County's veteran service officer.

As such, he devotes at least part of his time listening to problems of veterans of this nation's wars and helping them find solutions in the federal Veterans Administration system.

Black, who is manager of the Chamber of Commerce, will help any qualified veteran solve any problem.

"I help with anything," he said, "from pensions, to service-connected disabilities, hospitalization, education and GI loans."

And, help he must the many local veterans of two world wars and two actions involving U.S. forces.

The Veterans Administration offers many benefits to any man who has a discharge other than dishonorable, if he had 90 days of service during a time of war.

For example, a qualified veteran is entitled to hospital care in a Veterans Administration hospital. If the veteran has a service-

connected disability, he has a priority on gaining entrance to such a hospital.

Another VA benefit is dental work, a benefit the veteran may receive anytime after release from the service for a period of one year.

One of the more substantial benefits accruing to the veteran is the opportunity for educational assistance.

Black said the time period — 8 years maximum — allowed for use of educational benefits has run out for World War II and Korea veterans.

But, Vietnam era veterans are still entitled to as much as 36 months of schooling under the GI Bill. For each month the veteran is in school, he is paid a certain amount depending on whether he is married and how many children he has.

In addition, Black said, veterans are eligible for an old-age pension after they reach retirement age. Amount of the pension depends on the veteran's financial status and number of dependents.

Black said he handles about 1,000 inquiries per year concerning veteran benefits, and even though he says he hasn't handled such cases, the Texas

VA office in Waco has run across some unusual problems.

"There was this man, for example," Black said, "whose wife had divorced him and he had forgotten to take her off as beneficiary on his GI insurance. When he died, she got his \$10,000."

Black tells of the World War I veteran who had no idea he was eligible for a VA pension.

When Black heard about the man, he was in a hospital with emphysema and was destitute.

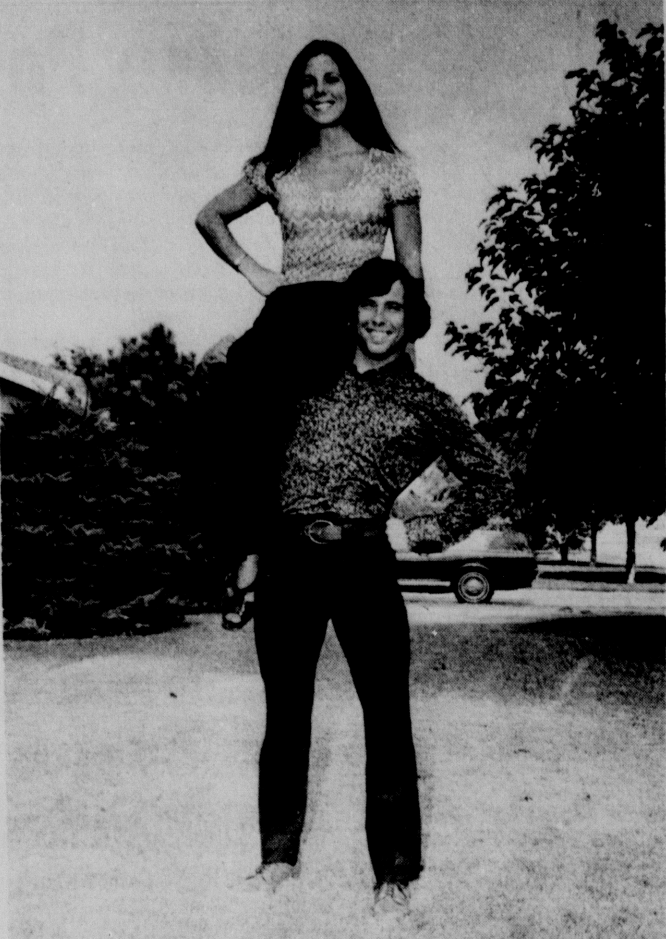

"I got him his homebound pension and at least it was something," Black said.

If Black is willing to help a man after he is out of the service, he is also in a position in Canyon to help a man before he goes into the service.

Black is the local registrar for the Hereford draft board.

News Brief

Mrs. Ray Fullerton of Canyon spent last week visiting her son, Edward Lehnick, and his family in Pampa. Mrs. Fullerton is recuperating from recent surgery she underwent at High Plains Baptist Hospital in Amarillo.

Kathy and Chris Gerald demonstrate the kind of agility demanded of cheerleaders at West Texas State University. Kathy, who graduated in May, was head cheerleader last year. Chris, a senior next year, will carry on in the Gerald family tradition begun by older sister Cynthia, also a WTSU cheerleader.

Cheers A Family Tradition

By JUNE DAYEN

The zest for cheerleading has swept like a fire in recent years through the Charles Gerald family at 3201 Connor Dr., leaving in its wake a host of great moments and great memories.

First to catch the spark was daughter Cynthia, now Mrs. Walton Franklin, who was a varsity cheerleader at West Texas State University from the fall of 1965 through the spring of 1969. Next was Kathy who began cheerleading her freshman year, the same year Cynthia was a senior, and continued through her college career, becoming head cheerleader at WT last year. Then brother Chris, a junior this past year, caught the spirit and he also joined the cheerleading team to serve last year and the coming season.

They have memories of aching muscles and numb toes, of gulped meals and racing to meet schedules, of being snowed out at Colorado State and pelted with peanuts at Bowling Green, of bitter defeats and glorious triumphs.

many other personal subjects." But that isn't all. After winning acceptance by the judges, the student must then conduct a whirlwind campaign complete with slogans and posters for election to the post of cheerleader.

Cheerleading demands a lot of physical stamina, according to Kathy. Cheerleaders may work out once or twice a week, go to a couple of pep rallies, plus perform at one or two games. In addition, as goodwill ambassadors, they may be called upon to sell tickets or even assist in recruiting. Chris visited many high schools in the Panhandle this past spring to "sell" students on the good features of West Texas State University — not at all a difficult task for him.

Kathy believes, however, that the quality most important to a cheerleader is the ability to work well with other people. "It really taught me how to work patiently and diplomatically with other people—including my own brother," she said. "You learn to be interested in and concerned for other people."

In spite of the long hours given

to cheerleading, Kathy's grade average as a physical education major has been a B plus and she has found time to take part in other activities as well. She has been an honorary student director of the First National Bank, was coordinator and organizer of a school spirit rally two years ago, and has been parliamentarian and activities chairman for her sorority, Zeta Tau Alpha. Chris, an agribusiness major, also keeps a well-rounded program that includes being a senator in the student government.

Kathy was included this year in "Who's Who Among Students in American Colleges and Universities." She will teach physical education and English and sponsor cheerleading next year at Stephen F. Austin junior high school in Amarillo.

All in all, the Gerald family's record of producing cheerleaders is impressive. And there is still Dan, entering sixth grade next year. "He watches us work out and every once in a while makes a good suggestion," observed Kathy.

Sherman Acres News Museum Staff Picnics

BY MARY JO GRIFFIN

AREN'T WE GLAD to see all this good rain! Surely washed everything in its path and left such clean fresh air to breathe.

MR. and MRS. John Rider and children Michelle and Allen have recently returned from a 26-day vacation. They made it a genealogy trip and pulled a camping trailer. They visited with relatives in Oklahoma and did their genealogy searching in historical centers in Kansas, Missouri, Indiana, Kentucky, Tennessee and Arkansas. This was a most interesting and enjoyable vacation. While they were away, Mr. and Mrs. Lloyd Carter who are students at WTSU were here in their home.

VISITING WITH MR. and Mrs. Ernest Lueddecke in Pampa Sunday were their daughter and family the Murray Leiths of our neighborhood.

THERE ARE SEVERAL birthdays in our area this week.

Sunday Cynthia Southard, Irene Puccio and Dianna Wilhite marked another year. Monday was birthday for Kirk Nance and Wednesday for Flake Leith. Victor Bishop will have his special day the 23rd. A very Happy Birthday to each of you.

MRS. HERBERT HALL recently returned from her parent's home bringing the girls with her and leaving Dale to spend some time. The Halls also had overnight guests last week, Mr. and Mrs. Dave Krueger who are members of the Singing Ambassadors from the Multnomah School of Bible in Portland, Ore.

CONGRATULATIONS TO the Angels Baseball Team on their winning season. They had a great celebration picnic at the park. The boys from out this way on the team are Harvey Sims, Jay Huneycutt and Kent Hall. Coming in second place were the Tigers who will be having a swim party and supper. Kelly Howington is the team member from our neighborhood.

A HAPPY WEDDING Anniversary to Mr. and Mrs. John Rider. Have a happy year.

LITTLE KEITH HOWINGTON is recuperating real well from his tonsilectomy last week. Keep your chin up and your fist out. Keith.

THE PANHANDLE Plains Historical Museum staff enjoyed a most pleasant picnic Saturday evening at the Billy Harrison home near Palo Duro Canyon. We had a delicious meal topped with homemade ice cream. Those attending were Mr. C. B. McClure, Mr. and Mrs. Jack Downing, Mrs. Olive Bugbee, Mr. and Mrs. A. B. Pond, Mr. and Mrs. Kim Taylor, Miss Sidney Oldham, Mr. Rolla Shaller, Mrs. Claire Kuehn, Charlie Kuehn, Tommy Carruth, Mr. and Mrs. Billy Griffin and Mr. Harrison.

SEE YOU NEXT week. Thanks for the calls. Mary Jo

News Brief

Mr. and Mrs. Carl Miller, and daughter Carolyn, 1300 2nd Ave., returned from a week's vacation to points in Oklahoma and Arkansas where they visited with relatives and took side excursions to Dogpatch, USA, Ozark Craft Village, and the outdoor drama at Shepherd of the Hills Farm.

They were accompanied on the first part of the trip by Lynn and Terry Miller of Sunray.

Liquid SEVIMOL[®] CARBARYL INSECTICIDE

now labeled for control of CORN BORERS

If Southwestern corn borers tunnel into stalks and lodge your plants, you'll lose plenty in profits. Keep them out of your crop with liquid SEVIMOL.

Recently labeled for use against the Southwestern corn borer, liquid SEVIMOL insecticide will help keep this greedy feeder from wrecking your crop and reducing your profits. Here's how to use this outstanding insecticide:

Start examining your crop now because the maximum hatch period lasts from mid-July through mid-August. If egg masses or larvae are present on 50 to 75 percent of your plants, apply SEVIMOL. Then plan a second application 7 to 10 days later.

SEVIMOL is a combination of molasses and dependable SEVIN carbaryl insecticide. Dispersed in water and sprayed in low-volume applications, it gives you a heavy spray that falls fast and sticks to plants, resisting wash-off by rain and irrigation. And SEVIMOL not only gets Southwestern corn borer, it also controls corn earworm, fall armyworm and certain other corn insects.

This season, beat Southwestern corn borer to the punch with the power of liquid SEVIMOL insecticide. Your dealer stocks it. See him today.

11 Accidents Investigated

The Texas Highway Patrol investigated 11 accidents on rural highways in Randall County during the month of June, according to Sgt. Jack Crowder, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and ten persons injured.

The rural traffic accident summary for this county during the first six months of 1972 shows a total of 77 accidents resulting in one person killed, and 47 persons injured.

The rural traffic accident summary for the 60 counties of the Department of Public Safety Region 5 for June, 1972 shows a total of 527 accidents resulting in 20 persons killed and 347 persons injured as compared to June, 1971 with 524 accidents resulting in 10 persons killed and 308 persons injured.

The 20 traffic deaths for the month of June, 1972 occurred in the following counties: Dallam and Lubbock, three each; Archer, Armstrong, Bailey, Childress, Floyd, Hale, Jack, Montague, Parker, Terry, Wichita, Wilbarger, Wise, and Young, one each.

Troop 130 Camps In Mountains

By TROYCE MULHERIN

GREETINGS:
THE YOUNG MEN in Troop 130, Boy Scouts of America, have finally reaped the fruits of their labors. These boys have been working since last November to earn money for a trip to Philmont Scout Ranch, which is located close to Cimarron, New Mexico. They hauled stones, helped construct roads, sold tape, passed out handbills and took on other odd jobs to finance this rugged mountain adventure.

THOUGH
HE WAS unable to stay with the group, C.O. Hillman helped drive Greg Dodson, Kenny Johnson, David Clark, and David and Kirk Johnson to

Philmont for twelve days of back packing into the mountainous region. C.O. also drove back to Philmont to bring the boys home, and in their appreciation, they gave him a light-weight cooking kit. Carl Johnson was the only adult staying with the crew. Three young men from Sunray and one from Groover rounded out their numbers.
GREG DODSON SERVED

as Crew Chief and David Johnson as Assistant Crew Chief. The other boys alternated chores of cooks, dishwashers and firemen. The firemen also took care of the bear bait. This job consisted of bagging all the food supplies and the "smellables" and suspending the bag from a tree overnight. Only once did a bad ol' bear get the food stuff, and the boys had to skip a couple of meals until they reached a staff camp to replenish the provisions. Carl Johnson had a rather nervous encounter with a bear. After bedding down one night, Carl felt someone or something stepping on his sleeping bag. Thinking it was one of the boys, Carl reached out to grab him. Carl was somewhat startled when he felt bear fur and promptly let go. Needless to say, Carl lay very still, and after a few minutes (must have seemed like hours to Carl), the bear went on his merry way.

ANOTHER ITEM OF interest involving Carl happened when half of the crew was to climb Black Mountain and the other half was to set up an early camp. Carl was with the half which was supposed to set up the "early" camp; and, it would seem that after some discussion, with Carl winning the discussion and leading the group up an unfinished trail, they had climbed up the wrong side of Bonito Peak Canyon and had to backtrack. They wound up setting up a "late" camp just as the climbing group came in. Carl feels the

boys forgave him this slight mistake, as they presented him with a dutch oven cookbook on the way home.

THE CREW HIKED around seventy-five miles total while they were out, including up and down Trail Peak, Comanche Peak, the Tooth of Time monument, Shaffer Peak, Black Mountain and Phillips Peak. From atop Phillips Peak, the group could see parts of Texas, Oklahoma and Colorado, and viewed the entire range over which they had been hiking. While doing all this hiking, the boys carried packs weighing from twenty-five to forty pounds, depending on the boy and the gear. Needless to say, quite a few groceries were consumed. By the time they were on the trail a few days, the Scouts were going to bed about nine o'clock and hitting the trail again about five o'clock.

PHILMONT SCOUT RANCH encompasses over 200 acres of New Mexico mountain country and was given to the Scouts in 1938 by Phillips Petroleum Company, hence the name "Philmont". It ranges from about 7,000 feet at ranch headquarters to over 12,600 feet. The ranch accommodates over 20,000 scouts per summer. Carl said that over 3,000 Scouts were there when his crew was, but that they would pass only three or four crews, consisting of ten or fifteen boys, daily.

ON ENTERING the ranch, the crews have to set up an itinerary with Central Planning at

headquarters, are given instructions to check in every few days with various staff camps, and are assigned a Ranger. The Ranger stays with the crew for a few days until satisfied it is capable of taking care of itself, and then the crew is on its own. If, for some reason, the crew does not check in with a staff camp at the assigned time and place, the Rangers seek the crew out. The Scouts in Troop 130 were quite impressed with the Ranger Scouts. This is a highly trained and skilled group of young people. They are equipped for any emergency and can reach any part of the ranch within two hours. There are presently two girl Rangers serving with the Scouts. On their free days, the Rangers partake in what is called a "Mountain Marathon", which consists of covering 45 miles of mountain trails in less than ten hours. Being able to live through this is credentials enough and certainly comforting to parents.

ANYONE INTERESTED IN having your sons attending Philmont next year can call the Scout office in Amarillo for information. This is quite an experience for our youngsters, and they can only gain from the experience—a giant step to manhood.

WHILE THE JOHNSON men were out playing in the woods, Willette entertained Frances and Robert Kippes, from Parker, South Dakota. They heard a concert by the Canyon Community Band, saw "Texas", and shot off fireworks among other activities. A special treat for the Kippes was eating Mexican food, which they enjoy but cannot buy in South Dakota.

A "GET WELL soon" message to Mrs. Marion Shoemaker, fifth grade teacher at Gene Howe School. Mrs. Shoemaker has been hospitalized, and daughter Cindy reports that her mother is doing well. Another daughter, Mrs. Carol Cline, wife of Major Troice Cline, has come from Germany to visit with her mommie when she is released from the hospital.

NEW FACES IN the neighborhood belong to Loy Bell, first grade teacher at Gene Howe, and her daughter, Ginger. Loy and Ginger have moved to Scotty Drive—welcome!

WELCOME BACK TO John Edward Dobson, son of John Dodson. John Edward is back home after serving in the Navy and is planning to attend West Texas State University this fall.

SEVERAL CHILDREN FROM the High Plains Children's Home have returned from camp. Becky Adams, Sharon Daugherty, Kaylene Roby and Lloyd Pilot spent two weeks at Camp Blue Haven near Las Vegas, New Mexico. They studied the Bible and music, together with other camp activities such as hiking. Olen Daugherty, Tina and Barbara Berry and Mark Lamberson enjoyed similar activities while camping at Lake Mason in Oklahoma.

IN AN UNSUCCESSFUL BID for the championship, girls hitting homeruns for the third and fourth grade team at Gene Howe were: Teresa Richie (3, 1 grand slam); Sandy Nagunst; Tracy Gillis (2); and Carla Schmidt (grand slam).

NOW IS THE time for an appropriate and heartfelt "Thank You" to all of you who gave so much of your time and efforts in coaching Gene Howe's ball teams. This is no small undertaking, and we parents greatly appreciate your contributions to our youngsters' physical and mental growth.

WILL ADUDELL, SON of Mr. and Mrs. Bob Aduddell, was the happy recipient of ten licks on his birthday on the 16th. Happy birthday, Will.

APPROXIMATELY 42 MEMBERS and their families and friends of Hollywood Baptist Church were the guests of Mr. and Mrs. James McElreath for an afternoon of good old fashioned fun this past Sunday. The group converged on the K A Ranch after Sunday morning services for dinner, swimming, fishing and a few games of softball. Those who passed up more strenuous activities sat under the shade trees and enjoyed the peace and quiet. The McElreaths used their jeep and a run-about to give the youngsters a ride over the ranch properties to see the horses and cattle. Following a watermelon feast, evening church services were held at the ranch. Mike Lovelady, Music Director for the church, played the clarinet, with the congregation joining in with singing. Everyone had a very nice time and greatly enjoyed the McElreath hospitality.

DON'T DESPAIR, MOTHERS—school starts Monday, August 21, 1972. Registration will be held on August 17th and 18th. See—there's hope yet!

HAPPY BIRTHDAY TO Dale Bural on the 21st. Tracy Ingram celebrates her happy on the 21st, also. Many happy birthdays to you, Tracy.

THANKS FOR THE use of the hall.

CALL 352-6053 WITH your news—your neighbors want to know what you have been up to this summer.

Palisades Palaver

Dustman Injured On Motorcycle—New Gate Rules

By VICKI HOOKER

A MOTORCYCLE collision last Monday afternoon sent Timmy Dustman, son of Mr. and Mrs. Robert Dustman, to St. Anthony's Hospital. Timmy was riding with Eddie Jeffers when Jeffers' cycle came in contact with one driven by Kenny Seitz. Apparently Kenny hit the rear of the other cycle where Timmy was riding. Late Monday night Timmy was reported to have two breaks in his upper thigh and had been put in traction. After he's removed from traction, he will be put in a body cast.

NOW IT'S not my place to preach, and let me make it clear that in my opinion, the Palisades community is blessed with many fine young boys and girls,

and we are proud of everyone of you. But there are many who would agree with me when I say that many of you are taking advantage of your privilege to ride motorcycles, and we are very fortunate that there are not more of the same sort of accidents which occurred Monday.

SINCE WE HAVE no set rules for you to follow, then each of you who ride must take it upon yourselves to exercise a certain amount of caution. Our roads were not built for speed, and the sooner some of you realize that this is not a race track, the better.

WE WANT YOU to ride and enjoy yourselves. At least when you are buzzing around the canyon, your parents know where you are. But please, gang, start now being more cautious, for your own sakes as well as others (end of sermon).

AS FOR TIMMY Dustman, we hope you recover real soon, and we're sorry that what happened happened. Hopefully it will be the last.

WE EXTEND a warm welcome to our new neighbors, the Cliff Griffin family from Amarillo. Mr. Griffin, his wife Vera, and eleven-year-old daughter Linda bought Jack and Irene Parker's house and have lived in the Palisades about one month. According to Mr. Griffin, they are really enjoying their new home and the canyon.

MR. GRIFFIN CON-TRACTS and installs seamless flooring. His wife is a housewife and daughter Linda, who will attend Gene Howe Elementary, "enjoys just about everything that comes along," according to her father.

THE GRIFFINS ATTEND the First Assembly of God

Slow Summer Seen In City For Firemen

It's been a slow summer for volunteers of the Canyon Fire Department.

The last major fire, a fire which damaged a home at 2406 10th Ave., occurred in late May. Since then, fires have been few and far between.

Fire Capt. Joe Rice said June, July and August are typically slow months in the fire-fighting business.

"If we've had any moisture at all, grassfires are rare," he said. "And, during those months heating systems are usually cut off."

About all the fire department has been called upon to quench were fires in cars, vacant houses, and one in a haystack.

Ceremonies Saturday For Building

Groundbreaking and stake-driving ceremonies will be held at 1 p.m. Saturday for the new Bible Education Building being constructed by the Apostolic Faith Outreach, Inc., at the corner of 26th Street and 2nd Avenue.

The new two-story, \$160,000 building will be used primarily for Bible classes, accredited by West Texas State University.

Marcus Adair, Coordinator and Director of Student Activities for the organization, said the building will contain more than 10,360 square feet of floor space, and will include a basement in addition to its two stories.

The facility will be of brick construction and contemporary design.

The building will house classrooms, office space, prayer chapel, student lounge, recreational area, counseling offices, a library and study area, a Bible research area and a professor's apartment.

Adair said the Faith Chapel and Student Center now being operated by the organization at 2700 4th Ave. will continue to be used as a place for worship services.

General contractors for the building are Panhandle Engineers and Contractors of Amarillo, and the architect is Boyce Lynn Tucker of Houston.

Church and enjoy fishing. We are certainly glad to have them as our neighbors. If you haven't met them, make it a point to go by and say "Howdy." So far, besides the Carlile families the only person they've met has been B. C. Walker, and we can't let them think that we're all like him!

BY THE WAY, I talked to Irene Parker last week, and she said she and Jack are really enjoying their new mobile home, and she invited us to come and see it when we can. Only one problem. I forgot where she said they lived! Really, I do remember that the mobile home park is between Western and Washington about a mile south of the Canyon E-Way; but I don't remember what space they live in!

ALL OF US, along with her husband Dan and son Brent, welcome Carolyn Bailey home from her stay in the hospital. Carolyn spent several days last week in Northwest Texas Hospital with a bladder infection, but she is doing better now and we hope she is fully recovered in no time.

THE PALISADES BOARD met Tuesday before last in Nell Moore's home. All were present except Joyce McDonald and Jack Inman. Treasurer Dan Bailey reported that we have over \$500 in the concrete fund for the North-side bridge. However, we are still short about \$300 because we need steel to reinforce the bottoms of the flatcars.

THERE WAS SOME discussion on the gate as to whether we should keep it in operation during the day. The board passed a measure which will keep the gate in operation all hours of the day. The reason there was some question on this was that it was discovered that the gate had been opened approximately 3500 times in 2½ weeks! And many thanks to Walter Adams, who has been instrumental in keeping the gate in operation. We certainly appreciate all your efforts to protect us as property owners, Walter.

YOU TALK about a houseful? Well, Gerald and Nadine Seitz have certainly had one this past week, and have thoroughly enjoyed it. Last weekend there were 22 people, 10 adults and 12 children, in their two trailers.

They were Nadine's mother and dad, her two sisters and their families (all from Tulsa) and her brother and his family from San Jose, California. Since Sunday there has been just her brother and his wife, Jerry and Sue Holmes, and their children, Leo, Jackie, Warren, and Terry.

NADINE DIDN'T SAY how long they will be here, but they are certainly all having a very good time, and we hope they are

enjoying the Palisades.
THE PRECINCT 1 Volunteer Fire Department had a meeting at the Lake Tanglewood Clubhouse last week, but due to bad weather, not many were present. The main item on the agenda was scheduling of more training sessions. Lum Edwards, Palisades fire chief, said that he and four others had a drill last Sunday which was a good one, but could have been better if more had come.

MR. EDWARDS MADE a plea for the members of the fire department to cooperate in these training sessions and drills, so that each one may be able to do his part when a fire occurs.

ONE MORE NEWS item. We welcome home Tony Mitchell who has been in Roswell visiting his grandmother. We knew it had been awfully quiet in this end of the canyon for some reason!

HAPPY BELATED BIRTHDAYS to Laura Webb on the 16th and Barbara Hall on the 19th. Any many happy returns to Gene Tate, whose birthday is today!

Lake Tanglewood News

BECAUSE OF THE vandalizing of the clubhouse and church building weekend before last, ten new keys have been made. Also, the button inside the gate allowing residents to open it is no longer in operation. If you wish to leave after midnight, you must use your card.

MR. AND MRS. Ernest Oakley have a new son-in-law. Their daughter, Barbara, was married July 7 to Pat Harkins. He and Barbara are now at home in Austin. Congratulations to the happy couple and the Oakleys!

SAM AND MANNIE Hunter are busy preparing for their daughter's wedding. Pam will be married August 18 to Allen Fletcher, son of Dorothy and Jim Fletcher, in St. Paul's Methodist Church. Congratulations to all of you, and may you be blessed with all the happiness possible!

NATALIE RUSSELL WHO is head of the Physical Education Department at Amarillo College, recently received a PhD from the University of Oklahoma in higher education. We all know she must be very proud, and rightfully so. Congratulations to you, Natalie.

WELCOME TO THE guests on the lake. We hope you are really having a good time. Guests are Bonnie and Steve Fondera from Huntsville, Ala., visiting Judy and Bob Fletcher; Mrs. Gordon Darrow and daughter Anya from

Guatemala City visiting Mrs. Darrow's parents, Mr. and Mrs. W. H. Gattis; Mr. and Mrs. David Gearhart from Colorado Springs, and Al Bolkman from Phoenix staying with Margie and P. B. Taylor; Mrs. Stewart Crandon, Jr., and daughter Cindi from Ventura, Calif., visiting Mrs. Crandon's sister, Roberta Currie. Mrs. Crandon is also spending some time with her mother-in-law, Mrs. Stewart Crandon, Sr., of Canyon.

SPEAKING OF the Curries, they gave a swim party and picnic at the ranch for the youth choir of the church. Besides Roberta and Hugh, hosts and hostesses for the 17 young people were Judy and Bob Fletcher, Gary and Jan Kennedy, and Eldion and Jan McNabb. According to Roberta, everyone had a very good time at the outing!

NEWS TIDBITS: MR. and Mrs. William Molesworth are in Cleveland attending a wedding of a daughter of double cousins. (I don't know about that either. That's just what was told to me!) Jack and Alma Anderson and son Hinson launched their boats July 4 at the Anderson's with the help of 11 men. Even though the weather was bad, they said they really enjoyed themselves.

THAT'S ALL FOR now. See you again next week!

Mescalero Park News

Gillises Rode Trails In Colorado - Welcome, Rebecca - Crews Are New Neighbors

BY TOOTIE BYBEE
HELLO, HELLO, HELLO
again from this part of the world. Been away so long I have almost forgotten how to type. Have really been busy and having just a great time this summer. Thanks to all of you who have called this past week to tell me how very much you have missed the column. Makes me feel I'm good for something. Had to hurry to catch up with everyone and all the news so here is just a whole lot of good news from us here in the little Oasis to you wherever you just happen to be.

HAD JUST a batch of neighbors on vacations and pleasure trips. Also lots of them have had lots of company visiting them. The Gillis' had folks from Rivesville, West Virginia, visiting. Mr. and Mrs. Odey Gillis arrived July 16. This is Gil's Mom and Dad. Joan told me the open spaces of Texas really did impress the "hill" people. They were also impressed with the lovely colored rock found around here, especially, in Palo Duro Canyon. Seems they went home with their own sack of pretty rocks. While they were here another son and daughter-in-law from Garland, Texas came up for a visit. Mr. and Mrs. Raymond Gillis. They all enjoyed the time together.

THE GILLIS also recently took a trip to Colorado which they tell me is about a yearly tradition for them. Said they took their motors and rode the trails and even had a snowball fight as there was still snow up high there. Sounds like they have had a very busy summer to me. Noticed they had gotten a new 10 speed bike, so they will be busy with that. Tracy told me she was

going to save her money and get her one too. Hope you make it Tracy!!
OH, YES, Tracy also told me that her softball team, the 3rd and 4th grade girls from Gene Howe won second place in their league. She had a very lovely trophy to show for her hard work and was so proud of it. They ended the season with a picnic in Ellwood Park in Amarillo. Would have won first except for South Georgia!!

BLANCHE HUDSON and her mother Mrs. Kelly Perschbacher drove down to Crystal City Texas for her future sister-in-law's shower. Blanche's brother is to be married soon and will live there in Crystal City till he is through with school. Said she enjoyed meeting all the future kin.

SINCE LITTLE Rebecca Ann Whitehead decided to enter the world while I was out of town, most of you already know about her, but intend to tell you about her anyway. She was born to Mr. and Mrs. Roger Dale Whitehead and they are all very proud of her. I'm tempted to call her David, as this, unfortunately, was to be "his" name and we have referred to "him" as David so long it seems it should be David but he is a precious her and we all love her lots. Including that rascal Rosemary. Roger has gone to South Dakota to take the two horses to pasture on a friend's farm for the winter. So, Michael and kiddoes are staying with her mom and dad, Mr. and Mrs. Pete Odom in Amarillo.

WANTED TO TELL you a little about one of our "newer" neighbors who live on the corner as you come in the gate, in the White's use to be home. Went down Sunday afternoon and a short but pleasant visit with them. They are Mr. and Mrs. John M. Crews. Mr. Crews retired after 31 years with Colorado Interstate Gas company. The Crews lived in Masterson. They have two daughters, Mrs.

Carolyn Sudgen of Amarillo and Mrs. Marilyn Brzostowski of Spokane, Washington. They have seven grandchildren. When I stopped by they had company and we had such a nice chat. Such precious people, we are so lucky that they came our way to help make our little community a better place. One of the best things in life are good friends and good neighbors.

WANTED TO SEND a recipe along to you that I asked Mrs. Crews for, her sister highly recommends it, so try it—I have and it's great. Also, thanks to Mrs. Crews' sister who lives in Canyon that called me. So sorry it took me so very long to get around to visiting the Crews, please forgive me, I've been running, running, running ever since school was out. Will try to be more quick next time, call again.

BUTTERMILK POUND CAKE
MRS. BEE CREWS
3 Cups flour
2½ cups sugar
1 cup oleo
1 cup buttermilk
6 egg yolks beaten (separated)
½ tsp. lemon extract
½ tsp. salt

Umbarger News

Genealogy Is Hobby

BY SUSAN DOLLE

NEARLY EVERYONE LAYS claim to an interest in a hobby, be it gardening, sewing, or collecting. Mrs. John (Carolyn) Beckman of the Umbarger community is an enthusiastic genealogist. Carolyn began devoting much of her spare time to this hobby in 1968.

SHE HAS BEEN interested in gathering data on the Milhoan family; she is the daughter of Dan Milhoan of Wildorado. The Milhoan name is as common as Smith in the eastern part of the U.S. and Carolyn jokingly says that every man was named John and married either Elizabeth or Mary.

USING ADDRESSES FROM Arkansas given her by a great-uncle and reading genealogical newspapers, she has met four other Milhoans who are tracing the family history. They share information from their homes in California, Arkansas, and Ohio.

MRS. BECKMAN subscribed to The Helper,

¼ tsp. soda
Add egg whites beaten stiff. Cream sugar, oleo, and add egg yolks one at a time.

Blend after each and add flavoring. Sift dry ingredients and add alternately to cake batter with milk. Begin with flour mixture. Fold egg whites into mixture.

Bake in bundt pan at 350, 1 hour or 325 for 1½ hours.
Cook 1 cup sugar and ½ cup water

Glaze
Cook 1 cup sugar and ½ cup water until syrup and add juice of lemon. Pour on cake while warm.

IT SEEMS that we have sure had a lot of foot trouble in this community since summer began. Don't know what the cause is but it seems to be very contagious. First Tracy Cooper dropped his chemical trailer on his foot and really had a terrible time with his foot and it still is really in bad shape. Then Jo Ann Mitchell fell down a step and broke her foot and is still hobbling around (barely). Now, I just found out that little Melodie Morgan got her foot hung in the sprocket of the bike while her dad, Bob was pumping her and

a newspaper printed in Salt Lake City, the Tri-State Trader, a collector's book which contains a genealogical column; and other genealogical newspapers. The Handy Book for Genealogists relates names of historic societies which maintain an accurate history of a county and its people. Carolyn commends county clerks such as Leroy Hutton who are helpful and the libraries like Mary E. Bivins Memorial Library who maintain genealogy sections.

SOME OF HER prize findings have been photographs. One picture is a water color done in 1858 of her great-grandparents which was sent by cousins in England. She also has photographs of her mother's relations who reside in Buenos Aires; the family name is Eitner.

MRS. BECKMAN FEELS that the peak of her research will come when she finds the definite time her family entered America. She feels the date was sometime before the Revolutionary War. The best side effect of her hobby is in learning a lot of history. For example, she says she was amazed at the stamina of the migrating people who could live in covered wagons in zero-degree weather. She also laughingly comments that some of the black sheep that she has uncovered will probably not be researched much further.

ROBERT FRIEMEL AND his chief mechanic Melvin Wieck became professionals in the racing world last Saturday when they entered the demolition derby at Amarillo Speedway. Placing third among a field of twenty-five contestants, Robert drove a 1955 Red Mercury Station Wagon formerly owned by the sons of Bert Wilhelm. The car will be entered again in the August 5 races. Robert estimates that 100 enjoyable hours were spent in readying the vehicle.

A FORMER UMBARGER resident, Max Hoffman of Amarillo, has been a steady racer in Amarillo for the past 10 years. This year he enters the Super Modified division. He is employed by Hudiburg-Jones Chevrolet in Amarillo.

THE KNIGHTS OF Columbus Council, #2808 heard a presentation by Bob Bentley of the Llano Estacado Scout Troop last Tuesday evening. Mr. Bentley told of the Philmont Camp in New Mexico which is used for camping. If anyone in the community is interested in forming a boy scout troop, he should notify any KC member or a member of the Umbarger Community Association.

1900 Enroll For Term At WTSU

More than 1,900 students had registered at West Texas State University through Monday night, according to figures released from the registrar's office. Registration continues through Thursday.

Last summer, enrollment totaled 2,200 for the second summer term. More than 2,700 students signed up for classes during the first summer session which ended last week.

News Brief

The tenth birthday of Carolyn Rene Miller was observed with an all-night slumber party Wednesday, July 12, in their home at 1300 2nd Ave. Guests were served a hot dog supper in the backyard and cake and ice cream later in the evening. A variety of games were played. Guests were Kevin Miller, Mark Thompson, Kerry Rogers, Leigh Ann Clement, Jana Johnston, Cindy, Wendy and Roanna Thompson.

had to have it all stitched up. So, folks take care of your selves and be careful. Summer's only half over. Hope all three of the above mentioned people get to feeling better real soon.

SPEAKING OF Tracy Cooper. He and the family went recently to a family reunion of the Coopers in McLean, Texas. Would you believe that 191 Coopers signed the register over the weekend. Tracy was president of the reunion committee with his cousin who lives in Amarillo, Pauline Pierce, secretary. Must have done a real good job. They got elected to the same post for the next reunion in two years. It was held at the American Legion Hall with catering from Pampa. The guest of honor was Tracy's grandmother, Julia Cooper, who is 87 years old and deserves to be honored!! The Cooper's will very shortly be leaving on vacation if Tracy's foot is better. Anyone who takes off their own cast before they are supposed to should have a big toe ache. There, that's for all those boos you keep giving me!!

HAVE ABOUT a hundred Congratulations to send out to a batch of kiddoes from Mescalero Park so here it is and I have left out ANY ONE please call me and I'll see that it is in next week because we are justly proud of each of you but had so many, so call me. The Canyon 13 and 14-year-old All Stars are in the District Tournament play-offs at Pampa. They have won their first game and Ricky Cooper is a proud team member of this group. Good Luck. The Canyon 14 and 15 year old All Stars also are in the District Tournament Play-off at Dumas and at last report had won their first game and was advancing to the second game and I don't know how that one turned out at this time. Allen Shankles is a player on this team.

THE 3 AND 4TH grade boys softball team from Gene Howe won the Championship. Three proud members are: Matt Malson, Ronnie Kyle and Raymond Brogdon who lives in the Trailer Park. They are looking forward to watermelon and a swimming party for the whole team very soon. Also, a thank you to Mr. Brogdon who helped out the umpiring for this team this season. Sorry to hear the Borgdon's will be moving to Dallas very shortly, didn't know them real well but waved as they passed. Hope they have the best wherever they are. Then Denise Malson's team of girls from Gene Howe just barely missed being Champions and wanted to send a "well done" along to them. Noticed Ken Slagle was on a team but haven't gotten a report from him, maybe next week.

WE TALKED about foot trouble, now listen to this one. Our good friends, the Morelands up on McCormick, were at a ball game recently and a "run away" ball hit Barbara square in the nose and broke it all to pieces. My, My, hope she will feel better very quick and maybe learn to keep her nose out of "things." (Ha) Really, hope it doesn't give her too much pain. She trying to wear a nose guard at this point and really having a bad time with it. Cheer up Barb!!

THOSE GOOD FRIENDS of mine and yours the Tows are off and gone again. They loaded the whole family, boat, motors and all up and took off to Lake Greeson in Arkansas for a couple of weeks of good times and I miss them so. They will come back by way of Fort Worth for Ann's nephew's wedding. Planned to get in a lot of water skiing and artifact hunting. Received a card yesterday saying the boat had conked out, so guess if they don't get it fixed they will get in a lot of artifact hunting!! Hello Betty Tow!! Hope you are having a very nice summer. Also, hello to Ruby Williams from Ann and I, and hope your summer is very nice also.

HAVE YOU noticed the new house going up across from the Tow's and Mitchell's? New neighbors soon, huh. Lots of new houses and new friends around us, if you know them call and let me know about them. It's hard for me to get around to "EVERYBODY."

A VERY SPECIAL thank you goes out this week from me to Mr. Holman who saved my neck and helped about 80 little girl campers have a happy day last Monday. Thank you Mr. Holman for sending Breezy with the milk. I would have had a crisis without you.

TO ALL OF YOU who asked: Our Puppy is doing just great. She is a doll. No, we still do not have a name for her. I'm about ready to have a contest and let everyone submit a name. After 6 weeks she really deserves a name but we can't agree. She is the delight of my two daughters' lives and if you should see her out where she doesn't belong, please call us or bring her home. We went so far to get her and love her lots and after our old dog of 14 years died we couldn't stand to lose "little dog." Boxers are just good "people," right Dr. Markham?? Right Lairds??
WANTED TO SEND "Smiles and Happiness" along to my sweet new friend Mrs. Mattie Moreland. Enjoyed such good times with her for two weeks and her precious son Cris and the rest of the family. Hope you are hav-

ing good times.
THE GIRLS arrived back home July 2 but didn't get it in the paper then so will now. Six of the girls from Mescalero Park and April Howard of Gene Howe spent 2 delightful weeks in the lovely mountains of New Mexico around Taos at the Camp Fire Resident Camp. We all enjoyed ourselves so much. There were about 100 all together there. We swam, rode horses, played tennis and about anything your heart desired. Mrs. Mary Hill of West Texas University was director and many of her fine physical education majors were counselors. Just can't beat those girls, they are great. Mary Ann Lindsey was a counselor and want to say "HI" to her. Those going from Canyon were: Traca Cooper, Lori Lee Laird, Leslie Bybee, Lenise Bybee, Kay Tow, April Howard and myself who was mother to them all for the two weeks. The L.J. Tows came to get us and we had a very nice trip home shopping in Las Vegas and eating Mexican food in Tucuman.

HERE AT THE ole Home Place we have had company come in between our trips off. My Cousin and his wife and family from Dallas were here for a day. Mr. and Mrs. E.W. Sharp with new baby boy, Kenneth Rayburn and the 3 girls. My brother from California was here with wife and two girls, Mr. and Mrs. Neil Sharp and we enjoyed a very mixed up supper one evening at the Zider Zee in Amarillo with my mom and dad. Nothing like going to the wrong restaurant

and ending up eating at 10:30 at night.
TALKED TO Joan Fowlkes on the phone the other evening and they are all doing great and just really have had a very busy summer also.

SAW LOTS OF YOU out this past week but feel the column has run long enough this time. Hope I got in everything everyone called to tell me. Will get you next time if not.

WILL BE helping to direct another week of Camp Fire Day

camp this week so if you need to talk to me catch me after 6.622-1471.

ONE LAST WORD: Tracy I've had all the boo's I'm going to take. I'll get you back and you'll be sorry.

OH MY GOODNESS I promised to put the Mexican Salad recipe in this week and I forgot it, so I'll promise you to have it next time for those of you who wanted it. Sorry, just such a long column trying to catch up with everyone.

Continuance Motion Denied For DeBord

A motion for a continuance in the case of Melvin Glenn DeBord, 21, of Amarillo, who is charged with homicide by vehicle, was denied Tuesday by acting County Judge Elton Cox.

DeBord's attorney, Harris Hampton of Canyon, told the judge DeBord's trial, which is scheduled for Aug. 1, should be delayed due to prejudicial publicity.

DeBord is charged in the mid-April death of Richard Eugene Gunn, 21, also of Amarillo. DeBord was driver of a semi-tractor-trailer which collided with a car driven by Gunn at Farm Roads 2219 and 250.

Hampton argued Tuesday that publicity given the incident in local and Amarillo press and television would be prejudicial to prospective jurors.

Judge Cox denied the motion. Hampton also argued in another motion that DeBord was not guilty of gross negligence in the accident, but only of simple negligence.

He cited two civil law cases to support his conclusion.

Bob McClendon and Jim Blair of the Randall County District Attorney's office argued that the definition of gross negligence has never been established in a criminal case involving the charge filed against DeBord. Cox asked Hampton and the DA representatives to present briefs concerning the issue. He said he will receive the briefs by Friday morning.

DeBord has been charged under a new statute in Texas. He is charged with a major misdemeanor rather than a felony.

Hiram T. Carr, D. D. S. takes pleasure in announcing that **Bernard Fitzner, D. D. S.** will be associated with him in the practice of General Dentistry

Happy News

Jaycees and Ettes Prepare for Barbeque—Jones Is Lions President—4-H in Rodeo

BY MARY NEAL HENRY

DON'T ASK if I've moved, I am all ready, but the house isn't. The brick layer showed up, that is one more home run. I'm proud of him. Now if we can get the finishing done. . . and oh, that is slow, even if the days are long. We have eaten so many sandwiches (who has time to cook?) that J.T. asked the other night, "When we get moved into our new home, are we going to have good meals again?"

DID YOU SEE that beautiful rainbow Wednesday evening of last week? It was one of the bigger and more brilliant ones I've ever seen!

LATER, I learned that Vesper Sims died this same July 12. I was at the hospital that morning around 9:30 to see her. . . but Vesper never knew that I was there. Dorothy was sitting with her. The Sims are long time friends. Vesper is the one who told me that Mamie Hayes died and two weeks later, drove all the way out to the house when Sonja died. (We didn't have a telephone in those days.) Vesper and I had the nicest visit during the contest of the Canyon News. All our sympathy goes to the Sims families. We'll all miss her.

THE Bradley family met in Tulsa on Sunday, July 16, for the dinner to celebrate Mr. and Mrs. Price Bradley's 55th wedding anniversary and Price's country home. Some of the families and friends present were: Melvin and Phyllis and Chris Bradley of Gruver, Homer and Shirley Bradley and their Malia and Danny of Amarillo, Jim Made-well, Dan and Pauline Vaughan, also of Amarillo, Mr. and Mrs. George Sweeney of Silverton, Mr. and Mrs. A.G. House of Albuquerque, New Mexico, Mr. and Mrs. French McGavock and Peggy and Dave of Happy, Mr. and Mrs. Bruce Riley, Mr. and Mrs. Walter Bradley, Mr. and Mrs. Van Crawford and their Patti, Mrs. Thelma Vaughan, Mr. and Mrs. Simmie Vaughan, Mr. and Mrs. Robert Barley, Mr. and Mrs. Odell Jennings, Mr. and Mrs. Glen Carter, all of Tulsa.

MEL and Phil and Chris came by the house and visited a couple of hours before returning to Gruver. They went to see "TEXAS" in Palo Duro Canyon on Saturday night.

HAPPY Jaycee-Ettes worked

diligently putting their gazebo (summer house) on a float amid a garden of flowers for Miss Happy, Mary Ann Sims, and Little Miss Happy, Melissa Null, to ride in the Tulsa parade on Saturday. Alternates Karen Murdock and Lisa Johnson also rode the float. Many complimented how pretty it was. Beth Stockett was chairman. Happy Jaycees also advertised our Happy Day Celebration which is August 17, 18 and 19. Saturday, the 18th is the really big day, with bar-b-que, parade, and all that. There will be a steer roping on Sunday afternoon, August 20. Tom Henry and Lloyd Rahls drove the mules, Maude and May, carrying the big sign in the wagon. They also rode through the rodeo arena that night right after the grand entry. It is surprising how many "old timers" and younger ones too, get so fascinated by seeing once again a set of mules harnessed up and working together. I rode around the outside of the arena to back entry with Tom, but those old buck boards surely didn't have very good shock absorbers, did they? I'd hated to travel west in one of those (east or any other direction.)

A SQUARE dance group, Shirt and Skirts, won first in the parade; Children's Community Home Demonstration Club won second, and Farmer Union won third. "82 Years" was the theme of the parade.

BY THE WAY, a big Thank You to Cecil and Ray's Garage for letting the Happy Jaycee-Ettes put their float together in their building.

SUNDAY, the Happy Jaycees gathered wood for their own barbeque next month. Larry Simons, Kit Bragg, Lloyd Venhaus, Lloyd Rahls, Duane Stubblefield, Gene Shipman, Jim Whitlow, Norman Freeman, James Stockett, Eugene Jackson, Vincent Benjaus, Randy Johnson, George Henry, Dick Foster, and Tom Henry worked but they didn't get enough wood. They'll make another day of it.

HAPPY Jaycee-Ettes and their children went swimming at Canyon pool while the men worked. Skip, Clay, and Swayne Simmons, Della, Dayna, Gay, Carla, Dan, and Don E. Venhaus, Susan and Little Lloyd Rahls, Judy, Raphe and Mandi Shipman (and Judy came by after) Sheri, J.T. and Angelique Henry, Joy, Corin, Shay, and Joe Freeman, Betty, Lucinda and Gina Stockett, Billy, Ronnie and Kay Jackson, Teri Patching, and Karen Venhaus, Dot, Lissa,

Dana and Kim Foster swam or sunned and then ate hamburgers. Thank you, Betty, for bringing my children home.

HAPPY Jaycee-Ettes are making new outfits for the Happy Celebration. They will be blue dacron trimmed in white rick rack. And very cute. Don't know if I'll have one or not. I haven't worn the one Skip made me yet. I appreciate all Skip's efforts.

M.Y.F. went to Wonderland Park for a social on Wednesday of last week. Enjoying miniature golf and the "joy" rides were Billy, Debra, Ronnie and Genie Jackson; Roger, Ernie, and Johnny Wilson; Dana Cheek; Karen Hinton; Jack Wallace, Kim McCaslin, Beck Stubblefield, Eddie Wilson, Aaron Parker, Bill and Vickie Whitlow, Mary and Charles and Christi McCaslin.

KIM McCASLIN entertained a group of friends on Tuesday of last week. Eddie Joe Pearson, J.T. Henry, Robert Cole, Ricky House, Lisa Payne, Diane Johnson, Gay Venhaus, Becky Stubblefield and Bonnie Briscoe played games and had a good time. Kim served cookies, brownies, chips, and soft drinks. Mary and Duane Stubblefield chauffeured some of the kids out from Happy and helped Mary and Charles chaperone the party.

J.T. spent that night with Eddie Joe. He spent Sunday night after swimming with Raphe Shipman. Next?

JAN Whitlow has been visiting her cousins Karen and Kim Sims in New Mexico. Ann and Weldon have recently moved out there, but Karen will finish school in Dimmitt. Karen is a Senior.

BARBARA DOWD is attending the Citizenship School at Baylor University, Waco, Texas this week. Farm Bureau sponsors this.

GRACE Turey, Charlotte Weaver, Judy Shipman, Della Venhaus, Millie Middleton, Mary Womack, Neil Martin and Leona McFarland were guests of the Lions for dinner on Tuesday of last week. Business women of Happy were special guests.

SAM BRYAN, Bob Pulsipher and May Allison received gifts for their work and efforts the past year. Frank Turey, retiring president, presented these.

NEW OFFICERS for the Lions Club are: president, Joe Bob Jones; first vice president, Harry Hardaway; second vice president, Burl Sims; third vice president, Mark Nichols; secretary-treasurer, Foster Harman; tail twister, Willard Middleton; and lion tamer, Sam Bryan. Dir-

ectors are Frank Turey, Simon Elliott, Carl Small, Harold Eakes, and John Toles.

THEIR Caravan Sale is in September and if you all don't save me a broom this year, I am going to be unhappy that I was last year. I've worn mine completely out in this remodeling, etc.

THE HAPPY CHIEFS were defeated by the Nazareth Dodgers 22 to 17 last Friday night. Vince Price and Tim Moudy pitched during the game. Vince Price hit one home run. Their game on Tuesday night was rained out. They were only one point behind when the game was called.

THE HAPPY BRAVES had an open date last Tuesday and lost to the Nazareth Astros on Friday 6 to 10. Happy Braves did win the league and the first All-Star game will be in Happy on Thursday night. They'll play in Nazareth on Friday night and if a third game is necessary, they'll probably play in Happy again on Saturday or another night. The Brave all stars are Sidney Eades, Mike Weavers, Luther Vandergriff, Danny Wrenn, Vincent Ray Venhaus, and Hol Toles.

THE CHIEF All Stars are Vince Price, Tim Moudy, Wade Grubb, Doug Sims, Corin Freeman, and Vance Morrison.

GIRLS ALL-STARs (soft ball) will be playing in a tournament in Dimmitt this weekend. Kookie Katchers All Stars are Amy Wallace, Patricia Gauthreaux, Gay Venhaus, Dayna Venhaus, Lisa Johnson, and Diane Johnson. Nancy Woods is alternate. Battling Blues All Stars are Rhenea Briscoe, Vicki House, Bonnie Selvidge, Connie Hand, Nina Eads, Lisa Payne and alternate, Becky Stubblefield. Happy Jaycee-Ettes gave all the softball players a party last week.

MIKE HENDERSON, Bilt-Rite associate manager, has gone to the National Duroc Congress in Des Moines, Iowa. Bilt-Rite Farms sent two boars and a certified litter to the National Duroc Congress. These will be judged later this week. Mike is from Iowa. He was managing editor for the Duroc News for six years in Peoria, Illinois, before coming to Happy last August, but Des Moines is Mike's home town.

MARK TACKITT went to Weatherford, to visit his aunt, Betty Jo Crumm, from Wednesday to Monday. While there, they went to the All Star Girls' Basketball game in Brownwood.

ANGELIQUE Henry spent Monday night in Amarillo with her grandmother, Oma Hayes. She has wanted to do that all summer and she finally made it.

KENNETH Littlefield was burned by anhydrous ammonia on his neck, left side and left arm on Friday morning. He spent Friday night in the Swisher Memorial Hospital and was released on Saturday.

MRS. TALBERT is improving but still in Nebett Hospital. JANA, TIM AND DON Bowe are visiting their Happy Grandparents, Ernestine and Vilo Danner and Maude Bowe.

MANDI SHIPMAN visited

Carry Venhaus one night while Raphe was in R.A. Camp and her mother was working.

MRS. LIZZIE WESLEY was honored with a birthday party at Judy and Gene Shipman's home last week. Nan Earl, Patricia, Tonya, and Jerry Doyle were there. So were Lillie and Jerry from Hereford. And Raphe and Mandi. Belated Happy Birthday to you, Mrs. Wesley.

HAPPY High School's Homecoming is on Friday, September 29th, this year. That is the twenty-ninth, make no mistake. I'd like to see all that football team get to be present.

BY THE WAY, CONGRA-

TULATIONS! HAPPY JAYCEES, on winning second place at NATIONAL in Ways and Means. Can you imagine? That is quite an honor and we are all proud of you! Norman Freeman, just past president, has a feather in his cap. Lloyd Rahls is working extra hard to keep up, too.

GORDON Foster's daughter, Terri, and her friend Donna Boyd of Garland are spending the summer with Gordon and Lida. They had been here for a visit and have come back to spend the summer. Lida says

having girls is different for a change.

HAPPY 4-H met to practice for participation in the Grand Entry at Tulsa Friday night (Swisher County 4-H set the pivots) and the parade on Saturday afternoon. They named themselves the Happy Marauders. Kevin, Kalle and Neal Odum, Valeire Tipps, Debra Magness, Sherrie Starkey, Angelique and J.T. Henry, Eddie Joe Pearson, Wayne and Billie Tipps, Don Magness and Pete

Odum all met on Thursday night to practice parade drill, etc. On Friday night, a host of Swisher County 4-H in their green vests, white shirts, black ties, and green saddle blankets (of which I made two on Friday) rode in the grand entry at the Tulsa Rodeo. Roland Moore and Wayne Pearson also rode with these children in the parade on Saturday afternoon. They looked very nice and did well.

MRS. VIRGIL TOLES, who now resides in Kings' Manor in Hereford is our newest subscriber. Mrs. Toles is enjoying her new home and her address is Box 1657, Hereford, 79045. Many mentioned that they dropped her a card on her birthday, July 4th. A belated Happy Birthday, Mrs. Toles!

SANDY Railsback spent Friday night in Nebett Hospital because of a blood deficiency. Sandy will be resting at home for a few weeks.

RHONDA Fellers, Sandy Railsback, Debbie McCarley, Jini LaRoe, Becky McCarley and Mrs. Sherry McDowell attended a yearbook workshop at Tech last week.

THE FIRST Baptist Church will have a Lay Witness Mission September 1, 2, and 3. This is something new to Happy Baptists (I remember the Methodist Church having one) and will be a time when they share with each other their experiences of faith.

LET'S NOT mention the Mustard Seed this week. Maybe someday we'll get it correct.

R.A.'s went to camp last week. Andy Hand helped Steve and Bill Vernon sponsor them. Steve thought that very humorous because he had helped sponsor Andy. You've begun to pay for you "raising." Andy, Raphe Shipman, Chuck and Rod Walker, Mike Weavers, David Martin Lane, Leslie Weavers, Hol Toles, Jay Oler, Jimmy House, Bill Cope, Jerry Sims, J.D. Phillips, and Casey McBroom spent the few days at the Baptist encampment near Floydada.

BROTHER Paul Heil, Bob Sims, and Forrest Vise attended the Baptist Men's Rally at the Palms Baptist Assembly on Monday, Dr. Harold T. Branch of the St. John Baptist Church of Corpus Christi was the inspirational speaker. Over 800 attended that service.

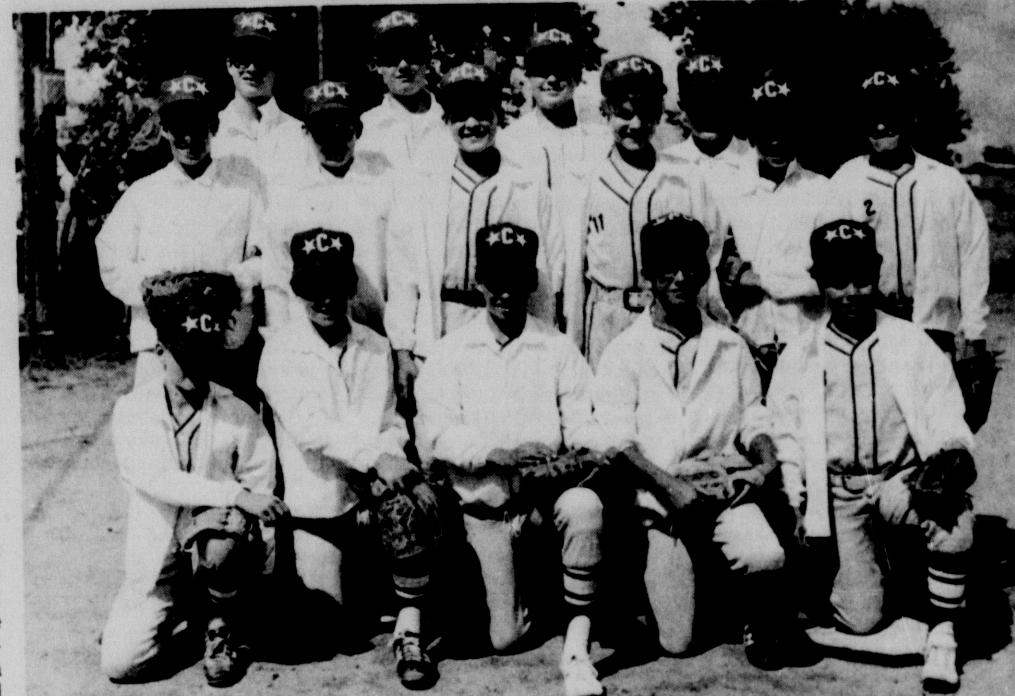

I enjoyed your letter about your visit to the Holy Land in the Happy News, Brother Paul.

THAT MUSICAL that the young people have been working on all summer, "Love" will be presented on August 13. It came out in the church bulletin one Sunday morning that the "Love" rehearsal would be at a certain time that week and Steve Vernon very promptly explained that rehearsal would be the musical. It was funny at the time!

CONGRATULATIONS to Wicky Culp. He had a big write up in two papers and has received the American Star Farmer degree. We won't retell all his accomplishments, but they are numerous. Your last week's Sunday paper (Canyon News, of course) had a write up.

MYRA NELL and Everette must be really busy this day. They will soon have a new daughter-in-law. Gary will wed soon and we hope to meet his "chosen" at the shower at Mary Jane's next Saturday. (I'll paint faster so maybe I'll be out of paint again by then).

See ya, Mary Neal

Members of the Little League All-Stars are, front row, from left: Billy Bender, Todd Kent, Ches Bostick, Frank Palmer, Steve Schmidt; second row: Brent Anderson, Mon-

ty Bell, Kirk Spanling, Todd Nix, Ty Pruett, Terry Collins; third row: Edwin Dillahay, Stan Cranner, Monty Harrison, and Davy Camfield. (See story on Page 2.)

Reading Conference Set

Promoting the enjoyment and improvement of reading in the classroom and home will highlight a reading conference at West Texas State University Aug. 1-2.

The 20th Texas Association for Improvement of Reading (TAIR) Conference is open to interested parents, teachers, administrators and college students.

Registration deadline is Friday. Conference fee is \$6 for the two days or \$3 for one day. Applications are available from Dr. Helton Wilbur, associate professor of education at West Texas State University.

Dr. John T. Thornton Jr., TAIR president and coordinator of graduate and undergraduate reading programs at Stephen F. Austin State University, will preside over the opening day session.

Featured speakers will be Audrey E. Claus, curriculum specialist with the St. Louis, Mo., public schools, and Dr. Frank J. Guszak of the Department of Curriculum and Instruction at the University of Texas-Austin.

Miss Claus will present two lectures Aug. 1 on "Reading to Stretch the Learning Edges" and "Schemes Behind the Dream." Coauthor of a widely used spelling series, Miss Claus currently

is working with Dr. William Kottmeyer on a vocabulary development program which has received nationwide attention based on its pilot stages in St. Louis.

She has adapted a number of fairy tales and has written a series of workbooks for children in beginning reading, language and school readiness.

Miss Claus has taught in the fields of reading and language and elementary education at Washington University and at Harris Teachers College, both in St. Louis. For four years starting in 1967 she structured and directed a teacher certification program to retain women with degrees in fields other than education for the primary classrooms of the inner-city.

Guszak will present lectures Aug. 2 on "Strategies for Developing Comprehension Skills" and "Diagnostic Reading Instruction in Your Classroom," the latter taken from the title of his recently published book.

Formerly a counselor and director of a research project at the University of Wisconsin, Guszak has among his published works two teacher's manuals on reading, chapters in three books and a number of magazine articles.

He has taught in the public

schools of Texas and at the universities of Wisconsin and New Mexico.

General sessions of the conference begin each day at 8:45 a.m. in the Activities Center on campus. The agenda includes panel discussions, presentations by area teachers and students, exhibits of books and learning tools.

Dormitory accommodations may be made through Mrs. Jean Roberts, dean of women at WTSU.

York Takes Job As Principal At Littlefield School

Canyon High School assistant principal Jack York has accepted a position for next fall as principal of Littlefield High School.

York has turned in his resignation in Canyon.

York, who came to Canyon in 1969 as an assistant coach for the high school, has been assistant principal since 1970.

"We have lots of friends here," York said this week, "and we hate to leave. It was just too good an offer to turn down."

Prior to coming to Canyon, York had taught two years at Shamrock, two years at Groom, and four at Lefors. He received his bachelor of science degree and master of education degree from West Texas State University.

Tidbits

here and there

BY CAROL CRAIN
AROUND SEVENTY-FIVE GUESTS attended the 25th wedding anniversary celebration for Gene and Bill Crow Sunday evening at the Canyon Community Center.

Guests signed the book of Wedding Memories which held pages of original decorations hand painted by artist D. Crow some 25 years ago.

The elegant serving table carried out the colors in the book — pink, green and silver. A gorgeous bouquet of two dozen pink roses, baby's breath, surrounding bride and groom with 25th wedding anniversary complimented the table. An under-cloth of soft pink highlighted the embossed ecru one and silver and crystal appointments accented the setting.

Guests were served decorated cakes, punch or coffee, mints, and nuts.

Several out-of-town guests attended the affair.

The groom of 25 years presented his bride with a lovely set of diamond rings to celebrate the occasion.

A TRIP THROUGH THE South, including points of interest in Arkansas, Mississippi, Tennessee (Nashville in particular), Alabama, and Louisiana was taken recently by the C.F. Hollabaughs and Corene Montgomery.

The venture was most enjoyable. I understand.

BY THE WAY, Corene is a very talented seamstress and creative person. Custom-made draperies are a specialty of hers — just in case you may be needing some!

She has promised to make me one of those "Holy cow, are you eating again?" cow signs for my refrigerator, too!

THE MELODRAMA AT The Hole in the Mall is fun for the family members of the Heritage Woman's Club reports.

Those who saw the show last weekend included Mr. and Mrs. Larry Brandon, Mr. and Mrs. Carl Hollabaugh, Mr. and Mrs. Jim Peery Mr. and Mrs. Wm. A. Ritchie, Mr. and Mrs. Pat Shehan, Mr. and Mrs. Phillip Brown, Mr. and Mrs. Roy McGregor, Mr. and Mrs. Roy Gibson, Mr. and Mrs. Eddie Poole, and Mr. and Mrs. John Plank.

The villain is super fun for everyone, they tell me.

THE CARL HOLLABAUGHS and children enjoyed a trip to North Pole, Colorado recently. The adorable Land of Santa features goats to feed and colorful decorated toy shops.

The family also visited Cripple Creek and Colorado Springs.

MINIATURE SANDWICHES sometimes featured in the assortment served at Neiman-Marcus Mermaid Shop has fillings of (1) Egg Salad with jumbo shrimp, (2) cream cheese with chopped marischino cherries and ground pecans.

BROILED CHICKEN HAWAIIAN 2 chickens, split in half Brush these with butter, then

School. . .

(Continued from Page One)

three years. According to the state's master plan, Canyon's vocational school would be constructed for about 450 students with the local district paying half the cost and the state using federal funds for the other half.

"We could finance this without a bond issue," Jacobs told the board. "But, it might involve an increase in the tax rate for two or three years."

Jacobs suggested the board might consider a bond issue first, however.

A vocational school here would house classes in auto mechanics, building trades, vocational agriculture, vocational office education, homemaking, and possibly vocational programs for the handicapped, Jacobs said.

The school superintendent said the school board does not have to build the facility even when state approval is granted, but he warned that it could be as long as five or six years before Canyon might receive approval on such a project again.

Board members tabled any action on the project.

Two teachers in the high school's agriculture department, Jim Walker and Ron Davis presented to the board long-range plans for the development of the school-leased agriculture farm south of Canyon.

Walker said the farm is undergoing the first in what he proposes as five phases of development. Currently, a water system is under development, a central building is being sought.

Hopefully, he said, a holding pen, some concrete foundations and the fencing of the farm boundary will also be accomplished in this first phase.

Walker presented figures indicating that cost for the first phase development would be about \$5,455. The price includes a small metal-type building, which would be used for storage, office space and classrooms.

Projects scheduled in the second phase of the program would include construction of a shed, pens and chutes, fencing alleys and further water system development.

Other phases in the five-phase plan would call for construction of other sheds and pens, additional roads, landscaping and an addition to the central building.

In other business, acting board president Tom Keeling complained of overcrowding in the high school locker rooms and asked if plans have been prepared to relieve the problem.

Jacobs showed the board plans which were drawn up about three years ago in anticipation of high school expansion.

"The problem," he said, "is to build some extra room and yet make it so we can add on another gymnasium later if we want to."

Board members asked Jacobs to have the school architects draw up rough plans for expansion of the locker room areas which would be compatible with any future expansion the school might have to do.

Consumer's Fuel Association was named low bidder to supply the district's gasoline next fiscal year. The association bid 13.60 cents per gallon less taxes. Other bidders were Continental Oil Co. with a bid of 13.80 cents per gallon and Mobil Oil Corp. with a bid of 13.90 cents per gallon.

Plains Creamery, Inc., was awarded the schools' milk contract for next year after bidding a low of .0748 cents per half-pint for whole milk and .0775 for chocolate milk. Their bid did not include a 5 per cent discount which the company also bid.

Other milk bidders were Borden Dairy Products with a bid of .0748 cents per half pint for whole milk and .0770 for chocolate, and Cloverlake with a bid of .0775 for whole milk and .0775 for chocolate.

The contract to provide bread next year went to American Bakeries, and the ice cream bid went to Swift and Co.

No bids were received for fresh fruit and vegetables, but the board was told Panhandle Fruit Co. will provide these items at wholesale prices next year.

A \$32,000 athletic budget for 1972-73 was presented to the board, but no action was taken.

The budget includes a projected \$13,000 expenditure on high school football.

The board approved the resignations of Jack York, former assistant high school principal, and Jackie McAlpin, former vocational office education teacher.

The board hired James Chandler to teach history and coach at the junior high, Miss Davida Emanuel to teach at Rex

Reeves, Mrs. Lynda Shackelford to teach at Rex Reeves, Richard Stewart to teach history and coach at the junior high, Robert Wink to teach vocational agriculture at the high school, and Mrs. Janet Fincher to teach home economics.

Next board meeting will be Aug. 1.

New Dentist To Practice

A new dentist will begin practice in Canyon within the next week.

He is Bernard Fitzner, a Tucumcari, N.M., native.

Dr. Fitzner will be an associate in Canyon of Dr. Hiram Carr.

The dentist is a spring graduate of the Baylor Dental School in Dallas.

Prior to entering dental school, Dr. Fitzner was a school teacher. He taught four years in Tucumcari, and two years in Mohave, Calif.

He graduated from Eastern New Mexico University at Portales with a degree in industrial art and education.

Dr. Fitzner and his wife, Beth, said they came to Canyon "because it looked like a place we'd like to live."

"It has good educational facilities," Dr. and Mrs. Fitzner have two sons, Ken, 9, and Warren, 6.

County. . .

(Continued from Page One)

ges said.

"Well, we've got a lot of folks in this county who don't have pavement and probably never will have pavement," Fletcher replied.

Hodges pointed out that due to the many residents of Arden Road, the street gets much more use than most farm roads.

In other business Monday, the commissioners voted to purchase two new Chevrolet Impalas from Hudiburg-Jones Chevrolet in Amarillo.

Hudiburg-Jones was lowest of three bidders for the two cars. Other bidders were Imperial Chevrolet of Canyon and Jess Stout Ford of Canyon.

Hudiburg-Jones bid a difference of \$3,201 for a new Impala accepting a 1967 Chevrolet as trade-in. Accepting a 1970 Plymouth as trade-in, the company bid \$2,701 on another Impala.

Imperial Chevrolet bid \$3,547 with the '67 Chevrolet trade-in, and \$2,872 with the Plymouth trade-in.

Jess Stout Ford bid \$3,379 on the Chevrolet trade-in, and \$2,729 on the Plymouth trade-in.

Commissioners tabled again action on selecting a supplier for gasoline, diesel fuel and oil.

Initially, Road Superintendent Joe West recommended Gulf Oil Corp. of Amarillo be given the contract for gasoline and that Ted Lokey Oil Co. of Amarillo be given the contract for diesel fuel and greases.

But, due to a questionable item in the Lokey bid, the commissioners decided to table the bids until a Lokey representative can be contacted.

Following the meeting, the commissioners examined a building in Palo Duro Shopping Center and Cooper's Market to determine county tax valuations for the two buildings.

Tower. . .

(Continued from Page One)

way was about 685 feet from his property before the extension and that it is now within 100 feet of his property.

Meanwhile, Tradewind management contends the tower is a definite hazard, particularly at night since it is unlighted.

The petition for abatement of a public nuisance filed by the DA's office Monday calls the tower a safety hazard, too, and says it impedes the flight of aircraft.

The tower endangers life and property, the petition contends, in that it reduces the size of the landing and taking off area of the runway.

The petition says the public is threatened by the tower.

Dr. and Mrs. Bernard Fitzner browse through The Canyon News in search of a house in Canyon. The Fitzners came to Canyon this week from Dallas where Dr. Fitz-

ner has been attending Baylor Dental School. He will go into practice with Dr. Hiram Carr, local dentist.

Police. . .

(Continued from Page One)

law enforcement.

Stewart hopes the post will provide an opportunity for the explorers to study all phases of the law enforcement field.

This opportunity will be offered in a variety of ways.

Stewart says the post will probably have two meetings per month—one for administrative matters and the other for programs or training experiences.

"We'll be giving classes on patrol, firearm safety, crime detection, traffic management, physical training, jail management, photography, fingerprinting and narcotics."

Guest speakers from various law agencies—such as the sheriff's office, the FBI, the Department of Public Safety—will present programs on the various topics.

In addition, Canyon police-

Demo. . .

(Continued from Page One)

the opportunity to meet Democrats from other delegations.

And, she met some Democrats of national prominence — like John Lindsey, Hubert Humphrey, George Wallace and Edmund Muskie.

If Mrs. Green found herself among friends when she met delegates backing McGovern, she felt estranged — if not threatened — by many supporters of Gov. George Wallace.

She said she found supporters of Wallace intolerant. "We were not that intolerant of Wallace and his people," she said. "But, maybe it was easier for us to be tolerant since we had the whole thing our way."

In fact, Mrs. Green and some friends from the Texas Delegation — all backers of McGovern — attended a reception held for the Texans by the Wallace Backers.

"The Wallace people were very emotional," she said. "They were emotional about his health and very protective of him."

Even so, Mrs. Green was impressed by the Alabamian.

For the Canyon woman, it was almost as interesting to visit with people in the streets of Miami as it was to talk with fellow delegates at the convention hall.

"I didn't stay in the Texas delegates' hotel," she said. "I stayed down by resurrection city in the middle of an old retirement area. I was the only convention person there probably."

Since she was so close to resurrection city, Mrs. Green said she spent one or two hours a day talking with the people who had gathered there — the young, the SDS, the Gay Liberation Front, the Chicanos, the Blacks.

"Most of them were much more radical than I am," she said. "This surprised me. People there were completely down on the whole system. I was surprised they'd come all that way and even bother when they were so totally down on the system."

Mrs. Green was impressed with the general atmosphere of the city-within-a-city.

"This was where the old people went and you would have thought they'd be bitter because their place had been taken over," Mrs. Green said. "But, I'd walk along and see three or four hippies and an old person sitting on the grass talking. And, some of the old people were teaching the younger ones how to play shuffleboard and having a good time."

Mrs. Green said she came away from the convention not as many people have asked her, disillusioned with the nomination process.

She said she did have one experience which left her disillusioned for a while.

"It was on the abortion plank and it was my one chance to vote at the convention," she said. "I went down to the floor and this woman asked me how I felt about it. I told her I was in favor of legalized abortions and she told me I would have to vote 'no.' I told her I felt too strongly about it to vote 'no,' and she told me to go back and get another alternate who would vote 'no.'"

Mrs. Green later found that the woman she confronted was not working under instructions from McGovern and that delegates from other states had been told to vote their consciences.

men will handle programs themselves.

Stewart has some big long-range plans for the post.

"After the thing develops, these young people can come out and ride with us at night," he said. "They can actually get involved in police work and be a part of it."

And, Stewart said, the explorers could prove to be a valuable asset to Canyon.

"They could help us with certain things like traffic direction or perhaps in some kind of emergency," he said.

Stewart feels that through the years, explorers from the post will decide to become career law enforcement personnel and will be easily integrated into agencies.

Currently, he said, large explorer posts of this kind exist in Los Angeles. He said Amarillo is now forming one, also.

The post is open to both girls and boys.

Rights. . .

(Continued from Page One)

program. The complaints filed by WEAL is the only complaint against the school, Kurtz said. He said the Office of Civil Rights has received no complaints from individuals or minorities.

The issue evolves around figures released by the school administration and published in The Canyon News on Jan. 23 which indicate that men overwhelmingly outnumber women in numbers, pay and education at WTSU.

According to those figures, 100 per cent of the administration of officers and academic deans are men. And, 84.3 per cent of the officers of instruction are men.

The original news article pointed out that one woman at the university has the title of full professor, while 44 men have the title.

There are also 30 men who have the title of full professor who make a higher salary than the woman full professor.

Cattlemen. . .

(Continued from Page One)

al economy is dependent on the sheep industry," he said.

"The cattle feeding industry is something new to us. In fact," he said, "99.5 per cent of cattle are pasture fed, but they seem slowly to be turning to grain. It's more of a trial period for us right now."

Last year, Australia beef exports totaled \$642 million, compared to \$610 million for wool.

"Sheep have — somehow — become unproductive for us," Cavanagh said. "I don't know why, but it just happened. Now, steers are selling real well."

He produced figures released in an Australian newspaper four weeks ago showing medium steers, 550 to 650 pounds, selling for 13.3 cents to 16 cents per pound, live weight.

The group left this morning for Los Angeles, and will return to Australia to — as Cavanagh said — "Ponder this out."

"It's something we have to be interested in," he said. "Twice the cows as people is okay, but when you have 160 million sheep that some how are not producing, you have to ponder it."

Dees Attending Conference

Dr. Myron Dees, chairman of the health and physical education department at West Texas State University, will be among some 18 participants in the Texas Conference on Physical Education for the Handicapped, which begins today at the University of Texas at Austin.

Among topics to be discussed are model programs, teacher preparation, perceptual motor difficulties in the handicapped, funding programs, motor development and aerobic dancing with retarded children.

Participants will tour the physical education facilities at Travis State School and will be given a physical education demonstration in the school's gymnasium.

Water. . .

(Continued from Page One)

annexation.

Property included in the proposal is occupied by The Only Place, Daisy's and Currie Drilling.

Ed Wieck, president of the Palo Duro Soil and Water Conservation District, appeared before the commission seeking sponsorship for a survey of the Tierra Blanca Creek and Palo Duro Creek watershed to determine if flood controls are needed.

He said the survey will be conducted in conjunction with similar surveys in several other counties.

Commissioners agreed to sponsor the survey, but only if they were given approval authority before funds could be expended.

Wieck said federal money will be used to finance a feasibility study, a survey and erection of flood controls. He said local money would be needed for upkeep of the flood control devices once they were installed.

Randall County commissioners have already agreed to sponsor the survey with a similar restriction as to expenditure of funds.

Wieck said that initially a feasibility study will be made to determine whether there is enough danger of flooding on the creeks to warrant an in-depth survey and subsequent erection of controls.

Wieck said it is his opinion that the feasibility study will show there is not sufficient danger, but he said the Soil and Water Conservation District wants to carry out the study as a

preventive measure.

If control devices were determined necessary in the city limits of Canyon, the city would be expected to pay for upkeep of those controls only, he said. He also noted that since the flood controls allow for some standing water, the pools might be used for recreation areas.

Commissioners also passed a resolution adopting a comprehensive water and sewerage system plan to aid in the orderly development of Canyon's systems.

The plan was developed in cooperation with the Panhandle Regional Planning Commission, which provided funding.

In presenting the resolution to the city fathers, Louder said many of the actions called for by the plan in the next five years have already been carried out in the past 18 months.

In other action, the commission approved the rezoning of 15.4 acres in the Canyon Creek area from single family 1 to single family 2. Request for the action was made by developer Arch Hunsley.

The commission also passed a resolution paying tribute to Burney Slack, long-time city judge who died last week.

News Brief

Dr. and Mrs. Fred Stoker, 2614 9th Ave., have returned from a trip East where they saw daughter Cindy board for a flight to Paris and visited son Brian, serving with the United States Army in the Rayburn Building, Washington, D.C.
